BALLISTIC RUBBER

Rugonal Ballistic Rubber tiles exhibit tremendous capturing properties to prevent ricochets and lead splashbacks thereby reducing lead dust propagated from repeated range firing. Rugonal Ballistic Rubber Tiles can be installed on walls, baffles, ceilings and floors and collectively are helpful in attenuating noise. This Finished surface is smooth with no protruding edges.

Rugonal Ballistic Safety Flooring is a seamless polyurethane floor covering is ideal for indoor shotting ranges. The Finished floor surface is smooth and dense with no floor joints that can provide an impact edge. Ecoflex can be easily cleaned either using dry or wet vacuum method.

The surfacing program is complimented with rubber interlocking pavers, shooting Blocks and Fragmentation rubber sheet

BENEFITS

- Richochet Capture
- Fragment/Bullet Rebound Absorption
- Noise Attenuation
- Seamless Surface
- Smooth & Dense Finish
- Easy Cleaning

OUR PRODUCTS
