Kumwell Corporation Public Company Limited and its subsidiary Condensed notes to interim financial statements For the three-month and nine-month periods ended 30 September 2024

1. General information

1.1 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company presenting condensed interim financial statements. The Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity, and cash flows in the same format as that used for the annual financial statements and has presented notes to the interim financial statements on a condensed basis.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.2 Basis of consolidation

The interim consolidated financial statements include the financial statements of Kumwell Corporation Public Company Limited ("the Company") and its subsidiary company ("the subsidiary") (collectively as "the Group") and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2023, with no significant changes in the composition of the Group during the current period.

1.3 Accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2023.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2024, do not have any significant impact on the Group's financial statements.

1.4 New financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2025

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2025. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

2. Related party transactions

During the period, the Group had significant business transactions with related parties. Such transactions, which were summarised below, arose in the ordinary course of business. There were no significant changes in the transfer pricing policy of transactions with related parties during the current period.

Summarised significant business transactions with related parties are as follows.

10. Segment information

The Group is organised into business units based on their products and services. The Group is principally engaged in production and distribution electrical equipment, graphite mould, metal powder and ground wire. Its operations are carried on only in Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain exclusively to the aforementioned reportable operating segment and geographical area.

During the current period, the Group has not changed the organisation of their reportable segments from the last annual financial statements.

11. Dividends

14. Financial instruments

14.1 Fair values of financial instruments

Since the majority of the Group's financial instruments are short-term in nature or carrying interest at rates close to the market interest rates, their fair value is not expected to be materially different from the amounts presented in the statement of financial position.

14.2 Fair value hierarchy

As at 30 September 2024 and 31 December 2023, the Company had the financial assets that were measured at fair value using different levels of inputs as follows:

							(Unit	: Million Baht)
	Consolidated financial statements/Separate financial statements							
	Level 1		Level 2		Level 3		Total	
	30 September	31 December	30 September	31 December	30 September	31 December	30 September	31 December

								(Audited)
Assets measured at fair value								
Other non-current financial assets	-	-	10	14	-	-	10	14

During the current period, there were no changes in the methods and assumptions used to estimate the fair value of financial instruments and there were no transfers within the levels of the fair value hierarchy.

15. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's Board of Directors on 14 November 2024.
