@eonsystem

Established in year 2019, EON-SYSTEM (Thailand) is hydraulic distributor based in Thailand, we are experienced in the hydraulics industries. We are renowned for our expertise in hydraulics system design, component fabrication and engineering services.

We actively engage in projects with our clients, understanding their needs and requirement before offering them a complete and comprehensive solution. Our extensive knowledge in system design gives us a competitive edge in the industry, coupled with excellent service value and product assurance, we are confident in retaining our client and winning them over as our long-term customer.

We have worked with several industry such as Marine offshore, Construction, Agriculture machine, Slide truck and E.T.C

## ALUMINIUM GEAR PUMP/MOTOR

## CAST IRON GEAR PUMP/MOTOR

## FIXED DISPLACEMENT PISTON PUMP

## HYDRAULIC MOTOR

## MONOBLOCK CONTROL VALVE

DP40

DP80

DP120

DCP80

## SECTIONAL CONTROL VALVE

HC-D12

HC-D16

HC-D25

HC-D40

## DIRECTIONAL CONTROL VALVE

Cetop 3 (NG06)

Cetop 3 (NG06)

Cetop 5 (NG10)

Cetop 3 cum lever

Cetop 3 hand lever

Cetop 5 hand lever

Modular stack valve

Manifold block

Cetop 7

Cetop 8

Cetop 10

Cartridge valve

Proportional valve

Proportional valve

RCM Joy stick

RCX Joy stick

## REXROTH PRODUCT

External gear pump

Internal gear pump

Fixed piston pump/motor

Variable piston motor

Vane motor

Open circuit pump

Closed circuit pump

Spare part

Directional valve

Directional valve

Directional valve

Modular stack valve

## ACCESSORIES

Pressure gauge

Pressure switch

2 ways ball valve

3 ways ball valve

check valve

Relief valve

Pilot check valve

Counter balance valve

Reducing valve

Priority flow control

Equal flow

Level gauge

In line filter

Suction filter

Tank top filter

High pressure filter

### One stop service

We are hydraulic distributor in Thailand with wide product range such as hydraulic gear pump, piston pump, directional control valve, hydraulic motor, air cooler ETC. We are also hydraulic consultant to support your project/machine/hydraulic system by over 20 year's experience engineer

### Customize gear pump

We are expertise of hydraulic gear pump both aluminum and cast iron material. Our strength is customize gear pump, strong stocking spare part, assemble from customer requisition. You are be able to define your own gear pump.

### Test performance

Customer can request to test hydraulic equipment's performance with test report, adjust and setting hydraulic valve. To assure the quality and specification reach your requirement
