Benefits

Speed up your deployment – Get your security system up and running quickly and efficiently with Security Center pre-installed and built-in wizard-based tools to configure your system.

Protect your security system – Streamvault appliances help you build a resilient security system that protects your data and operations. Our cyber security experts stay vigilant on evolving threats and help identify and address new vulnerabilities promptly.

Reduce your system's footprint – With Security Center and the SV-350E, you can consolidate video, access control, intrusion detection, and other security systems on a single device.

Applications

Retail

Standardize your processes across your entire chain. The Streamvault SV-350E appliance lets you record and monitor video locally, and makes it easy to connect remote sites with a centralized location.

Education

The Streamvault SV-350E series lets you monitor entries and exists with unified video and access control, so you can keep staff and students safe across your school.

Banking

Combine video, access control, and intrusion systems in a single platform and enhance security across your installations.
