The screenshot shows the 'Network settings' screen. At the top, there is a blue header with a back arrow and the text 'Network settings'. Below the header, the 'Network type' section has two options: 'Wired network' (unselected) and 'WiFi' (selected). The 'WiFi list' section contains a list of available networks, each with a lock icon and a signal strength icon. The 'Hiview-3' network is selected, indicated by a blue checkmark.
