HP-97FPN2O-TAI

2MP HD Temperature Screening & Face Recognition Terminal

- 8 inch LCD screen
- Support IR high-accuracy body temperature measurement; non-contact screening
- The face wearing masks also can be recognized
- It will trigger voice alarm when abnormal body temperature and no mask are detected
- Support liveness detection, avoiding picture and video cheating
- Deep learning algorithm, high face recognition accuracy rate
- Support 1:N recognition mode
- Special cameras for face recognition, dramatically enhance recognition rate in the backlight environment
- Support tamper alarm
- Stand-alone operation
- Support remote live view and two-way talk
