PV-ezRack SolarTerrace I-D

Galvanized steel ground mount solution for large scale projects

PV-ezRack SolarTerrace I-D

The PV-ezRack SolarTerrace I-D is a highly versatile ground-mounted solution that can be used in most situations, from residential and large commercial right through to utility scale. STI-D uses hot dip galvanized with an average thickness of 65 microns (ASTM A123 standard). Long life and outstanding performance are ensured by our strict quality control over raw material, product purchasing and production. It is easy and convenient to install and compatible with most major PV panels on the market. This solution has the most favorable pricing of all PV-ezRack ground mount systems.

Main Benefits

Fast and simple installations

Installation time and installer costs are greatly reduced by its simple and elegant structure. Efficient design reduces materials usage and cost while guaranteeing system strength and durability.

Durable in harsh environments

Thanks to the use of hot dip galvanized steel, the ground mount system is highly anticorrosive which makes it suitable for even the toughest environments. Its design to accommodate project's unique wind, snow and in varying site conditions, and slope and is compatible with all types of foundation (rammed, concrete, and ground screw).

High quality engineered structure

Pre-engineered tilt angles (5° to 45° angle) to obtain higher ground coverage ratio based on site specific conditions. 800mm to 1000mm ground clearance avoids vegetation shading issues and easy site maintenance reduces labor cost.

Strong compatibility

As a universal installation system, the PV-ezRack STI-D system is compatible with most frame-based modules in the market. Integrated grounding through WEEB Clips.

Strict quality control

Clenergy conducts strict quality management and control over its raw materials, purchasing and production process in order to guarantee structural integrity and the service life of its manufactured systems.

Price advantage

Efficient design and the use of galvanized steel enable significant price savings compared to other products.

10-year quality warranty

Clenergy provides a quality warranty period of 10 years for its products.
