# SUGARCANE BAGASSE

Disposable Tableware

## BIODEGRADABLE COMPOSTABLE ECO-FRIENDLY

Bagasse is a by-product of sugarcane processing. It is the environmentally responsible alternative to single use plastic; reducing deforestation and our overall carbon footprint.

Bagasse is now used worldwide as the catering industries choice for sustainable packaging. From takeaway containers to plates, cups and straws; it is the perfect alternative for creating a more environmentally friendly world!

## Our product is proudly manufactured by KTIS Group's Kaset Thai factory

- KTIS Group owns Kaset Thai factory, the world's largest sugar mill, capable of processing around 50,000 tons of sugarcane daily.
- We proudly hold the distinction of being the first manufacturer of Green Bagasse Straws in Thailand.
- We employ efficient methods such as bagasse transportation with conveyors and molasses transportation via pipelines, reducing both transportation costs and energy consumption compared to truck transportation.
- By optimising our transportation systems, we prioritise cost reduction, energy conservation, and sustainable practices.
- We prioritise hiring local people and create job opportunities for the local community; maintaining high employment standards and a skilled workforce for sustained growth and success.

Product code:  
PL06

Weight: 7 (g)

155x20 mm.

SIZE : 6 inch  
MATERIAL : Sugarcane/Bagasse  
CARTON SIZE: 33.7x53x27 cm.  
PACKAGE : 50 pcs/ bag 1,200 pcs/ carton

Product code:  
PL07

Weight: 9 (g)

175x20 mm.

SIZE : 7 inch  
MATERIAL : Sugarcane/Bagasse  
CARTON SIZE: 33.7x53x27 cm.  
PACKAGE : 50 pcs/ bag 900 pcs/ carton

Product code:  
PL09

Weight: 15 (g)

225x20 mm.

SIZE : 9 inch  
MATERIAL : Sugarcane/Bagasse  
CARTON SIZE: 33.7x53x27 cm.  
PACKAGE : 50 pcs/ bag 500 pcs/ carton

Product code:  
PL10

Weight: 20 (g)

258x20 mm.

SIZE : 10 inch  
MATERIAL : Sugarcane/Bagasse  
CARTON SIZE: 33.7x53x27 cm.  
PACKAGE : 50 pcs/ bag 500 pcs/ carton
