THERMAL INSULATION

Glass Fibers

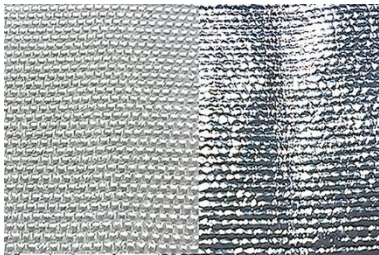

ICP 500

Insulation material manufactured from E type fiberglass. Fibers are designed for all types of thermal insulation and / or thermal protection.

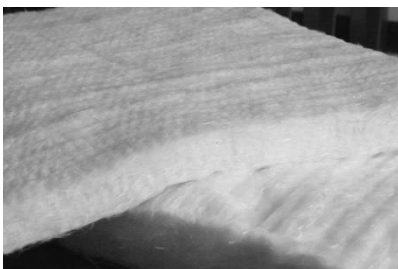

ICP 500VE

Textile Technologies vermiculite coated fibreglass webbings are manufactured from fine uniform textured filaments of high bulk 'E' type glass fibre yarns.

ICP 570AL

Textile manufactured from 100% "E" fiberglass laminated with aluminized foil.

ICP MAT

E-glass is the high-quality production basis for the Thermo-E-glass products of Calvo Sealing. E-glass has a high thermal resistance and excellent electric insulating properties.
