- Sleek and elegant design complements any listening environment
- TANNOY - 90 Years of authentic sound experience
- 10-Year Warranty Program*
- Designed and engineered in the U.K.

Use the LIVE MINI to bring your music to life anywhere – with the vibrant clarity and deep bass response typically reserved for much larger home stereo loudspeakers. Compact (only 0.89 kg/1.96 lbs) yet powerful, the LIVE MINI exudes style and sophistication and is superbly portable with features that surpass ordinary Bluetooth loudspeakers. Imagine hearing your favourite music wherever life takes you, on the patio, at the beach, entertaining guests, or just puttering around the garage. The LIVE MINI isn't just your typical wireless loudspeaker, it's a finely-engineered, turbocharged sound machine that delivers up to 10 hours of performance on a single battery charge.

Custom-Engineered Transducers

TANNOY has a 90-year legacy of making the finest transducers in the industry. In fact, many of the world's greatest hits have been recorded and mixed using our legendary studio monitors. LIVE MINI's premium-grade LF (Low Frequency) radiators and full-range 1.75" neodymium transducers present an accurate reproduction of even subtly nuanced performances, with the amazing clarity and bass definition our competitors can only dream about.

LIVE MINI

Portable Mini Bluetooth Loudspeaker with Advanced Acoustics

Bluetooth Ready

The days of tape decks, CD and even mp3 players are long gone. Now your music lives on your smartphone or tablet, so you can stop searching for those outdated cables and fancy adapters. Now with a simple wave of your hand, you can stream music from any Bluetooth-equipped device, such as your iPad, iPod touch, iPhone, or even your laptop computer.

10 Hours Play Time

When we say you can use the LIVE MINI anywhere, we really mean it! Equipped with a state-of-the-industry Li-ion rechargeable battery that provides up to 10 hours of music. The included cradle not only serves as the ideal resting base for your LIVE MINI, it also charges the internal battery. And the AC adapter can be connected either to the cradle, or directly to the loudspeaker when you are away from home.

Rock Solid Bass

LIVE MINI gets its outstanding bass response from two 3.3 x 1.5" oval passive radiators that re-focus the LF range – for punch and definition that belies the enclosure's small size.

Sometimes You Need to Connect

For those times you still want to listen to your MP3 player, or other old-school playback device, LIVE MINI's Auxiliary Input makes it easy to plug in. You will find a standard 3.5 mm TRS jack on the rear of the enclosure just waiting for your input.

Looks as Great as it Sounds

Designed to complement any listening environment, LIVE MINI is sleek, elegant and small in size (only 63 x 186 x 65 mm / 2.5 x 7.3 x 2.6"), but big on sound. With 16 Watts RMS of high quality output, LIVE MINI is in a class all its own – and we back it with the best warranty program in the industry.

Experience the LIVE MINI at your [TANNOY](#) dealer, or get yours online today. Music-to-go never sounded this good!

You Are Covered

We always strive to provide the best possible Customer Experience. Our products are made in our own [Music Tribe](#) factory using state-of-the-art automation, enhanced production workflows and quality assurance labs with the most sophisticated test equipment available in the world. As a result, we have one of the lowest product failure rates in the industry, and we confidently back it up with a generous [Warranty program](#).
