

TOLI BATHNA SERIES (page 342 to 345)

For more safe and comfortable bathrooms

TOLI Bathna Series is the vinyl flooring product designed for bathrooms and public baths. Applicable not only for the renovation of existing residential bathrooms, but for any size and kind of bathrooms in hospitals, welfare facilities, hotels, sports clubs, and so forth.

keep it clean /
special resin embossing + Bathna Hydro Coat

By the combination of special embossing and TOLI's original Bathna Hydro Coat, stains can be easily removed. The clean surface will be kept for long.

easy to clean

By the combination of special embossing and TOLI's original Bathna Hydro Coat, waterdrops on the surface can spread out thinly so that the floor will dry quickly.

dry quickly

By the combination of special embossing and TOLI's original Bathna Hydro Coat, waterdrops on the surface can spread out thinly so that the floor will dry quickly.

hard to be scratched

The surface strength provides the resistance to dragging of chairs and falling down of shower heads. This can prevent the floor from damages so that it will last long.

◆ Slip Resistance <in accordance with JIS A 1454 (OY-PULL method), barefoot>

	C.S.R.B value	
	wet	0.3% soapy water
2.0mm vinyl sheet	0.74	0.63
BATHNA ARTI	1.11	0.84
BATHNA FLORE	1.22	0.96
BATHNA REALDESIGN (BNR3101 to 3104)	0.93	0.71
BATHNA REALDESIGN (BNR3201 to 3402)	1.17	0.86

\ safe and comfortable /
heat insulating cushion-backed layer

regular ceramic tile BATHNA FLORE

※All the data are actual test result and not guaranteed values.

With its excellent heat insulating performance, you cannot feel cold even when you stand barefoot on it. This will decrease the risk of heat shock in winter.

for reduction of heat shock

two-stage approach to safety

Surface embossing and proper dent by cushion-backing will grip your barefoot and prevent from falling down. It also has great shock-absorbing capability in case you fall down.

soft & non-slippery

With its cushion-backed soft texture to your skin, you will have less pain even when getting down on your knees for caregiving.

BATHNA ARTI

category: vinyl sheet with cushion backing

BATHNA ARTI is the vinyl sheet designed for bath rooms. It has the surface for smooth caster-running, and also keeps the comfortable temperature to avoid the heat shock. Very much suitable for handicapped bathrooms.

Specification	overall thickness others	2.8mm Antibacterial & Antimildew Finished	width×length 1820mm×9m		
JIS Registered No.	No. GB0507188 (JIS A 5705 Vinyl Sheet Flooring)				
Packing	9m/roll				
Net Weight	40.6kg/roll				
Performance	flame-retardant	Fire Defense Law in Japan Authorized NO.E2230249			
Recommended Applications	bathrooms				
Recommended Adhesive from TOLI	humid mortar and concrete	Bathna Cement EPO (mildew-proofing)			
Welding	Welding rod for heat-welding (antibacterial and mildew-proofing finished) is available on a color-by-color basis. For walls and ends, please finish with the antibacterial and mildew-proofing seam sealer TOLI Bathna Seal SS.				
Notes on Installation	<ul style="list-style-type: none"> ◆ Seams should be heat-welded or finished with a seam sealing bond. ◆ When you install 2 different sheets, each edge should be jointed at the seam. (Do not cut in the middle of the sheet.) ◆ When you install this product on the existing floor of bath rooms, in case the joints of exiting floor have more than 10mm width and 1mm depth, they should be leveled before installation. ◆ After the installation is completed, one night of acclimation is required before you take a bath. ◆ Brush cleaning on the sealed part and using casters within a big bath room should be avoided for 2 to 3 days after installation. ◆ Walls and ends should be finished with the seam sealer TOLI Bathna Seal SS. ◆ Please bear in mind that the surface of the vinyl sheet might be whitened if the bath room cannot be in dry condition through the day. In case the color is changed, dry out sufficiently so that it will entirely recover. ◆ In case the sub-floor is not flat, or it does not have a needful inclination (1/100 to 3/100), water drainage (drying) function might not be performed sufficiently. 				
Recommended Maintenance Wax from TOLI	No need to apply the maintenance wax on the surface. As a daily maintenance, remove the dirt with a sponge or a brush.				
Others	<ul style="list-style-type: none"> ◆ BATHNA ARTI is a vinyl sheet for indoor use. Please avoid the installation in outdoors or semi-outdoors where the floor is exposed to direct sunlight. ◆ Please bear in mind that surface embossing cannot always match on the joints. ◆ BATHNA ARTI could be contaminated by hair dyes or certain kind of dye stuff for towels. Please avoid using those dyes. In case it's contaminated, please wash it away immediately. ◆ Please be aware that some rubber casters might cause color-contamination. ◆ Please note that the product has the indigenous odor from its materials.
