

10035203 - DiMod Counter (Relay o/p)

General Data

Intro 6 Digit display in DIN-enclosure 96 X 48 mm, Input for incremental encoders, 2 Alarm LED and 2 programmable relay outputs

Electrical Data

Supply Voltage 8 -26V DC

External Sensor Supply +5V or +Vs

General Data

Max. Counting Range -999999...+999999

Input Type Incremental Input (HTL / TTL) A, /A, B, /B, Reset Signals, RST, /RST

Digital Outputs 1...4 2 Relay Outputs (Programmable)

Serial Ports RS485 (Modbus RTU)

Display 6 Digit, 7 Segment LED, 14.4mm Digit Height

Mechanical Data

Operating Temperature

0°C to 50°C / 32°F to 122°F

Weight

250 g

Sealing

Front: IP54 / Rear: IP20

Panel Cut-Out

90.5 X 43 mm
