

**Propakprecision Ltd.** Started in 2017 with experience in mechanical design, automatic electrical control system. Manufacturing of precision parts and components

## Operating business units

The Technologies business unit is a leading solution provider for equipment design, for printer ink jet, craftsmen and industrial applications. Pro Pak Precision offers a multitude of applications to satisfy the needs of different target groups: consumers, craftsmen and industrial businesses.

## Corporate culture

"Creating sustainable value" is our purpose that unites all of us at Pro Pak Precision. We want to create value – for our customers and consumers, for our teams and our people, for our shareholders as well as for the wider society.

Our corporate culture and our purpose, vision, mission and values unite our diverse workforce and provide a clear framework and guidance. Globally binding behavioral rules are specified in a series of codes. They provide guidance for the behavior and actions of our employees in all our business areas around the world.
