Message from the Chairman

In the past year 2023, Intermedical Care and Lab Hospital Public Company Limited (IMH) acquired the business of Mahesak Hospital, size 132 beds, located in the Silom-Sathorn business area, later re-branding changed the name to IMH SILOM Hospital, providing services to cash patients, insurance, social security rights and NHSO rights, which As a result, currently in the IMH hospital group there are more than 232 beds to serve patients, an increase of more than 100 percent from 2022. Our customers can access services. get even more

In addition, the company is in the process of designing IMH BEARING Hospital, with a capacity of 300 beds, located on an area of 12 rai, next to the BTS Bearing Sukhumvit line station, approximately 3.5 km from Bangkok Mall. And approximately 15 minutes from Suvarnabhumi Airport, it will be open for service by 2027, which will increase the potential of the IMH hospital group to receive more patients. There are over 532 beds available to serve patients and we can build a base of foreign patients next.

However, operating a business sustainably by adhering to the preservation of the environment Have social responsibility and managed under the principles of good corporate governance according to the sustainability framework. (Environmental, Social and Governance or ESG) with ethics, honesty, transparency and not accepting any form of corruption. It is considered an important principle that the company Always adhere to the practice This is evident from the results of the corporate governance assessment of Thai listed companies, or CGR, at the “Excellent” level (EXCELLENCE CG SCORING) for consistently good corporate governance.

Me and the Board of Directors Executive Committee Including the management team, doctors, nurses, and all employees. We are committed to developing the business in the IMH hospital group for even more sustainable prosperity for the highest benefit of our shareholders. And on this occasion I would like to thank all the administrators and staff who have worked together and dedicated themselves to providing medical care to those who receive the service with care as if they were family members. This has earned the trust of all stakeholders, namely customers, communities, government agencies, and business partners. Shareholders and suppliers We will always strive to manage our business with morality. with transparency and with professional ethics in order to continue to grow in this business without end.

The hospital serves the main groups of customers as follows:

1) Non-Capitation: Most of them have a residence or workplace near the hospital area, including customers who are employees of companies, factories or customers of insurance companies that have contracts with hospitals.

2) Capitation customers: These are patients who receive medical treatment using government projects, such as customers of the Universal Health Insurance Project and customers of the Social Security Fund Project, in which the hospital will receive compensation in the form of lump sum, per capita and other remuneration in the form of services. Outpatient & Inpatient

(2) Marketing and competition

Competitive Strategy

The medical services business is quite competitive in price. Therefore, the Company and its subsidiaries have a competitive strategy that is not price competition but mainly focuses on improving the quality of services to increase long-term competitiveness. as follows

- **Experience and expertise in providing services under reasonable prices.**

The Company and its subsidiaries have been in the business of providing health check-up services for more than 26 years and providing medical services from hospital operations. IMH Thonburi The Company is considered an important health check-up service provider based on the number of people who receive health check-up services with the Company per year because most of the Company's customers are large factory industries and entrepreneurs with many branches, which makes the Company different from general hospitals that focus on providing health check-up services to general customers with relatively high prices per person. As a result, the company has high experience and expertise in providing health check-up services to many employees at once. In addition, the Company is able to provide services in jobs that require continuous testing in many areas through 13 X-ray trucks or for customers with offices located nationwide. It is also a proactive marketing strategy for providing health check-up services to large companies to increase market share.

For subsidiaries, the majority of customers are cash customers, life insurance customers, compensation fund customers, counterparty company customers, rights customers, etc. The business of the Company and its subsidiaries are related and help promote more comprehensive customer service. Everything. The Company and its subsidiaries place great emphasis on service

quality, accuracy, speed and accuracy in accordance with academic and legal principles, and the laboratory of the Company and its subsidiaries has been rated by EQA:SC as the top The company also provides services with reasonable prices that can compete with competitors. Currently, the Group's laboratories are ISO 15189:2012 and 15190:2003 certified. From the Bureau of Laboratory Standards It is useful to bid for some establishments that have laboratory standard requirements.

- **qualified personnel;**

The Company places importance on the quality of its personnel by selecting medical personnel and specialized personnel who are knowledgeable, competent and have professional licenses according to professional standards or as required by law. Environmental Quality Measurement Business The subsidiary has analytical laboratory supervisors and laboratory staff registered with the Department of Industrial Works ready to serve, with the capacity to provide services up to 31 service points per day.

In addition, the Company and its subsidiaries provide training for full-time employees to increase their knowledge and skills to suit the work of each department. Training is provided both internally and externally, and annual training plans and budgets are prepared. In addition, the Company and its subsidiaries have a policy to provide competitive remuneration and benefits to other companies in the industry to motivate knowledgeable and competent employees to work with the Company for a long period of time.

- **public relations**

In order to increase the company's awareness as well as to enhance its image, the company has advertised and publicized through the internet and through social activities such as:

- Publicize the Company's services and past works through internet channels such as the Company's website, Facebook, Page, and LINE application, etc. Consultation service for customers who have a health check-up with the hospital through the LINE application.
- Organized CSR activities in collaboration with the Association for the Promotion of Safety and Health at Work (Thailand)
- Organize Safety Day for factories that use the company's services.

- **Quality service and management for maximum efficiency**

The hospital focuses on service by organizing a work system that will create maximum customer satisfaction and impression for

government project customers as a lump sum income group. Therefore, the focus must be on managing the cost and efficiency of the service appropriately. Focus on promoting good health of people to reduce hospitalizations. Unnecessarily. In addition to keeping people healthy, it also reduces the cost of medical care of hospitals.

■ Medical field

The hospital places importance on recruiting specialist doctors with knowledge, experience and expertise in each field by adding specialists in fields with a large number of clients so that patients can receive proper examinations. Shorten lead times Maximum satisfaction In addition, the hospital has modernized medical equipment and equipment so that doctors can accurately examine and diagnose diseases. correct

■ Medical pricing

For cash and life insurance customers, health insurance hospital There is a pricing policy by considering various cost factors in business operations, where the price must be reasonable and competitive with the market price, especially medical service fees, medicines and medical supplies. The cost of medical equipment and equipment, especially medical service fees. hospital Use the service rates according to the medical service manual prescribed by the Medical Council B.E. 2563 (2020), which is the current version. In the patient room. Pricing is based on the market price of neighboring hospitals. In-room amenities and amenities are provided. Similar It must also be considered. Income levels and access Special room service for the public In the service area, room pricing Therefore, it must be consistent and appropriate.

On the issue of drug costs IMH Thonburi Hospital Received the certificate of "Moral Hospital" from Deputy Prime Minister and Minister of Commerce Mr. Jurin Laksanavisit, which is a certification that it is a hospital with integrity, transparent prices and service fees, fair prices, and good governance. Hospitals' pricing policies that focus on consumers

Target customers and service channels

1. Target customers

The growth of the country's economy is a key factor in encouraging employment in both the government and private sectors. The business provides medical services, health check-ups both inside and outside the premises, and medical services from business operations. IMH Thonburi Hospital It serves both

government and private sector customers located in Thailand. To improve the quality of life and safety of employees.

This is because the company has experience in occupational medicine consulting and understanding of issuing health examination reports for risk factors. The Company's customers will submit the Company's health examination report to the auditor, such as ISO auditors and other standard audits. As a result, there are no defects that need to be corrected or issues that need to be clarified by additional auditors, which makes it more likely that some groups of customers will continue to return to the company.

Most of the Company's customers are located in large industrial estates in provinces such as the Eastern Region. Eastern Economic Corridor projects include Amata City Chonburi Industrial Estate, Hemaraj Chonburi Industrial Estate, Eastern Seaboard Industrial Estate, Map Ta Phut Industrial Estate, and Pinthong Industrial Estate. Central region, which consists of Rojana Industrial Estate, Hi-Tech Industrial Estate, Navanakorn Industrial Estate, and Bang Pa-In Industrial Estate, etc. In addition, the factory in such industrial estates has increased the number of employees. Due to the law with clear conditions, the business of providing medical services such as mobile health check-ups is very important.

The business provides medical services, health check-ups both inside and outside the premises. The Company's customers are spread across a variety of industries. They can be divided into: as follows

1.1 Private Sector Customers

In providing medical services, the group of customers who are juristic persons spread across a variety of industries, including agriculture and food industry. Consumer goods Financial Business, Industrial Products Real estate and construction, resources, services and technology, which diversifies the concentration of customer groups by providing services through x-ray vehicles. It provides services through various branches of the company, which can be divided into 2 groups of private customers as follows:

- 1) Private sector office customers
- 2) Private sector customers who are industrial plants.

1.2 Government customers

The Company will accept health check-up work through government hospitals (subcontracting), such as annual health check-ups and health check-ups for foreign workers, etc.

2. Distribution and distribution channels

Company and Subsidiaries There is a channel to contact customers through the marketing team. who has the knowledge to advise on annual health check-up plans. Pre-event health check-up and health check-up for risk factors, as well as environmental quality measurement plans, in which marketing staff will be responsible for contacting customers directly to study their needs and present health check-up services. Health check-up program which is suitable for each customer group Health inspection processes or procedures and environmental quality measurements are required to comply with legal requirements that customers must comply with. In addition, the marketing department can arrange for customers to visit the laboratory for specimen analysis, as well as coordinate if requested, and offer other services to customers.

2.1 Price Policy

The Company and its subsidiaries have a policy to set service prices comparable to competitors with the same standards and will focus on service quality, accuracy, speed and accuracy in accordance with relevant academic and legal principles.

2.2 Industrial conditions

The mobile health check-up service business has grown in popularity since the promulgation of the Labour Protection Act. By virtue of Section 6 and Section 107 of the Labour Protection Act B.E. 2541 (1998), operators are obliged to provide health check-ups for employees who work on risk factors by first-class modern doctors who are licensed to practice occupational medicine, or have been trained in occupational medicine, or who have qualifications as specified by the Ministry of Labour and Social Welfare. As a result, operators, especially large factories with a large number of employees, have a demand for hospital services for health check-ups, which has resulted in mobile health check-up services businesses benefiting from the enactment of this law.

For businesses that provide health check-up services in Thailand. It is required by law by providing on-site health check-up services. It must be registered as a hospital with patients staying overnight according to the law. There will be a team of doctors and nurses who specialize in various types of treatment, and there will be a health check-up department as one of the departments in the hospital. Most of the hospital's customers are individuals.

Everything. The Company has adjusted its business to provide laboratory testing services or laboratory examinations . as follows

Industry Trends

Expansion of labor and industrial facilities by area

The growth in the number of factories registered with the Ministry of Industry and licensed to operate is as follows:

Source: Industrial Business Information Center Information and Communication Technology Center Department of Industrial Works

According to the data, the total number of industrial factories nationwide was 70,410 factories from 2020 to 2023, amounting to 72,699 factories, representing a growth rate of 0.80 percent. This represents a growth rate of 1.27 percent.

Everything. The number of registered and licensed industrial factories in the region increased from 64,591 in 2020 to 66,720 in 2023, representing a compound annual growth rate (CAGR) of 0.81 percent. In 2020, it was 3.54 million. In 2023, the Company has a compound annual growth rate (CAGR) of 1.40 percent, with branches spread across key industrial estates, and plans to expand more branches in various industrial estates.

Industrial Estates in Thailand

Currently, there are 66 industrial estates in Thailand and 1 The port (Map Ta Phut Industrial Port), located in the central and eastern regions, is more than 60 industrial estates and a few other regions, coupled with the Eastern Economic Corridor (ECC) development project covering 3 provinces, namely Chonburi, Rayong and Chachoengsao. The location of industrial estates can be divided as follows:

Source: Industrial Estate Authority of Thailand (IEAT)

From the picture, it can be seen that the areas with the highest number of industrial estates are Chonburi and Rayong. There are 18 industrial estates and 17 industrial estates respectively and located in Bangkok, Samut Prakan, Samut Songkhram, Ayutthaya, and Chachoengsao. The remaining 13 industrial estates are distributed in different provinces.

The company has 5 branches: Ratchaphruek (head office), Pathum Thani, Rayong, Chonburi (Mueang Chonburi), and Chonburi. 2 The branches that can provide full service are Rayong and Chonburi branches, which are quite crowded areas. While the Company has a Pathum Thani branch as branch to inspect and collect various types of mobile health check-up services of the Company, it can be seen that the expansion of industrial factories and industrial estates is beneficial for medical services and environmental quality measurement services of the Company and its subsidiaries.

Influenza situation

The company recognizes the importance of controlling the spread of influenza in people divided into two main groups: seasonal flu and the new flu that causes global epidemics. Influenza is a seasonal disease and the virus is constantly evolving, so it is important to get an annual flu vaccination. 2559 Onwards The company's revenue from vaccination services is steadily increasing. The number of influenza cases is increasing, with details as follows:

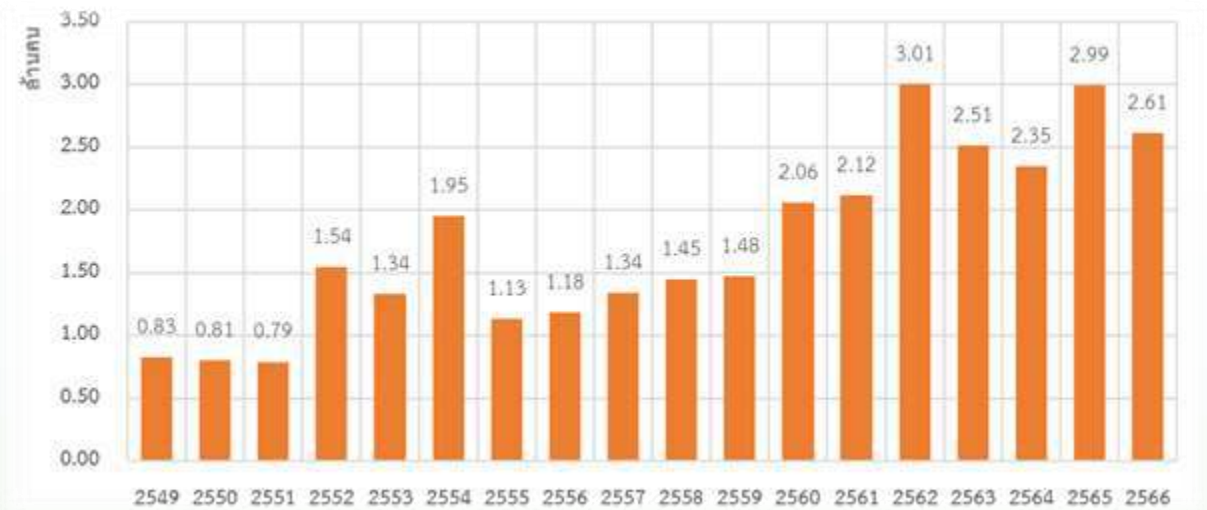

Source: Communicable Disease Epidemiological Surveillance System Development Group, Epidemiology Division, Department of Disease Control

Data from the Communicable Disease Epidemiological Surveillance System Development Group, Epidemiology Division, Department of Disease Control, Ministry of Public Health, from 2006 to 2019 showed that the number of patients with influenza has been steadily increasing, especially in 2019, the number of cases reached 390,733. This has benefited the company from its increased vaccination services. Vaccination revenue also increased in 2019. Meanwhile, in 2020 – 2023 The company maintains a similar proportion of vaccine revenue which is likely to increase in 2023.

The situation of migrant workers

Health checks for migrant workers are an important service of the company and help reduce the risk of seasonal income fluctuations. Most of the work provided by the company is auctioned from government hospitals. To renew visas and work permits²¹ of foreign workers However, legal requirements may be a major factor in changing the income from medical examinations for migrant workers. Overall, the number of migrant workers has contributed significantly to Thailand's social and economic development. Most of the migrant workers come from three neighboring countries : Myanmar; Cambodia and Lao People's Democratic Republic (PDR) who are legally registered as migrant workers and dependents and who are not registered with the government. Migration affects Thailand's social and economic conditions more than outbound migration. But outbound migration is still significant.

At the time of the announcement of the Foreign Workers Management Act B.E. 2560 (2017), 3 sections of the law were enforced which resulted in foreign workers who were not properly registered to relocate back to neighboring countries. This may be good for the company because the law enforces the law requires entrepreneurs to register their workers correctly. This is because the regulations will criminalize entrepreneurs and impose heavy penalties on entrepreneurs or employees with fines ranging from 400,000 to 800,000 baht per person per person. The data on the number of migrant workers in the country are as follows:

Source: Office of Foreign Workers Management

From 2006, there were 826,399 foreign workers allowed to work in Thailand, until in 2023, there were 2,613,373 foreign workers allowed to work in Thailand, an increase of 1,786,974 or 216.24 percent. There was a significant change in the number of migrant workers in 2011, with the Ministry of Labour easing measures to manage migrant workers by proving their nationality. In order to solve the wisdom of migrant workers and accelerate the completion of citizenship verification by 2012, the number of foreign workers has decreased significantly, but between 2012 and 2023, the number of foreign workers allowed to work in Thailand has increased steadily.

however The number of migrant workers in Thailand is supervised by the Ministry of Labour and the Office of Foreign Workers Management, which requires more stringent verification of contracts and renewal of work permits. A medical examination is required to renew the work permit every year, which is beneficial to the company's business.

Competition

1. The business provides health check-up services both inside and outside the premises.

As for the competitive state of health check-ups in Thailand, There are several companies that operate such businesses. The company focuses on the quality of its services, and most hospitals that provide on-site health check-up specialty services are relatively small and can provide a small number of services at a time. The Company's main competitors are as follows:

Competitor List ¹	Nature of Business
Kluaynamthai Hospital ²	Large hospitals provide full service.
Hospitals affiliated to Bangkok ²	Large hospitals provide full service.
Vichaivej Hospital Group ²	Large hospitals provide full service.
Asia Hospital	Specialized hospitals focus on providing health check-up services.
Sai Yud Hospital	Specialized hospitals focus on providing health check-up services.
Intermedical Care and Lab Hospital Public Company Limited	Specialized hospitals focus on providing health check-up services.

Note: ¹Information from the Company's management

²On-site and on-site health check-ups are part of our business operations.

2. Medical services from hospital operations IMH Thonburi and IMH Silom Hospital

The healthcare business is considered a business that people value because of the current conditions due to environmental factors. Pollution, and epidemics, make people pay more attention to health and hygiene. As a result, competition in the healthcare market has increased. It has adapted to respond to more consumers. at the same time, consumers' Focusing on receiving quality services and reasonable prices is another important factor that gives service recipients bargaining power. to even more health care providers. Therefore, hospitals must focus on management. Joint procurement among hospitals and partners to have bargaining power with partner companies to lower the cost of products.

Hospital Business Competition Not only are there private hospitals nearby, but the public also has access to alternative services such as private clinics and other private pharmacies, which play a role in competing for market share. Private hospitals under the government project system The universal health insurance system or social security system within 10 kilometers is as follows:

IMH Thonburi Hospital	<ul style="list-style-type: none"> 1. Bangpakok 1 Hospital 2. Ratburana Hospital 3. Suksawat Hospital 4. Bangmod Hospital
IMH Silom Hospital	<ul style="list-style-type: none"> 1. Bangkok Christian Hospital 2. Saint Louis Hospital 3. BNH Hospital 4. Samitivej Chinatown Hospital 5. Mission Hospital

(3) Product and service management

The provision of products and services is one of the important processes in business operations that affect the quality of service. Therefore, the company places great emphasis on the provision of products and services. This is due to the nature of services provided by the Company and its subsidiaries, providing medical services and environmental quality measurement. The Company and its subsidiaries have procedures to provide services up to the issuance of analysis results related to the procurement of important products and services of the Company and its subsidiaries.

3.1.1 On-site Operations Department

The on-site operation unit will have an on-site operations manager who is a physician and is responsible for organizing professional teams by the law. Radiologists, Registered Nurse Nursing assistants technical nurses, etc. The on-site operation department will arrange professional personnel according to the nature of work and equipment related to the measurement to be suitable for the examination program with details as follows:

Recruitment of medical and professional personnel

The selection of personnel of the Company will be checked for qualifications and professional documents before entering the workforce by the requirements of the Ministry of Public Health and the Act of each profession. as follows

position	Year 2021		Year 2022		Year 2023	
	regular	temporary	regular	temporary	regular	temporary
physician	5	316	5	246	5	277
nurse	3	800	3	242	3	416
Laboratory staff	5	-	8	-	6	-
Medical Technology	3	10	4	-	4	-

The company will recruit personnel by announcing the news on the website. Everything. There are important selection criteria, such as:

- Obtain a valid professional license
- Experience in work that is relevant to the position applied for.
- Have the ability to communicate.
- Have knowledge and understanding of the rules and regulations of the Ministry of Public Health.

In addition, to develop personnel and maintain operational standards. The Company requires training for personnel in all departments by conducting training and development for both new and existing personnel at least 3 to 10 hours per person per month. Basic Life Support and ISO quality systems, etc.

By arranging personnel, the company has basic criteria for arranging unit rates by assessing past service statistics to suit the number of service recipients. However, the criteria for unit issuance may change as appropriate, for example, if the customer wants to expedite the service and complete blood collection and ear, eye, and lung examination in the morning half day, it may need to be adjusted as appropriate.

Procurement of equipment and tools and mobile X-ray vehicles

HIGH-VALUE MEDICAL EQUIPMENT AND EQUIPMENT, SUCH AS DIGITAL X-RAY MACHINES ECG machines Pulmonary dryers and mobile X-ray vehicles, etc. The request for the purchase of such assets shall be prepared in an annual budget, assessed from the demand of each asset to plan an estimate of expenditure related to the acquisition of assets. Most assets are purchased through local manufacturers or dealers to provide appropriate warranty and after-sales service, such as user training, maintenance, and calibration . X-ray vehicles must be certified by the Department of Medical Sciences and issued a standard inspection report for registration with the Atomic Bomb Agency. The company has a payment period with the distributor of approximately 30 days, subject to negotiation.

During the month when customers use the service. The company may consider renting equipment and tools for health check-ups, such as X-ray cars, eye examination machines, and lung examination machines, etc., by renting through the procurement system, quality service providers, and in the Approve List, where the company considers the lessors of standardized tools and equipment and compares the price to consider the conditions as appropriate before making a rental transaction.

3.1.2. Laboratory Department

The company has a laboratory for specimen testing, which can perform medical analysis covering various types of work. Toxicology Clinical Chemistry Hematology and microscopy with expert medical technologists and modern equipment such as Clinical Chemistry Analyzer, Immunoassay Analyzer and Hematology Analyzer, etc.

Procurement of medical materials consumed Medicines and medical supplies Analysis tools and equipment

Medical Materials Medicines and medical supplies used for analysis and services such as syringes This is a significant cost used in the Company's business operations, so the Company focuses on purchasing medical materials for use. It will be purchased with distributors on the Approved Vendor List. Pricing and payment terms Incidentally, every distributor ordered

will be evaluated based on price, quality, delivery, and pre-sales and after-sales services. If supplies and new medicines and medical supplies are to be procured, they must be approved by the competent authority and by the working manual of the procurement department. Most companies procure consumables medicines and supplies from reputable distributors. The company has an average payment period with a distributor of about 30 days.

The company has state-of-the-art analytical tools and equipment. The company is considered a service provider that uses medical materials, which means such as lipid screening reagents, cancer screening reagents, and sugar screening reagents, etc., that are used in analysis and service provision. Analytical tools and equipment Propose that the company has a contract to use analytical tools and equipment free of charge and supervise staff. Check the machine every 3 months. In case the tool has a problem, it cannot be repaired. The vendor will find a replacement tool until the repair of the tool is completed. Provided that the reagent is used for analysis from the distributor only. The company considers the price of reagents and terms of service before entering into a contract with distributors.

For the management of consumable materials medicines and medical supplies. The Company will assess the demand for consumable materials medicines and medical supplies from the upcoming work at least 2 weeks in advance. The company will conduct distributors to gradually deliver consumable materials. Medicines and medical supplies are according to the period of use for the Company and some inventories are kept to support business operations.

2. Risk Management

2.1 Risk management policy

Company management Intermedical Care and Lab Hospital Public Company Limited focuses on the company having good corporate governance by implementing the risk management process according to guidelines set forth by The Committee of Sponsoring Organization of the Trade way Commission (COSO) used throughout the company. All executives and employees are aware of their responsibility to follow the risk management policy in order to control risks to an acceptable level and allow the company to operate according to the set objectives.

- (1) Every department is responsible for preparing risk assessment tables, setting risk indicators, and preparing risk-related reports in accordance with Risk management process that the company adheres to
- (2) Identification and control of risks that affect objectives will be done systematically to keep the risks at a level acceptable to the company.
- (3) In determining which risks are acceptable risks, such as in cases where the cost of managing the risk is so high that it is not worth it Will the results be obtained or not worth the cost of creating a system to manage or prevent risks or is the risk beyond control. The Company's control is caused by external factors that cannot be controlled and must be approved by the Board of Directors.
- (4) When employees see or become aware of a risk that may have an impact on the company, they must immediately report the risk to those involved. to continue management
- (5) Compliance with this risk management policy must be strictly and continuously under the supervision of the company's management.
- (6) There is risk management throughout the company with participation of employees at all levels in the company and it is managed systematically and continuously. Establish a risk management process that is standardized throughout the company.
- (7) There must be follow-up and evaluation of risk management that is regularly reviewed and improved, with risk management being a part of normal operations

2.2 Risk factors for the company's business operations

2.2.1 Risk from shortage of medical personnel and specialized professional personnel

Providing health examination services must rely on qualified medical personnel in related fields. which can currently be produced in limited quantities together with the impact from the expansion of medical services and related businesses This results in a continuous demand for qualified and experienced personnel to join the organization. Such personnel will need time to develop appropriate knowledge and abilities. Therefore, the company may be at risk of a shortage of medical personnel and specialized professionals in the future. The company uses the following numbers of specialized personnel and general operating personnel.

position	2021		2022		2023	
	regular	temporary	regular	temporary	regular	temporary
physician	5	316	5	246	5	276
nurse	3	800	3	242	2	415
laboratory staff	5	-	8	-	4	-
medical technology	3	10	4	-	3	-

However, the company's business fluctuates according to the seasons. The company therefore employs medical personnel and specialized professional personnel outside of hours. In order to manage costs more efficiently The company uses out-of-hours medical personnel to perform on-site inspections. The health examination unit is a job that takes a short time and is not continuous in each job. In addition, the company plans to provide services in advance to reduce risks in recruiting various personnel. As a result, they may face less shortages of medical personnel than general hospitals. It consists of the company setting appropriate compensation and welfare policies for personnel.

As for the company's medical personnel and specialized professional personnel, The company has created a good working atmosphere and hygiene. In addition, the company has a policy to train medical personnel and specialized professional personnel of the company in order to enhance their working skills and develop continuous learning. in various aspects This will result in personnel becoming attached to the organization. In addition, the company has a network of medical personnel. which can be invited to work in cases where personnel shortages are encountered From the above policy The company believes that it can help reduce the risk of shortages of medical personnel and specialized professionals.

2.2.2 Risk of being sued

Users of health examination services and users of hospital treatment services Can sue personnel and hospital operators or the company and its subsidiaries If there is a mistake or dissatisfaction with the service As well as if the results of the health examination and treatment results are incorrect. It also includes being sued regarding the performance of duties by professional personnel such as doctors and professional nurses. medical technology radiologic technologist and environmental academics, etc., with the risk of potential lawsuits from customers. and those overseeing the business of the group of companies, such as the Ministry of Public Health and the Ministry of Industry, etc.

To control such risks The company and its subsidiaries place importance on quality and standards. Including steps and processes to provide services correctly and in accordance with relevant criteria. In addition, the Company and its subsidiaries use modern and standard equipment along with skilled personnel to reduce errors that may occur. along with also bringing the system ISO 15189:2012 and ISO 115190:2003 to apply in management and currently the laboratory of the group of companies

System certification ISO 15189:2012 and ISO 115190:2003 Medical operating room From the Bureau of Laboratory Standards Ministry of Public Health In October 2021, the Company and its subsidiaries also evaluate the quality of services

and the satisfaction of service recipients. and in the area of various professional personnel To reduce errors that may occur The company has announced duties. responsibility and including the penalties for working outside the premises It is clearly written. Which has content to check the accuracy of various professional personnel. and the nature of duties of each profession strictly before providing services and while providing services in order to increase the tightness of service to the company's customers and to reduce the risk of being sued by public health in each area and customers

2.2.3 Risk from competition in business

In the business of providing health check services Thailand is considered an important production base. This gives the health examination business an opportunity to grow continuously. Due to health examinations, there is a law requiring entrepreneurs to provide pre-employment health examinations and continuous annual health examinations at least once a year for employees working with risk factors. and private hospitals merging to achieve economies of scale and expanding services to cover more areas, including investment in medical tools and equipment Improving and developing services and public relations of various hospitals to attract customers From the above factors, the health examination business is highly competitive. which causes price competition and may affect the company's profits. However, since the company has been in the business of providing health check services for over 28 years, the company has high experience and expertise in providing health check services and analyzing test results. and income from services has grown gradually The company is able to provide services at many points throughout the country. Moreover, the company has expertise in providing services to a relatively large number of customers. As a result, the use of tools and materials has increased. which increases bargaining power

Distributor for the company In addition, the company has continuously developed the quality of personnel along with medical and laboratory tools and equipment. Equipped with x-ray vehicles, able to provide services covering the entire country. In order to raise the standard of service to a higher level, the company also has advertising to make the company more well known. Including to enhance the image From the above reasons, the company is confident that it can compete effectively with its competitors.

2.2.4 Risk from seasonal income fluctuations

The Company's medical service business consists of medical service business such as annual health examinations before employment for foreign workers. and risk factors Including the hospital business. In the first quarter of 2022 compared to the same quarter last year. The increase in income was due to the expansion of the company's hospital business. and more efficient cost management Because during 2022 the COVID-19 epidemic situation improved, hospitals began to return to normal. There was an increase in inpatient treatment for general diseases in the 2nd quarter of 2022 compared to the same quarter of the previous year. The reduced income is income related to COVID-19, such as service fees for COVID-19 testing.

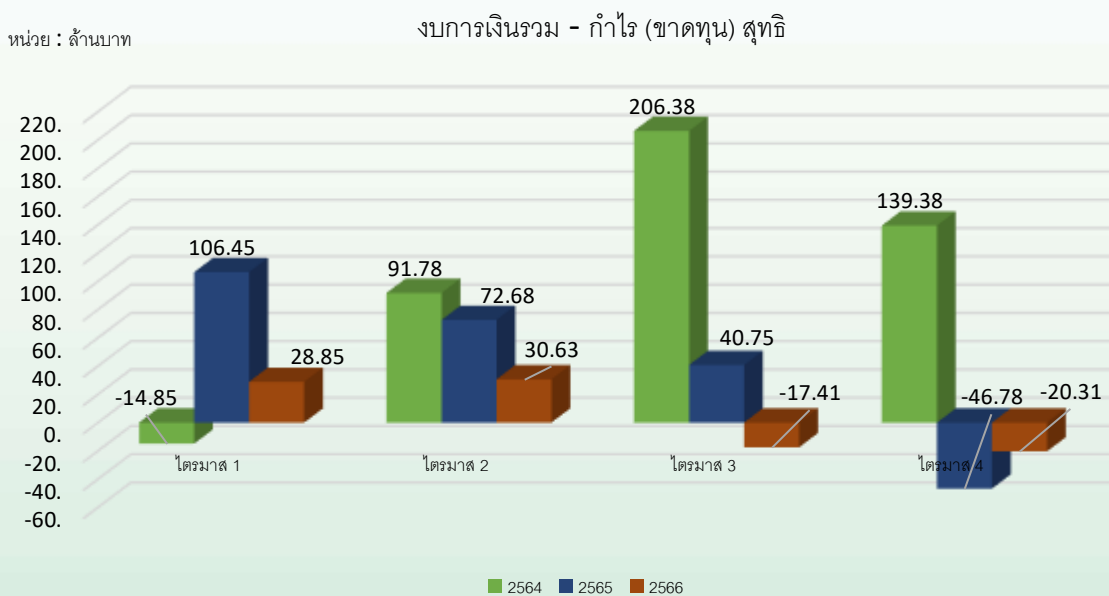

In 2023, the majority of income comes from hospital operations, consisting of medical treatment income, room fees, medicine fees, etc.

The income of the company and its subsidiaries in each past quarter is as follows:

However, the company places importance on reducing seasonal risks from off-site health check-up revenue. which during the year Company shares have been purchased. Mahesak Hospital Co., Ltd. has increased income from hospital operations. There is an expansion of the social security patient base. More national health insurance Strategies are laid out and management styles changed in the group of companies. to achieve maximum efficiency

As mentioned above, there are risks from seasonal income fluctuations. in the company's business This may affect the company's net profit as well. The details of net profit separated by quarter are as follows:

3.3 Sustainability management in the environmental dimension

3.3.1 Environmental policies and practices

The company conducts business on the basis of environmental responsibility, and reduce environmental impacts caused by human actions both directly and indirectly. To create mutual benefits among employees at all levels in the organization and to demonstrate responsibility towards society, communities, and stakeholders. The guidelines are as follows:

1. Continuously create awareness of environmental responsibility among employees at all levels.
2. Conduct business with the least impact on society, the environment, and the quality of life of the people.
3. Conduct business responsibly towards the environment and society. By giving importance towards the selection or development of products, services, processes, and work methods that promote the use of natural resources for maximum benefit. Environmentally friendly, save energy and reduce waste under the 3Rs concept, including reducing use (Reduce), reusing (Reuse) and reusing (Recycle) to reduce the impact from Business operations of the group of companies. Stakeholders and society.

4. Communicate, train, and create knowledge, understanding, and awareness of the roles and responsibilities that the company's employees must participate in environmental management to achieve the organization's goals.
5. Communicate policies and guidelines to those involved in the group's business operations. To realize the importance and conduct of business correctly in accordance with legal standards, and environmental guidelines set by the company.

3.3.2 Environmental performance

Energy management

Throughout the past, the Company has continuously implemented energy conservation measures every year, and awareness of energy use and conservation is strengthened, by allowing executives, employees, and those who come to use the service inside the hospital building walk up and down 1-2 floors of stairs instead of using the elevator, and campaign for employees to turn off the water, lights, and air conditioners every time they stop using them. Including turning on the air conditioner at a temperature of 25 degrees. There is also the beginning to use LED energy-saving light bulbs to replace the light bulbs that have been used for a long time. Installed inside the hospital and adjust the lighting to suit the area.

In addition, the company has begun installing solar cells on the rooftops of 5 hospital parking spots with the hope that electricity costs will be reduced more than using electricity from government agencies alone.

The company has electricity consumption in 2023 in the amount of 2,352,596 kilowatts, an increase from 2022 of 1,847,974 kilowatts, accounting for 366.21 percent. Total current liabilities	324.31	83.60	240.71	287.94	202.26	22.68	179.58	791.97
Total non-current liabilities	880.13	180.69	699.43	387.08	669.43	10.74	658.69	6,134.62
Total Liabilities	1,204.43	264.29	940.14	355.72	871.69	33.41	838.27	2,508.87

As of December 31, 2023, the consolidated financial statements have total assets of THB 2,034.54 million, which increased by THB 940.07 million from the previous year and total liabilities of THB 1,204.43 million, which increased by THB 940.14 million from the previous year. The main changes in assets and liabilities are cash and cash equivalents, goodwill, long-term loans from financial institutions and Other non-current provisions.

The reason is that the group's cash and cash equivalents were 73.60 million baht, a decrease from 79.62 million baht from the previous year, goodwill of the group was 966.56 million baht, an increase from 850.30 million baht from the previous year, and long-term loans. Financial institutions of the group were 787.50 million baht (the portion of long-term loans due within one year were 126 million baht). During the year 2023 there was an investment

in purchasing shares of Mahaesak Hospital Company Limited 3.2 million shares or 79.97 %, amounting to THB 879.62 million, with part of the source of funds coming from borrowing money from a financial institution in the amount of THB 800 million, including investment in construction projects IMH Bearing Hospital by paying for the land surface. and construction design costs totaling approximately THB 52 million.

Other non-current provisions of THB 36.80 million because the subsidiary Mahaesak Hospital Company Limited had been notified the results of the examination of the use of medical services in the case of high-cost diseases in 2015 and 2022 by the random data checking for medical services from the Social Security Office. The Social Security Office had found the incorrect percentage of AdjRW from the amount that the hospital should receive. But the subsidiaries were able to proceed with the dispute according to the period specified by the Social Security Office.

➤ Shareholders' equity

As of December 31, 2023, the consolidated financial statements have shareholders' equity equal to THB 830.10 million, details of which are shown in the table below:

Unit : Million Baht

As of December 31, 2023, the Group's consolidated financial statements Have a non-controlling interest equal to THB 8.48 million.

➤ Highlight of Financial Ratio

Description	Consolidated Financial Statements	
	31-12-23	31-12-22
Gross profit margin (%)	36.24	52.36
Ebitda margin (%)	15.00	39.60
Net profit margin (%)	3.21	26.58
Debt to equity ratio (times)	1.47	0.32
Return on equity (%)	2.63	20.67

In the beginning of 2023 the company entered into an agreement to purchase the company's shares. Mahaesak Hospital Company Limited. The purchase was completed on May 31, 2023 and became a subsidiary. As a result, the group's assets and liabilities increased significantly from the hospital business in terms of income, costs, and selling and administrative expenses. There was a restructuring within the company, changing from "Mahaesak Hospital" to "IMH Silom Hospital". Which is currently a secondary patient referral service unit in the National Health Security Office and the Social Security Office which has a main customer base It also provides services to general patients. Users of health and accident insurance rights, including traffic accident patients. disbursed according to the Central Act according to the business growth plan Will advance to a hospital that takes care of NHSO patients and has social security rights. Most are in the southern Bangkok area. Providing services in hospitals and primary care clinics in the network. It is expected that in 2024 it will significantly increase the profits of the group.

Risks of Hospital Business

This is because most of the hospital's revenue has to be billed by the government. If the guidelines are adjusted. the company's disbursement policy must comply with and delayed debt repayment. At present, the amount owed will be due to the COVID-19 pandemic. Because it requires approval to allocate additional budgets. The Company needs to adjust its business strategy to reflect the changing circumstances. The company has set aside 31.43 million baht for COVID-19. Such provisions do not affect normal hospital transactions.

9. Internal Control and Related Transaction

9.1 Internal Control

Summary of the Opinion of the Board of Directors on the Company's Internal Control System

The Board of Directors and executives have emphasized the importance of internal control and risk management as an important mechanism to ensure that management evaluates the internal control system and reduces business risks to operate efficiently. Resources are allocated appropriately and the goals are achieved.

The Board of Directors has assigned the Audit Committee, which is an independent director, to have the duty and responsibility to review the financial reports to ensure that they are complete and accurate. Reliable, timely and adequately disclosed information, including evaluating internal control systems. Review the appropriateness and effectiveness of the internal control system provided by the Company's management to ensure that the Company has sufficient internal control systems to manage business risks. It can help protect the Company's assets from being lost or used by non-competent persons and help the Company's personnel comply with applicable laws and regulations. In addition, the Audit Committee has considered the independence of the internal audit body. Approval to consider the qualifications, suitability and adequacy of personnel in the department, including approval for the appointment, transfer and dismissal of the head of the internal audit unit.

The Audit Committee has reviewed the suitability and effectiveness of the internal control system and internal audit by considering it together with the internal auditor and reporting to the Board of Directors to know important matters. The Audit Committee has expressed its opinions and made recommendations to the management on important matters. In addition, meetings are held with the company. Thamniti Audit Co., Ltd., which is the auditor of the financial statements for the year 2023, commented that the overall level of the Company's internal control system is satisfactory. No deficiencies were found to have a material impact on the auditor's opinion in the financial statements.

At the Board of Directors' Meeting No. 1/2024 on February 27, 2023, the Board of Directors assessed the adequacy of the internal control system, which was evaluated annually in accordance with the guidelines of the Securities and Exchange Commission (SEC). This assessment is based on the concept of The Committee of Sponsoring Organization of the Tread way Commission (COSO), which consists of five main components of the internal control system: (1) control environment, (2) risk assessment, (3) control activities, (4) information and communication, and (5) monitoring activities.

The Board of Directors considers that the Company has an adequate and appropriate internal control system in all 5 parts.

Identifying the opinion of the Audit Committee in case it differs from the opinion of the Board of Directors.

Measures or procedures for approving transactions between each other

In accordance with the resolutions of the Board of Directors' Meeting No. 3/2018 on August 14, 2018 (the first time after transforming into a public limited company), the following procedures for transactions were established:

Transactions between the Company and related parties or persons who may have conflicts. It must be in accordance with the general terms of trade or as a trade agreement transaction in the same way that a general contractor would have done with the parties in the same circumstances. With bargaining power that is free from the influence of having the status of a director. Executives or related persons (as the case may be) under reasonable conditions can be verified. It does not cause the transfer of benefits.

Case 1: Transactions between each other that are normal commercial transactions

For example, transactions for goods and services that the Company distributes or provides services, etc. The Company can make such transactions with persons who may have conflicts. If such transactions contain trade agreements with general terms of trade in such a manner that would be desirable to the parties in the same circumstances. With bargaining power without the influence of his status as a director. The Company shall prepare a summary of such transactions to the Audit Committee and the Board of Directors at least quarterly.

Case 2 Other transactions other than Case 1

The Company requires the Audit Committee to consider and give its opinion on the necessity of entering into the transaction and the price suitability of the transaction. The conditions are considered to be in accordance with the normal nature of trading operations in the market, which can be compared with the prices incurred by third parties and in accordance with fair prices. Is it reasonable and verifiable? In the event that the Audit Committee does not have the expertise to consider potential inter-related transactions. The Company shall have an independent expert or its auditor to give an opinion on such inter-related transactions. Transactions between the Company and persons who may have conflicts of interest must be considered by the Audit Committee and must be approved by the Board of Directors. By voting at that meeting. Directors with interests will not have the right to vote.

The Board of Directors shall ensure that the Company complies with the laws governing securities and exchange. Regulations, announcements, orders or requirements of the Stock Exchange of Thailand or of the Securities and Exchange Commission or of the

Securities and Exchange Commission or of the Capital Market Supervisory Board, including compliance with the disclosure of information relating to connected transactions and the acquisition or disposition of important assets of the Company. In addition, the Company will disclose such transactions in the notes to the audited financial statements of the Company's auditors (Form 56-1), One Report or other information in accordance with the requirements of the Stock Exchange of Thailand and related agencies.

Future trends in inter-transaction

In the future, if the Company and its subsidiaries are required to make transactions with persons who may have conflicts of interest, the Company and its subsidiaries shall comply with the measures and procedures for approving transactions between them as specified by the Company. The company and its directors will not be able to participate in approving such transactions so that the decision to enter into such transactions does not create a conflict of interest and is beneficial to all shareholders.

It's not. If there is a transaction between the Company or its subsidiaries and persons who may have a conflict of interest or may have a conflict of interest, the Company shall have the Audit Committee give an opinion on the necessity and suitability of such transaction. The company considers the conditions in accordance with the normal nature of trading operations and the Board of Directors shall ensure that the Company Comply with the laws governing securities and exchange and regulations, announcements, orders or requirements of the Stock Exchange of Thailand, including compliance with the requirements regarding disclosure of information on connected transactions and the acquisition or disposition of important assets of the Company or its subsidiaries, as well as comply with accounting standards set by the Federation of Accounting Professions.

The Company will disclose the transactions in the notes to the financial statements audited by the Company's auditors. The Company will disclose such transactions in the Annual Registration Statement (Form 56-1) One Report as required by securities and exchange laws.

PART 3

FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 DECEMBER 2023

INDEPENDENT AUDITOR'S REPORT

To The Shareholders and Board of Directors of
Intermedical Care and Lab Hospital Public Company Limited

I have audited the consolidated financial statements of Intermedical Care and Lab Hospital Public Company Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2023, and the consolidated statement of comprehensive income, consolidated statement of changes in shareholders' equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, and I have audited the separate financial statements of Intermedical Care and Lab Hospital Public Company Limited (the Company), which comprise the statement of financial position as at December 31, 2023, and the statement of comprehensive income, statement of changes in shareholders' equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the accompanying financial statements present fairly, in all material respects, the consolidated financial position of Intermedical Care and Lab Hospital Public Company Limited and its subsidiaries as at December 31, 2023, its consolidated financial performance and its consolidated cash flows for the year then ended and the separate financial position of Intermedical Care and Lab Hospital Public Company Limited as at December 31, 2023, its financial performance and its cash flows for the year then ended in accordance with Thai Financial Reporting Standards.

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing. My responsibilities under those standards are further describe in the Auditor's Responsibilities for the Audit of the Financial Statements section of my report. I am independent of the Group and the Company in accordance with the Code of Ethics for Professional Accountants including Independence Standards issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that are relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Key Audit Matter

Key audit matters are those matters that, in my professional judgement, were of most significance in my audit of the consolidated financial statements and separate financial statements of the current period. These matters were addressed in the context of my audit of the financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

Revenue recognition from Occupational Medicine Hospital

Revenue from Occupational Medicine Hospital is a significant account to the financial statements or 26 percent of total revenues. Most revenue of Occupational Medicine Hospital is engaged in providing physical examination services, therefore the revenue is recognized when the Company issued analysis results of each physical examination by the professional. When the results of analysis has been completely summarized according to the customer's agreement, invoice and all related analysis results will be issued and sent to each customer for collection. Thus service procedure is effect to value and completeness of revenue recognition and there are a lot of items in each individual analysis service transaction and many types with differing conditions and agreements. I pay special attention to auditing.

I audited revenue recognition of Occupational Medicine Hospital by assessing and tested the effectiveness of the internal controls with respect to the revenue cycle by making enquiries of responsible persons, gaining an understanding and selecting samples to test the operation of the designed controls. Perform substantive test of the revenue account, which consists of verify terms and conditions of the physical examination service and test whether the calculation of revenue is correct or not, including checking the supported documents in accounting record of the revenue. Verify the revenue transactions from rendering services during the year and near the end of the accounting period with supporting documents. Verify credit notes issued by the Company after the end of the accounting period. I performed comparative data analysis of subdivide revenue account to detect possible irregularities in revenue transactions throughout the period, particularly for accounting entries made through journal vouchers. Assess the adequacy of disclosed information related to the Company's revenue recognition.

Estimation of accrued medical treatment income

The Group has revenues from the provision of medical services to patients under the government welfare schemes of the Social Security Office and the National Health Security Office. The amounts of such revenues are determined based on government policy, the number of insured persons registered with the Group, and statistical information on the services provided by the Group. As discussed in Note 8 to the financial statements, as at December 31, 2023, the Group had accrued medical treatment income from the above government agencies amounting to Baht 363.51 million, representing 18 percent of total assets. An estimation of accrued medical treatment income requires management to exercise significant judgement. There is thus a risk of the amount of revenue from hospital operations.

I audited the revenue recognition from hospital operations and the accrued medical treatment income by assessing and testing the Group's internal controls with respect to the revenue cycle and the estimation of accrued medical treatment income by making enquiry of responsible executives, gaining an understanding of the controls and selecting representative samples to test the operation of the designed controls, and with special consideration given to expanding the scope of the testing of the internal controls which respond to the above risks. Assessing the appropriateness of the criteria, methodology and conditions applied by the Group in estimating accrued medical treatment income in accordance with government policy. Performing the reasonableness of past estimates of accrued medical treatment income by comparing those estimates with the actual amounts received. Examining cash receipt transactions relating to accrued medical treatment income subsequent to the period-end date.

Impairment of Goodwill

The Company has goodwill in the amount of Baht 966.56 million arising from investment in two companies. The Group is exposed to the risk of impairment of goodwill as the business future cash flow may not follow the expectation. From assessing the recovery value of goodwill, it requires considerable judgment in estimating future cash flow that the company expects to receive including assumptions used by management in making estimates. I pay special attention to the impairment of goodwill.

I have assessed to define the cash generating asset and financial model selected by the management by understanding the process if consistent with the nature of benefit of the asset. I tested the significant assumption used in estimating the expected future cash flow from assets prepared by the management by comparing such assumptions and internal and external information with cash flow in the past and actual operating result to assess the judgment of the management in estimating such expected future cash flow and discount rate selected by the management. Furthermore, I tested the expected recovery value of such assets in accordance with the financial model and reviewed the information disclosure relating to the impairment assessment of goodwill.

Emphasis of Matters

As discussed in Note 4 to the financial statements, the Subsidiary acquired share of Mahaesak Hospital Company Limited. The acquisition transaction completion date is on May 31, 2023 (at the acquisition date). The acquisition qualifies for treatment as a business combination in accordance with TFRS 3 Business Combinations, which requires that the assets acquired and liabilities assumed be recorded at their fair values, together with goodwill, if any. The Subsidiary has engaged an independent appraisers to determine the fair values of the assets acquired and liabilities assumed. At the present, the fair value exercise has not been completed. Accordingly, the Subsidiary recognized the provisional amount of the net assets acquired based on book values at the acquisition date and record the excess of the acquisition cost over the fair value of the net assets acquired amounted Baht 850.30 million as goodwill. However, the Subsidiary is continuing their review of the identifiable assets and liabilities, as permitted under TFRS 3 during a measurement period of not exceed 1 year from the acquisition date. If new information is obtained about facts and circumstances that existed at the acquisition date which would require further adjustment to the values initially recognized, then such adjustments would be recorded when this information becomes available.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance in order for those charged with governance to correct the misstatement.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements and separate financial statements in accordance with Thai Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated financial statements and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Thai Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and separate financial statements.

As part of an audit in accordance with Thai Standards on Auditing, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated financial statements and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements and separate financial statements, including the disclosures, and whether the consolidated financial statements and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated financial statements and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner responsible for the audit resulting in this independent auditor's report is Miss Soraya Tintasuwan.

2. BASIS FOR PREPARATION OF THE FINANCIAL STATEMENTS

2.1 Basis for preparation of the financial statements

The financial statements have been prepared in accordance with the accounting standards prescribed by Thai Accounts Act enunciated under the Accounting Profession Act B.E.2547 by complying with Thai Financial Reporting Standards. The presentation of the financial statements has been made in compliance with the Notification of the Department of Business Development, the Ministry of Commerce, re : the financial statements presentation for public limited company, issued under the Accounting Act B.E.2543.

The financial statements have been prepared on a historical cost basis except where otherwise disclosed in the accounting policies.

The financial statements in Thai language are the official statutory financial statements of the Company. The financial statements in English language have been translated from such financial statements in Thai language.

2.2 Basis for preparation of the consolidated financial statements

- a) The consolidated financial statements include the financial statements of Intermedical Care and Lab Hospital Public Company Limited and its subsidiaries are as follows:-

Name of Subsidiaries	Type of business	Head office	Percentage of holding (% of share capital)	
			2023	2022
<u>Subsidiaries held directly</u>				
1. Accufas Lab Center Co., Ltd.	Hospital and clinic	Bangkok	99.99	99.99
2. IMH Bearing Hospital Co., Ltd.	Hospital and clinic (Pre-operating Stage)	Bangkok	79.99	79.99
3. IMH Silom Hospital Co., Ltd.	Hospital and clinic	Bangkok	99.97	-
<u>Subsidiaries held indirectly</u>				
1. Suksawat Medical Co., Ltd.	Hospital and clinic	Bangkok	99.99	99.99
2. Mahaesak Hospital Co., Ltd.	Hospital and clinic	Bangkok	79.97	-

On August 10, 2022, the Company has invested in the ordinary shares of IMH Bearing Hospital Company Limited and held 79.99% which is a new subsidiary. The Company has included the financial statements of the aforesaid subsidiary in the preparation of the consolidated financial statements since the third quarter of 2022 onwards.

On January 31, 2023, the Company acquired 0.01 million shares of IMH Silom Hospital Company Limited at Baht 100 per share, amounting to Baht 1.00 million. As a result, from such shares acquiring, the Company held 99.97 percent of shares in such company which was considered as a new subsidiary. The Company had taken the financial statements of such subsidiary to prepare the consolidated financial statements from the first quarter of 2023 onwards.

On May 31, 2023, the subsidiary had purchased the investment in Mahaesak Hospital Co., Ltd. for 3.20 million shares, amounted Baht 879.62 million. As a result, from such shares acquiring, the subsidiary had 79.97 percent shareholding in such company that was considered as a subsidiary. The Company had taken the financial statements of such subsidiary to be prepared the consolidated financial statements from May 31, 2023, onwards.

- b) The Company is deemed to have control over an investee or subsidiaries if it has rights, or is exposed, to variable returns from its involvement with the investee, and it has the ability to direct the activities that affect the amount of its returns.
- c) Subsidiaries are fully consolidated, being the date on which the Company obtains control, and continue to be consolidated until the date when such control ceases.
- d) These consolidated financial statements are prepared by including the financial statements of its subsidiaries under control by Intermedical Care And Lab Hospital Public Company Limited after eliminating inter-company transactions between the Company and its subsidiaries. Investments in the subsidiaries and the shareholders' equity of the subsidiaries has been eliminated from the consolidated financial statements.
- e) Accounting policy for subsidiary company will utilize the same policy as the parent company.

- f) Non-controlling interests represent the portion of profit or loss and net assets of the subsidiaries that are not held by the Company and are presented separately from the portion of owners of the parent.

2.3 Financial reporting standards that became effective in the current year

During the year, the Company and its subsidiaries have adopted the revised financial reporting standards, which are effective for fiscal years beginning on or after January 1, 2023. This revision is for the financial reporting standards to be clearer and more appropriate and to conform with international financial reporting standards. Such revision does not affect the principles of the standards and does not affect the users of the financial reporting standards.

The adoption of these financial reporting standards does not have any significant impact on the financial statements in the current year.

2.4 Revised financial reporting standards to be applied in the future

The Federation of Accounting Professions has announced to apply the revised financial reporting standards 2023 and it was announced in the Royal Gazette on August 8, 2023 on altogether 4 topics: definition of the accounting estimates, disclosure of information of the accounting policy, deferred income tax related to assets and liabilities arising from one transaction and other adjustments due to the change of the Accounting Standard No. 17 "Insurance Contracts". This adjustment is an adjustment for the financial reporting standards to be clearer and more appropriate. This is effective for the financial statements for the accounting period beginning on or after January 1, 2024.

The Management of the Company and its subsidiaries have assessed and believed that this revision will not significantly affect the financial statements in the year that such standard is applied.

3. ACCOUNTING POLICIES

3.1 Revenue recognition

Revenues from hospital operations, mainly consisting of medical fees, hospital room charge, and medicine charge, are recognized as income when services have been rendered or medicine delivered and are measured at the amount of the consideration received or receivable after deducting discounts.

Revenues from hospital operation derived from the Social Security Office and the National Health Security Office, are recognized as income based on several expected service fee rates. And took into account criteria, procedures, and conditions set forth by the Office, including statistics on medical services and actual payments for medical services received from the Office.

Service income will be recorded as income by considering the stage of work completion.

Dividends are recognised when the right to receive the dividends is established.

Interest income is recognized on an accrual basis based on the effective interest rate.

Other income is recognized on an accrual basis based.

3.2 Expenses recognition

Expense are recognized on an accrual basis

3.3 Cash and cash equivalents

Cash and cash equivalents consist of cash in hand and at banks, and all highly liquid investments with an original maturity of 3 months or less and not subject to withdrawal restrictions.

3.4 Trade receivables and allowance for expected credit loss

Trade receivables are recognized initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognized at its present value.

The allowance for expected credit losses is disclosed in Note 3.18.

3.5 Contract assets

Contract assets means the right that the Company will receive compensation in exchange for services the Company has already transferred to the customer. Such right will arise according to certain conditions that are not a matter of time elapsed.

3.6 Inventories

Inventories are stated at the lower of cost or net realizable value. Cost is calculated on First-out Method.

The cost of inventories comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition.

The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as transportation charges and other direct costs incurred in acquiring the inventories less all trade discounts, allowances or rebates.

The net realizable value of inventory is estimated from the selling price in the ordinary course of business less the estimated costs to complete the sale.

An allowance for decline in value of inventories is provided for all deteriorated, damaged, obsolete and slow-moving inventories.

3.7 Investments

Investments in subsidiaries are accounted for in the separate financial statements using the cost method net from allowance on impairment (if any).

3.8 Property, plant and equipment and depreciation

Land is stated at cost. Building and equipment are stated at cost less accumulated depreciation and allowance for loss on impairment of assets (if any).

Cost is initially recognized upon acquisition of assets along with other direct costs attributing to acquiring such assets in the condition ready to serve the objectives, including the costs of asset demolition, removal and restoration of the asset location, which are the obligations of the company.

Expenditure related to improvement, life renewal or improvement of assets which will cause the present replacement prices of the assets materially increased will be combined as cost prices of assets. Given repairing fee and maintenance is recognized as expense in the accounting period that occurred.

The depreciation of building and equipment are calculated from cost by the straight line method according to the estimated useful lives as follows:

	<u>Estimated useful lives (years)</u>
Land improvement	10
Buildings and Asset under improvements	5 and 20
Medical and laboratory equipment	5 and 10
Office furnishings	5
Tools and office equipment	5
Vehicles	5 and 10

The Company and its subsidiaries do not depreciate for land, construction in progress.

The Company and its subsidiaries have reviewed the residual value and useful lives of the assets every year.

The depreciation for each asset component is calculated on the separate components when each component has significant cost compared to the total cost of that asset.

Depreciation is included in determining income.

Gain or loss from disposal of land, plant and equipment is computed from discrepancy between net cash received and book value and recognized as other revenue or other expenses in the statement of comprehensive income.

3.9 Borrowing costs

Borrowing costs directly attributed to the acquisition or construction of an asset that necessarily takes long time to put in ready to use or available for sale state are capitalized as part of the cost of the respective asset until that asset condition is ready for its intended use. All other borrowing costs are expensed in the period they are incurred. Borrowing costs consist of interest and other costs arising from such borrowing.

3.10 Goodwill

The Company and its subsidiaries use the acquisition method to account for business combinations and measure the cost of the acquisition being the fair value at the acquisition date of consideration transferred, and the amount of any non-controlling interest in the acquiree. For each business combination, the Company and its subsidiaries measures the non-controlling interest, if any, in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets.

The Company and its subsidiaries account for acquisition-related costs as expenses in the periods in which the costs are incurred and the services are received.

Goodwill is the excess of the cost of the business combination over the Company's interest in the fair value of the identifiable net assets of the subsidiary. If the Company's interest in the fair value of the identifiable net assets of the subsidiary exceeds the cost of the business combination, the excess is immediately recognized as gain in profit or loss.

Goodwill is initially measured at cost at the acquisition date and after that it will be measured at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed.

3.11 Intangible assets and amortization

Intangible assets are stated at cost less accumulated amortization and allowance for impairment of assets (if any).

Intangible assets acquired through business combination are initially recognized at their fair value on the date of business acquisition while other intangible assets acquired in other cases are recognized at cost.

Intangible assets with finite lives are amortized based on the straight-line method over the economic useful live and tested for impairment whenever there is an indication that the intangible assets may be impaired. The amortization period and the amortization method of such intangible assets are reviewed at least at each financial year end. The amortization expense is charge to the statement of profit or loss.

A summary of the intangible assets with finite useful lives is as follows:

	<u>Useful lives (years)</u>
Software license	5
Customer lists	21

No amortization is provided on software in progress.

3.12 Leases

At inception of a contract, the Company and its subsidiaries assess whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Company and its subsidiaries assess the lease term for the non-cancellable period as stipulated in lease contract or the remaining period of active leases together with any period covered by an option to extend the lease if it is reasonably certain to be exercised or any periods covered by an option to

terminate the lease if it is reasonably certain not to be exercised by considering the effect of changes in technology and/or the other circumstance relating to the extension of the lease term.

Right-of-use assets-as a lessee

Right-of-use assets are recognized at the commencement date of the lease. Right-of-use assets are stated at cost, less any accumulated depreciation and impairment losses (if any), and adjusted for any remeasurement of lease liabilities (if any). The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date, less any lease incentives received.

The cost of right-of-use assets also includes an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

Right-of-use assets are calculated by reference to their costs on a straight-line basis over the shorter of the lease term and the estimated useful lives for each of right-of-use assets.

Lease liabilities

At the commencement date of the lease, lease liabilities are stated at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable (if any) and amount expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and its subsidiaries and payments of penalties for terminating the lease, if the lease term reflects the Company and its subsidiaries exercising the option to terminate.

In calculating the present value of lease payments, the Company and its subsidiaries use its incremental borrowing rate, which is determined by referring to the government bond yield adjusted with risk premium depending on the lease term, at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of the interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company and its subsidiaries apply the short-term lease recognition exemption to its short-term leases (those leases that have a lease term of 12 months or less from the commencement date and not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered of low value. Lease payments on short-term and leases of low-value assets are recognized as expense in profit and loss on a straight-line basis over the lease term.

3.13 Government grants

Grants from the government are recognized at their fair value where there is a reasonable assurance that the grant will be received and the company will comply with all attached conditions.

Government grants relating to the compensation of costs are deferred and recognized in the income statement over the period necessary to match them with the costs they are intended to compensate.

Government grants relating to the purchase of property, plant and equipment are included in non-current liabilities as other liabilities and are credited to profit or loss on a straight-line basis over the expected lives of the related assets.

3.14 Provisions

Provisions are recognized when the Company and its subsidiaries have a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and a reliable estimate of the amount can be made. Where the Company and its subsidiaries expect a provision to be reimbursed, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain.

3.15 Employee benefits

Short-term employment benefits

The Company and its subsidiaries recognize salary, wage, bonus and contributions to social security fund as expenses when incurred.

Post-employment benefits (Defined contribution plans)

The Company and its subsidiaries have jointly established a provident fund. The fund is monthly contributed by employees and by the Company. The fund's assets are held in a separate trust fund and the Company's contributions are recognized as expenses when incurred.

Post-employment benefits (Defined benefit plans)

The Company and its subsidiaries have obligation in respect of the severance payments that it must pay to the employees upon retirement under the labor law. The Company treats these severance payment obligations as a defined benefit plan.

The obligation under the defined benefit plan is calculated based on the actuarial principles by a qualified independent actuary using the projected unit credit method. Such estimates are made based on various assumptions, including discount rate, future salary increase rate, staff turnover rate, mortality rate, and inflation rate.

Actuarial gains and losses for post-employment benefits of the employees are recognized immediately in other comprehensive income.

3.16 Related parties

Enterprises and individuals that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the company, including holding companies, subsidiaries and fellow subsidiaries are related parties of the company. Associates and individuals owning, directly or indirectly, an interest in the voting power of the company that gives them significant influence over the enterprise, key management personnel, including directors and officers of the company and close members of the family of these individuals and companies associated with these individuals also constitute related parties.

In considering each possible related party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

3.17 Income tax

Income tax comprises current income tax and deferred tax.

Current tax

The Company and its subsidiaries record income tax expense, if any, based on the amount currently payable under the Revenue Code at the income tax rates 20% of profit before income tax, after adding back certain expenses which are non - deductible for income tax computation purposes, and less certain transactions which are exemption or allowable from income tax.

Deferred tax

Deferred tax assets and liabilities are provided on the temporary differences between the carrying amount and the tax bases of assets and liabilities at the end of the reporting period. Changes in deferred tax assets and liabilities are recognized as deferred tax income or deferred tax expenses which are recognized in the profit or loss except to the extent that it relates to items recognized directly in shareholders' equity or in other comprehensive income.

The deductible temporary differences are recognized as deferred tax assets when it is probable that the Company and its subsidiaries will have future taxable profit to be available against which the deferred tax assets can be utilized. The taxable temporary differences on all taxable items are recognized as deferred tax liabilities.

Deferred tax assets and liabilities are measured at the tax rates that the Company and its subsidiaries expect to apply to the period when the deferred tax assets are realized or the deferred tax liabilities are settled, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

At the end of each reporting period, the carrying amount of deferred tax assets are reviewed and reduced the value when it is probable that the Company will have no longer the future taxable profit that is sufficient to be available against which all or some parts of deferred tax assets are utilized.

Deferred tax assets and deferred tax liabilities are offset when there is the legal right to settle on a net basis and they relate to income taxes levied by the same tax authority on the same taxable entity.

3.18 Financial instruments

Classification and measurement of financial assets

Financial assets are classified, at initial recognition, as to be subsequently measured at amortized cost, fair value through other comprehensive income, or fair value through profit or loss. The classification of financial assets at initial recognition is driven by the Company and its subsidiaries business model for managing the financial assets and the contractual cash flows characteristics of the financial assets.

Equity instruments can be classified and cannot be changed by two types of measurement which are measuring fair value through profit or loss or measuring fair value through other comprehensive income that without recycling to profit or loss.

The initial recognition of financial assets that are not measured at fair value through profit or loss with fair value plus or deduct transaction cost directly related to the acquisition or issuance. Financial assets that are measured at fair value through profit or loss, transaction costs are recognized as expense in profit or loss.

Subsequent measurement of debt instruments by 3 methods depend on the classification of debt instruments.

- Financial assets measured at amortized cost when financial assets are held to receive cash flow under the agreement and condition of the agreement of the financial assets that generate cash flow to pay the principal and interest from the principal balance on the specified date only. Such financial assets have to be calculated using the effective rate and are subject to impairment assessment. Profit or loss arising from derecognized, modified or impaired will be recognized in profit or loss.
- Financial assets measured at fair value through other comprehensive income when financial assets are held to receive cash flow under the agreement and to sell financial assets and the agreement condition of financial assets generating cash flow that only pays the principal and interest from the principal balance on the specified date. The change of value of financial assets is recognized through other comprehensive income except loss on impairment and interest income and gain and loss on exchange rate are recognized as profit or loss upon recognized of financial assets. Earning or deficit previously recognized in other comprehensive income has to be reclassified into profit or loss. Such financial asset has to be calculated using the effective interest rate same as financial assets measured at amortized cost.

- Financial assets measured at fair value through profit or loss when financial assets that do not meet the criteria for amortized cost or financial assets measured at fair value through other comprehensive income will be presented in the statement of financial position at fair value by recognizing the net change of fair value in profit or loss.

Subsequent valuation of equity instruments must present equity instruments using the fair value and record profit/loss from change in fair value through profit or loss or other comprehensive income depending on equity instruments classification.

Classification and valuation of financial liabilities

The Company and its subsidiaries are recognized initially of financial liabilities at fair value net of transaction costs and classified as financial liabilities as financial liabilities subsequently measured at amortized cost using the effective rate. The amortized cost is calculated taking into account fees or costs that are an integral part of the effective rate. Amortization by the effective rate is presented as part of financial costs in profit or loss.

Derivative

Derivative is recognized at fair value and measured fair value at the end of the reporting period. Profit or loss from fair value remeasurement is recognized in profit or loss immediately unless that derivative is used for hedge.

Derecognition of financial instruments

Financial assets will be derecognized from the account when the right to receive cash flow of such asset has ended or when the right to receive cash flow of the assets is transferred including upon the transfer of all risk and consideration of that asset or transfer of internal control in that asset although there is no transfer or maintaining of nearly all risk and consideration of such asset.

Financial liabilities will be derecognized from the account when the obligation of such liabilities has been complied, the obligation is cancelled or the obligation has ended. In case existing financial liabilities are changed to new liabilities from one single lender with considerably different requirements or there is a significant amendment in the requirements of existing liabilities, these are considered as recognition old liabilities and recognizing new liabilities by recognizing the difference of such carrying value under profit or loss.

Impairment of financial assets

Expected credit loss for financial assets measured at amortized cost or debt instrument financial asset measured at fair value through other comprehensive income and assets arising from credit facility obligation and financial guarantee agreement are assessed without having to wait for the credit event to occur first. The Company and its subsidiaries use the general approach in

considering the allowance for loss on impairment. For trade receivables, The Company and its subsidiaries apply a simplified approach in calculating ECLs. The Company and its subsidiaries recognize a loss based on lifetime ECLs at each reporting date. It is based on its historical credit loss experience and adjusted for forward-looking factors specific to the debtors and the economic environment.

Offset of financial instruments

Financial assets and liabilities will be offset and presented at net balance in the statement of financial position in the case legally enforced in offsetting the recognized amount. The Company and its subsidiaries intend to pay the net balance or intends to receive assets and settle payment of liabilities at the same time.

3.19 Fair value of financial instruments

The Company and its subsidiaries use the market approach to measure their assets and liabilities that are required to be measured at fair value by relevant financial reporting standards, except that the cost approach or income approach is used when there is no active market or when a quoted market price is not available.

Fair value hierarchy

Level 1 - Use of quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Use of inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (e.g. prices) or indirectly (e.g. derived from prices).

Level 3 - Use of unobservable inputs such as estimates of future cash flows.

3.20 Significant accounting judgements and estimates

The preparation of financial statements in conformity with the financial reporting standards at times requires management to make subjective judgements and estimates regarding matters that are inherently uncertain. These judgements and estimates affect reported amounts and disclosures; and actual results could differ from these estimates. Significant judgements and estimates are as follows:

Allowance for expected credit losses of trade receivables

In determining an allowance for expected credit losses of trade receivables, the management needs to make judgement and estimates based upon, among other things, past collection history, aging profile of outstanding debts and the prevailing economic condition.

Allowance for declining in value of inventory

The determination of allowance for declining in the value of inventory, requires management to make judgements and estimates of the loss expected to occur. The allowance for decline in net

realizable value is estimated based on the selling price expected in the ordinary course of business less selling expense. The provision for obsolete slow-moving and deteriorated inventory, is estimated based on the approximate useful life of each type of inventory. The allowance for diminution in value of inventory as determined is compared with the original balance in the books of account and the increase or decrease in the allowance for diminution in value of inventory will be recognized as cost of sales in profit or loss.

Determining the lease term of contracts with renewal and termination options

The Company and its subsidiaries determine the lease term as the non-cancellable term of the lease, together with any period covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised. The management is required to use judgment in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease, considering all relevant factors that create an economic incentive to exercise either the renewal or termination. After the commencement date, the Company and its subsidiaries reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate.

Determination of the Incremental Rate

The Company and its subsidiaries are unable to determine the interest rate implicit in the lease. Therefore, management is required to exercise judgement in determining the Company and its subsidiaries' incremental rate in determining the lease liability. The incremental rate is the interest rate of the Company and its subsidiaries' loans to acquire assets of close value to the right-of-use assets in a similar economic circumstance. The term and collateral are similar.

Depreciation of property plant and equipment and right-of-use assets and amortization of intangible assets

In determining depreciation of plant and equipment and right-of-use assets and amortization of intangible assets, the management is required to make estimates of the useful lives and residual values of the plant and equipment and to review estimate useful lives and residual values when there are any changes.

In addition, the management is required to review property, plant and equipment and right-of-use assets and intangible assets for impairment on a periodical basis and record impairment losses when it is determined that their recoverable amount is lower than the carrying amount. This requires judgements regarding forecast of future revenues and expenses relating to the assets subject to the review.

Goodwill and intangible assets

The initial recognition and measurement of goodwill and other intangible assets, and subsequent impairment testing, require management to make estimates of cash flows to be generated

by the asset or the cash generating unit and to choose a suitable discount rate in order to calculate the present value of those cash flows.

Deferred tax assets

Deferred tax assets are recognized for deductible temporary differences and unused tax losses to the extent that it is probable that taxable profit will be available against which the temporary differences and losses can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of estimate future taxable profits.

Post-employment benefits under defined benefit plans

The obligation under the defined benefit plan is determined based on actuarial techniques. Such determination is made based on various assumptions, including discount rate, future salary increase rate, mortality rate and staff turnover rate.

4. BUSINESS ACQUISITION

On January 9, 2023, the Company signed an agreement to buy and sell shares of Mahaesak Hospital Co., Ltd., which operated the hospital business in the amount of 3.63 million shares, or 90.77 percent of shares held by existing shareholders. The total amount was Baht 998.42 million. As at the agreement date, the Company had paid a deposit of Baht 30 million for shares. Afterwards, the Company had entered into an additional memorandum of agreement with IMH Silom Hospital Co., Ltd., a subsidiary, as the purchaser of such shares on behalf of the Company.

On May 12, 2023, the Company entered into a memorandum of agreement to amend the agreement to buy and sell shares. The Company agreed to purchase the Company's ordinary shares of Mahaesak Hospital Co., Ltd. in the amount of 3.20 million shares, or 79.97 percent of shareholding, totaling Baht 879.92 million.

Subsequently, on May 31, 2023, the subsidiary had completed the purchase of shares in such company. The subsidiary had paid for the purchase of shares amounted Baht 845.09 million. The balance was payable in cheque amounting to Baht 34.53 million.

This business acquisition was under the condition in accordance with TFRS 3: Business Combinations, which required that identifiable assets, liabilities and contingent liabilities as at the acquisition date were recorded at fair value within the measurement period which had to be not exceed 12 months from the business acquisition date. The subsidiary hired an independent appraiser to determine the fair value of the acquired assets and liabilities from the acquisition date to reflect the results of additional information obtained about the facts and circumstances that existed as at the acquisition date.

For the preparation of the consolidated financial statement for the year ended December 31, 2023, the Company used net assets value from financial statement as at May 31, 2023 (the acquisition date) of the company and other relevant factors, which may affect such information, as the consideration received

from this business acquisition, and measured components of non-controlling interests by considering net assets value according to its proportionate ownership and recorded the difference amount between the purchase price and the value of consideration received in the goodwill.

Details of net assets received and goodwill incurred as at the acquisition date were as follows:

	<u>Baht</u>
Return used in purchase	879,615,000.00
Net assets acquired	<u>29,313,798.29</u>
Goodwill	<u><u>850,301,201.71</u></u>

Acquired assets and liabilities as at acquisition date were as follows:

	<u>Baht</u>
Cash and cash equivalents	2,538,558.39
Trade and other current receivables	11,026,903.18
Current contract assets	21,295,101.79
Inventories	3,494,071.92
Other current assets	728,383.98
Restricted bank deposits	1,747,592.82
Land, buildings and equipment	79,649,878.62
Other intangible assets	621,874.39
Deferred income tax assets	1,718,229.51
Other non-current assets	1,007,246.04
Trade and other current payables	(41,865,254.67)
Employee benefit obligations	(7,834,875.91)
Other non-current liabilities	<u>(36,801,926.77)</u>
Net assets	37,325,783.29
<u>Less</u> Non-controlling equity of the subsidiary	<u>(8,011,985.00)</u>
Net assets acquired	29,313,798.29
<u>Add</u> Goodwill	<u>850,301,201.71</u>
Total return used in purchase	879,615,000.00
<u>Less</u> Cash and cash equivalents of the subsidiary	(2,538,558.39)
Undue cheque paid	<u>(34,530,444.44)</u>
Net cash used in business acquisition	<u><u>842,545,997.17</u></u>

The goodwill as at December 31, 2023 and 2022 in the consolidated financial statements were as follows:

Name of the company	Baht	
	2023	2022
1. Suksawat Medical Co., Ltd.		
By Accufas Lab Center Co., Ltd.	116,258,349.73	116,258,349.73
2. Mahaesak Hospital Co., Ltd.		
By IMH Silom Hospital Co., Ltd.	850,301,201.71	-
	<u>966,559,551.44</u>	<u>116,258,349.73</u>

5. RELATED PARTIES TRANSACTIONS

The Company and its subsidiaries have certain transactions with its related parties. These companies are related through common shareholdings and/or directorships. The effects of these transactions are reflected in the accompanying financial statements on the basis mutual determined by the Company and related parties.

Relationships with related parties that control the Company or are being controlled by the Company or have transactions with the Company/Group are as follows:

Related parties	Nature of relationships
1. Subsidiaries held directly	
1.1 Accufas Lab Center Co., Ltd.	99.99% shareholding
1.2 IMH Bearing Hospital Co., Ltd.	79.99% shareholding
1.3 IMH Silom Hospital Co., Ltd.	99.97% shareholding
2. Subsidiaries held indirectly	
2.1 Suksawat Medical Co., Ltd.	99.99% shareholding
2.2 Mahaesak Hospital Co., Ltd.	79.97% shareholding
3. Related company	
3.1 Ongkharak Hospital	Common Directors
3.2 University of the Thai Chamber of Commerce	Common Directors
3.3 Singha Estate Public Company Limited	Common Directors
3.4 Muang Thai Insurance Public Company Limited	Common Directors
3.5 Capital Plus Advisory Co., Ltd.	Common Directors
3.6 Siam City Leasing and Factoring Public Company Limited	Common Directors
3.7 Primo Trading Co., Ltd.	Common Directors

Related parties	Nature of relationships
4. Related person	
4.1 Assoc. Prof. Dr.Thanavath Phonvichai	Chairman of the Board
4.2 Mr. Sittiwat Kamkatwong	Director
4.3 Miss Poramaporn Pavarojkit	Director
4.4 Mr. Thibdee Mangkali	Director

The Company had significant business transactions with subsidiary companies, related companies and related persons. Such transactions, which have been concluded on commercial terms and bases agreed upon between the Company, subsidiary companies, related companies and related persons and are in ordinary course of business are summarized below:

5.1 Inter-revenues and expenses

	Baht				Pricing Policy
	Consolidated financial statements		Separate financial statements

20. OTHER NON-CURRENT PROVISIONS

In 2021, the subsidiaries - Mahaesak Hospital Co., Ltd. had been notified the results of the examination of the use of medical services in the case of high-cost diseases in 2015 and 2016 by the random data checking for medical services from the Social Security Office. The Social Security Office had found the incorrect percentage of AdjRW from the amount that the hospital should receive. But the subsidiaries were able to proceed with the dispute according to the period specified by the Social Security Office.

However, the subsidiaries expected that the medical service fees would be refunded from the Social Security Office from information and past experience in the total amount of Baht 4.55 million.

In 2022, the subsidiaries - Mahaesak Hospital Co., Ltd. had been notified the results of the examination of the use of medical services in the case of high-cost diseases in 2019 by the random data checking for medical services from the Social Security Office. The Social Security Office had found the incorrect percentage of AdjRW from the amount that the hospital should receive. But the subsidiaries were able to proceed with the dispute according to the period specified by the Social Security Office. However, the subsidiaries expected that the medical service fees would be refunded from the Social Security Office from information and past experience in the total amount of Baht 12.59 million.

The Social Security Office had notified by the letter informing the results of the examination of the use of medical services in the case of high-cost diseases in 2018 and 2020 - 2021 by the random data checking for medical services. The Social Security Office had found the incorrect percentage of AdjRW from the amount that the hospital should receive. But the subsidiaries - Mahaesak Hospital Co., Ltd. were able to proceed with the dispute according to the period specified by the Social Security Office. However, the Company and its subsidiaries expected that the medical service fees would be refunded from the Social Security Office from information and past experience in total Baht 19.66 million.

As at December 31, 2023, the Subsidiaries had other non-current provisions in the amount of Baht 36.80 million in the statements of financial position.

21. TREASURY SHARES

At the Board of Directors' Meeting No. 5/2021 held on August 30, 2021, it had the resolution to approve the Treasury Stock Project to manage excess liquidity of the Company, within the limit of not more than 50 million baht, the number of shares to be repurchased not more than 3 million shares, or equivalent to not more than 1.4 percent of the total issued shares. The repurchasing period in the Stock Exchange of Thailand is between September 14, 2021 to March 11, 2022, which have to be resold the shares held in treasury within 3 years after the completion date, which is the day the company has completely purchased shares as stated in the project or 6 months after the implementation, whichever is the earlier. If the company cannot sell off all repurchased shares at the time, then it should write off the remaining repurchased amount. The treasury stock held by the Company will not be counted as a quorum of shareholders and will not have the right to vote and the right to receive dividends.

When the share capital is repurchased, the amount of consideration paid including directly attributable costs, is classified as treasury stock and presented as a deduction in shareholders' equity and the same amount is allocated from retained earnings to treasury stock reserve under shareholders' equity. When reselling treasury stock, the amount is recognized as an increase in shareholders' equity by debit the treasury stock the cost of treasury stock sold calculated by the weighted average method, and transferring the same amount from the treasury shares reserve account to retained earnings. The surplus on the resale

of treasury stock is presented as a separate item in shareholders' equity. Net loss on sale or cancellation of treasury stock is deducted from retained earnings after deducting all surplus on treasury share.

As at March 11, 2022 (date of completion of the share repurchase period), the Company had purchased back 1,000,000 ordinary shares (par value of Baht 0.50 each), or 0.47% of total number of issued and fully shares, for a total of Baht 13,286,810 (excluded cost of repurchase treasury shares).

At the Board of Directors' Meeting No. 3/2022 held on August 10, 2022 had a resolution to approve the sale of repurchased shares by offering on the Stock Exchange of Thailand between September 12, 2022 and February 13, 2023 at the offering repurchased price not less than the average closing price of IMH shares over the last five trading days less 15 percent of such average closing price.

The movement of treasury shares for the year ended December 31, 2023 is as follows:

	Consolidated / Separate	
	financial statements	
	Number of shares	Amount of treasury shares (Baht)
Balance as at January 1, 2023	1,000,000	13,286,810.00
Reissuance during the year (Baht 13.60 per share)	(1,800)	(23,922.00)
Balance as at December 31, 2023	998,200	13,262,888.00

During the year 2023, the Company reissuance 1,800 treasury shares at the price of Baht 13.60 per share, totalling Baht 24,480.00 and resulted in a surplus on treasury stock of Baht 558.00

On January 22, 2023, the Board of Directors' Meeting had a resolution to cancel the sale of shares during that period and would inform again three days in advance before proceeding the sale.

As at December 31, 2023, all the repurchased shares have not been registered for capital reduction and are still held as treasury shares waiting for reissuance.

22. LEGAL RESERVE

In compliance with the Public Company Act, B.E.2535 (1992), the Company has to set aside a portion of annual net profit for legal reserve not less than 5% of annual net profit until this reserve is not less than 10% of authorized capital. Such reserve is not allowed to pay for dividend.

23. DIVIDEND

According to the Annual General Shareholders' Meeting of the Company for the year 2023 dated April 29, 2023, it had a resolution to approve the dividend payment from the annual retained earnings to 213,293,900 ordinary shares (or equal to the number of ordinary shares of the Company issued and paid-up for 215,000,000 shares less by all repurchase shares and shares that are not entitled to receive dividend

of 1,706,100 shares from the project due date on March 11, 2022) at Baht 0.14 each, amounted Baht 29.86 million. The dividend had been paid on May 25, 2023.

According to the Annual General Shareholders' Meeting of the Company for the year 2022 dated April 30, 2022, it had a resolution to approve the dividend payment from the profit performance for the year 2021 at the total amount of Baht 90 million to 214,000,000 ordinary shares (or equal to the number of ordinary shares of the Company issued and paid-up for 215,000,000 shares less by all repurchase shares of 1,000,000 shares from the project due date on March 11, 2022) at Baht 0.90 each, amounted Baht 192.60 million. The dividend had been paid on May 27, 2022.

24. EXPENSES BY NATURE

Significant expenses classified by nature are as follows:

	Baht

Number of ordinary shares at end of the year	214,001,800	214,000,000	214,001,800	214,000,000
Weighted average number of ordinary shares (Shares)	214,001,716	214,000,000	214,001,716	214,000,000
Basic earnings (loss) per share (Baht per shares)	0.10	0.81	(0.14)	0.02

27. OPERATING SEGMENT

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as the executive committee.

The Company and its subsidiaries's main businesses were specialized occupational medicine hospital, medical services, analyzed samples and sent for medical diagnosis. Its operations are carried on only in Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements.

From October 2022 onwards, the management of the Company and its subsidiaries have an opinion to stop the environmental analysis operations under the management of Accufas Lab Center Co., Ltd. in order for the Company to fully focus on operating the hospital business.

30. FINANCIAL INSTRUMENTS

30.1 Risk management

The Company and its subsidiaries manage their financial risk exposure on financial assets and financial liabilities in the normal business by its internal management and control system, and the Company and its subsidiary do not hold or issue any derivative financial instruments.

30.2 Interest rate risk

The Company and its subsidiaries are exposed to interest rate risk relates primarily to its cash at banks, bank overdrafts, short-term loans and long-term loan. However, most of the Company's financial assets and liabilities bear floating interest rates or fixed interest rates which are close to the market. However, the management believed that the future fluctuation on market interest rate would not provided significant effect to their operations and cash flows, therefore; no financial derivative was adopted to manage such risks.

As at December 31, 2023 and 2022, the significant financial assets and financial liabilities classified by types of interest rates were as follows:

	Baht				Effective interest rate Per annum (%)

30.3 Credit risk

The Company and its subsidiaries are exposed to credit risk primarily relating to trade accounts receivable and short-term / long-term loans to related parties. The management of the Company and its subsidiaries manage this risk by establishing appropriate credit control policies and procedures. Therefore, it does not expect to incur material losses from debt collection more than the amount already provided in the allowance for doubtful accounts.

30.4 Foreign currency risk

The Company and its subsidiaries do not hold risk from fluctuation of exchange rate in the overseas currencies since the trading activity of the Company and its subsidiaries are performed with domestic business.

30.5 Liquidity risk

The Company and its subsidiaries manage its liquidity risk by maintaining adequate level of cash and cash equivalents to support the Company and its subsidiaries' operations as well as securing short-term credit facilities from financial institutions for reserve as necessary and to reduce the impact of fluctuations in cash flow.

30.6 Fair value

The carrying amount of financial assets and financial liabilities as presented in the statement of financial position are mostly bear floating interest rates or fixed interest rates which are close to market rate. The management believes that the fair value of those financial assets and financial liabilities does not materially differ from their carrying amount.

The carrying value and fair value of financial assets and financial liabilities as at December 31, 2023 and 2022 are presented below.

	Baht
