

Civil claim in connection with an offense
(23 January 2023)

A little, The Son, a little.

I told you how a judge who works for a criminal court judges a defendant to be convicted of a crime or a felony but I told you if you lose in court of law, you must pay a large number of compensation and interest in that there is civil claim in connection with an offense.

I am just not sure if we proceed our criminal cases at court of law of our country, will we have the full right to proceed our criminal cases at International Criminal Court?

I know not many vocabularies, so I will not explain more. But I believe that it is not difficult for you to find the knowledge.

Thank you very much, sir.
