

Corona Virus

To whom it may concern:

Before you launched the diseased weapon which is called “Corona Virus” to kill your opponents in trade wars, and to get loads of profits from selling your vaccine and medicines, you should find the way to run away from hell and the eternal flame, first. Since **nobody is alive forever even the Satans and all evils.**

What kind of adults who torment and kill **a babygirl** who is the Daughter of the God?

What kind of men who torment and kill the Daughter of the God who is **a lady**?

And what kind of authorities who kill **innocent** citizens of other countries **who do not have any weapons?**

Unbelievable! The US. Government, the government of a powerful country which I used to really admire, is the second worst government in the world. I do not doubt why the US. Government decided to work the devil’s dirty plan with K9, K9’s demonic wife, K9’s satanic family, the Thai Government and almost all Thai together, and resigned from International Criminal Court in 2002. But I really doubt **why the US. Government, the government of a civilization country, does not feel ashamed?** Or because the leaders of the US. Government are K9, K9’s demonic wife, K9’s satanic family and the Thai Government, so the US. Government has thick faces like them.

I would like to warn all American citizens who are not devils, sinners or wicked people. If the US. Government can do these evil actions to innocent citizens of other countries, **why cannot the US. Government do the same to you in the future?** Did you see what have happened in **Syria** as an example?

I would like all American authorities who are not devils, sinners or wicked people to listen to me carefully. After I had already graduated bachelor degree in 1997, I found that Thailand is not fit for me, so I requested my angel to start my new life abroad. At that time, my aim was America. But my angel told me “Don’t be afraid of them. Stay here with me.” The God told me many times ***“If I let you start your new life in America, at the end of the story, K9, K9’s demonic wife, K9’s satanic family, the Thai Government and almost all Thai would lie to everyone “We were enticed to joined the devil’s dirty plan by the US. Government and almost all Americans. Thailand is a small and developing country, how can the US. Government and almost all Americans be enticed by us?””***

I would like all American authorities who are not devils, sinners or wicked people to think over:

If you do illegal actions and you lie to everyone to conceal your illegal actions, you must lie to everyone again and again, and again and again to manage to survive, right? So, the best way is confession to the world who enticed you to do illegal. Before you started to do your duty, you had sworn to loyal your leader and your country, but ***you had sworn to the God***. All people who tried to help the Daughter of the God to save the world, but they pass on ***will come back to lives***. So, you have “Free Will” to choose ***you will continue to do your routine duty and do nothing, or you will stand up and fight to change our world with me***.

Nobody is alive forever.

What will you leave for your surname?

Did you see the God in my room?

“Nobody is alive forever.

What will you leave for your surname?”
