

My illness has recurred

(I wrote My conditions on 16 March 2022, and posted them on My website on 19 March 2022) ...

My illness (SLE) has recurred. My right leg has gotten bruises many points, and My left arm has gotten bruise one medium point because of blood system problems and low platelets. My body also has been inflamed, causing Me to have a low fever all the time.

Reported on 16 March 2022
