

# BenchBlotter™

## Benchmark Platform Rocker

The **BenchBlotter** is the first rocker to be specifically optimized with the ideal rocking speed and tilt angle for blot washing, gel staining/destaining and hybridization applications. Available with an optional dual platform accessory, the **BenchBlotter** offers a sizeable work space, while maintaining a compact footprint and low profile design.

Lightweight and easy to carry, it can be easily transported from the lab bench to a cold room or incubator.

The large load capacity (7 lbs.), optional dimpled mat for centrifuge tubes and multiple platform tie-down points, make this rocker suitable for a wide variety of general purpose applications.

- Optimized for blot washing and gel staining/destaining
- Gentle mixing (12 rpm and +/- 8° tilt)
- Compact, low profile design
- Dual platform option expands workspace
- Safe for incubator/cold room use

### Technical Data

|                        |  |
|------------------------|--|
| Speed:                 | Fixed at 12 rpm<br>Fixed at 10 rpm (230V)    |
| Tilt Angle:            | +/- 8°                                       |
| Platform Size:         | 30x30 cm / 12x12 in.                         |
| Work Surface:          | Non-Skid Rubber Mat                          |
| Load Capacity:         | 3.2 kg / 7 lbs.                              |
| Operating Temp. Range: | +4° C to +65° C                              |
