What Do Teachers Say?

I need an effective solution for kindergartens so that I do not have to spend so much time looking for materials.

English Language Teacher

I need a support and very good guiding materials to effectively teach English to my pupils

Kindergarten Teacher

Learning Through Playing!

Play Together offers children the opportunity to experiment, talk, read, sing, dance, explore, and listen in English.

Play Together introduces English to children through daily routines with their teachers, during which time children will use English incidentally. They can then practise and share this learning at home with their parents.

Together with the English they learn in teacher-led sessions, children will cumulatively develop substantial age-appropriate skills in English.

Play Together Methodology

Teacher-led play

Child-initiated play

Incidental language

The Only Solution for Kindergartens That Treats Play so Seriously!

Game-Based Learning and Gamification

Values for Kindergarten Students:

Increases student's involvement, encourages and motivates them

Engages all the participants of the educational process

No need to supplement the learning hours with any additional materials

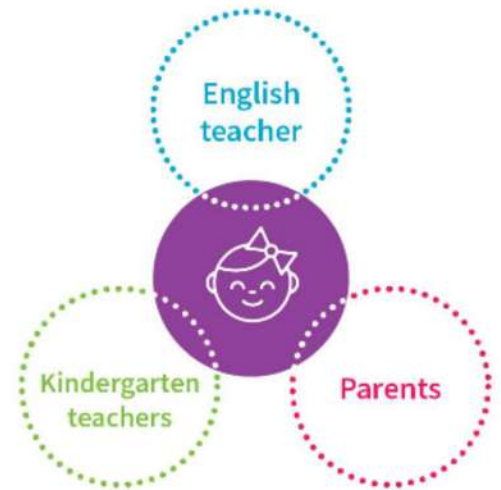

Allows to introduce a solution that both addresses the raising need for digital education

Increases student's outcomes

Play Together

Play Together is a 3-level course for pre-primary children, from age 2-6 years old, learning English as a foreign language. It combines paper and digital materials to form a complete solution for kindergartens providing over 100 hours of lesson time. The approach, materials and resources provide support for all those who are part of the children's lives: English teachers, kindergarten teachers, and parents.

What Are Fun Topics in 'Play Together'?

Level 1

56 Lessons

2-3 years old
