Independent Auditor's Report on Review of Interim Financial Information

To the Shareholders of S P V I Public Company Limited

I have reviewed the accompanying statement of financial position of S P V I Public Company Limited as at 30 September 2021, the related statements of comprehensive income for the three-month and nine-month periods then ended, and the related statement of changes in shareholders' equity and cash flows for the nine-month period then ended, as well as the condensed notes to the interim financial statements (collectively "interim financial information"). Management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard 34 Interim Financial Reporting. My responsibility is to express a conclusion on this interim financial information based on my review.

Scope of review

I conducted my review in accordance with Thai Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable me to obtain assurance that I would become aware of all significant matters that might be identified in an audit. Accordingly, I do not express an audit opinion.

Conclusion

Based on my review, nothing has come to my attention that causes me to believe that the accompanying interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard 34 Interim Financial Reporting.

Notes to interim financial statements

For the three-month and nine-month periods ended 30 September 2021

1. General information

1.1 Company information

S P V I Public Company Limited ("the Company") is a limited company incorporated under Thai laws on 6 January 2011 and registered the change of its status to a public limited company under the Public Limited Companies Act on 10 April 2013 and domiciled in Thailand. Its major shareholder is IT City Public Company Limited, a company incorporated in Thailand. The Company is principally engaged in the distribution of computers, mobile phone, related accessories and related service. Its registered address is No. 1213/58-59 Soi Ladprao 94 Sriwara Road, Phlapphla, Wangthonglang, Bangkok.

As at 30 September 2021, the Company operates 64 branches (31 December 2020: 57 branches).

1.2 COVID-19 Pandemic

The COVID-19 pandemic is resulting in an economic slowdown and adversely impacting most businesses and industries. This situation may bring uncertainties and have impact on the environment in which the Company operators. The Company's management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

1.3 Basis for the preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

1.4 New financial reporting standards

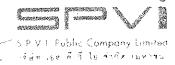

a) Financial reporting standards that became effective in the current period

During the period, the Company has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Company's financial statements.

Furthermore, the Company elected to adopt the amendments to TFRS 16 Leases relating to COVID-19-related rent concessions. These amendments provide a practical expedient that permits a lessee to not assess whether rent concessions are lease modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of the CÖVID-19 pandemic and only if all of the conditions are met, i.e., the change in lease payments results in a revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease preceding the change; any reduction in lease payments affects only payments originally due on or before 30 June 2022; and there is no substantive change to other terms and conditions of the lease.

The Company applies the practical expedient to all rent concessions that meet the above conditions and the effects of the application of this expedient, due to resulting changes in payments under leases are recognised in profit arclass for the three-month period and ninemonth periods ended 30 September 2021, amounting to Baht 4.4 million and Baht 7.6 million, respectively. There was no impact on the apening balance of retained earnings.

b) Financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2022

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and, for some standards, providing temporary reliefs or temporary exemptions for users.

The management of the Company believes that adoption of these amendments will not have any significant impact on the Company's financial statements.

2. Significant accounting policies

The interim financial statements are prepared using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2020.

3. Related party transactions

During the periods, the Company had significant business transactions-with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and based agreed upon between the Company and those related parties.

16.3 Guarantees

As at 30 September 2021, there were outstanding bank guarantees of approximately Baht 115.4 million (31 December 2020: Baht 87.2 million) issued by bank on behalf of the Company in respect of the purchase of goods and services as required in the ordinary course of business of the Company.

17. Segment information

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance. The chief operating decision maker has been identified as Managing Director.

The one main reportable operating segment of the Company is the distribution of computers, mobile phone, related accessories and related service, which revenue is recognised at a point in time, and the single geographical area of its operations is Thailand. Segment performance is measured based on operating profit or loss, on a basis consistent with that used to measure operating profit or loss in the financial statements. As a result, all of the revenues, operating profits and assets as reflected in these financial statements pertain to the aforementioned reportable operating segment and geographical area.

18. Financial Instrument

18.1 Fair value of financial instrument

Most of the Company's financial instruments are classified as short-term or have interest rates that are close to market rate. Therefore, the carrying amounts of these financial instruments is estimated to approximate their fair value.

19. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's Board of Directors on 4 November 2021.
