

SPVI No. 013/2025

Environmental Policy
S P V I Public Company Limited

S P V I Public Company Limited (“the Company”) recognizes the importance of environmental stewardship in ensuring that its business operations are aligned with sustainable development principles for the benefit of the environment, surrounding communities, and society as a whole. Environmental protection helps minimize the impacts arising from business activities while enhancing the confidence of all stakeholders and promoting the efficient use of resources. In addition, the Company places importance on fostering a sustainability-oriented corporate culture among employees and business partners to ensure sustainable business growth alongside environmental conservation through the following practices:

1. The Company is committed to conducting its business in strict compliance with environmental standards and applicable regulations, while continuously monitoring and improving its practices to align with new and evolving requirements.
2. The Company promotes environmental awareness and sustainable resource utilization among employees at all levels through training programs, internal communications, and awareness campaigns, including support for environmental activities organized by local communities.
3. The Company selects, procures, and offers environmentally friendly, safe, and high-quality products and services by engaging with suppliers that implement environmental management practices, while also supporting suppliers in reducing environmental impacts.
4. The Company encourages employees at all levels to participate in the efficient management of resources, including waste segregation reduction of electricity and water consumption, as well as the responsible use of materials and other resources in the workplace and in activities involving stakeholders.

This Policy shall become effective on 24 December 2025 upon approval by the Managing Director.

Announced on 24 December 2025.
