

BOD No. 014/2025

Climate Change Policy
S P V I Public Company Limited

S P V I Public Company Limited (“the Company”) recognizes that climate change is a significant risk to environmental, economic, and social sustainability and may affect the Company’s ability to operate over the long term. The Company is therefore committed to conducting its business with due consideration of climate change impacts by focusing on reducing impacts arising from its activities, adapting to potential risks, and using resources efficiently in order to strengthen the long-term resilience of its operations.

The Company also supports national and international greenhouse gas emissions reduction goals and believes that systematically addressing climate change will serve as an important foundation for enhancing the Company’s competitiveness and achieving sustainable growth in the future. Accordingly, the Company has established the following practices:

1. Conduct business operations in compliance with laws, regulations, and requirements relating to climate change.
2. Establish targets, strategies, and guidelines for efficient energy use and operational improvements in order to reduce greenhouse gas emissions.
3. Assess climate-related risks and opportunities to determine appropriate measures for reducing impacts, including preparedness and response plans, to ensure that business operations can continue without disruption.
4. Promote awareness and communicate information to employees regarding the importance and impacts of climate change through internal communications in order to strengthen understanding and cooperation on such matters.
5. Regularly monitor and review greenhouse gas emissions reduction performance, including reviewing related policies and targets, in order to assess effectiveness and continuously improve measures to achieve the established objectives.

This Policy shall become effective on 24 December 2025 upon approval by the Managing Director.

Announced on 24 December 2025.
