

BITTER GOURD

F1-Hybrid Bitter gourd

CODE: BG-669

Characteristics

Fast growing variety with disease tolerance. Well branching and prolific. Glossy skin with dark green color.

Fruit long: 29-32 cm.

Fruit weight: 340-350 gm. in diameter 4.7-5.5 cm.

Harvest time: 45-50 days.

CODE: BG-651

Characteristics

Fast growing variety with disease tolerance.

Well-branching and prolific. Glossy skin with dark green color.

Fruit long: 25-27 cm.

Fruit weight: 395-420 gm. in diameter 5.5-6.8 cm.

Harvest time: 45-50 days.

CODE: BG-191

Characteristics

Vigorous growth, well-branched, high yield and tolerance to diseases. The fruit has glossy skin with green color.

Good shelf life and able to grow all year round.

Fruit long: 7.2-33 cm.

Fruit weight: 490 gm.

Harvest time: 48-50 days.

CODE: BG-706

Characteristics

Excellent prolific growth. Vigorous plant. Good branching and disease tolerance. Glossy skin with dark green color.

Fruit long: 24-27 cm.

Fruit weight: 142 -157 gm.

Harvest time: 45-50 days.

CODE: BG-536

Characteristics

Vigorous plant. Excellent prolific growth and fruit setting. Good branching and diseases tolerance. Good shelf life. All year round growing. The fruit has dark green color.

Fruit Size: 4.6x25-28 cm.

Fruit Weight: 155 gm.

Harvest time:45-50 days.

CODE: BG-675

Characteristics

Vigorous plant. Excellent prolific growth and fruit setting. Good branching and diseases tolerance. The fruit has dark green color. Good shelf life. All year round growing.

Fruit Size: 4.6 -5.3x25-28 cm.

Fruit Weight: 190-260 gm.

Harvest time: 45-50 days.

CODE: BG-687

Characteristics

Fast growing variety with disease tolerance. Well branching and prolific. Diameter 5.1-5.5 cm. The fruit has dark green color.

Fruit long: 25-27 cm.

Fruit weight: 230-250 gm.

Harvest time: 45-50 days.

CODE: BG-462

Characteristics

A Small size variety, dark green fruit, prolific growth, well-branched, tolerant to diseases and good shelf-life.

Able to grow all year round.

Fruit size 3.2 x6.5 cm.

Fruit weight 25-30 gm.

Harvest time: 40-50 days.

CODE: BG-672

Characteristics

Fast growing variety with disease tolerance. Well-branched and prolific heat. The fruit has glossy skin with dark green color. Fruit long: 32-35 cm. in diameter 4.5-5.5 cm. Fruit weight: 250-350 gm. Harvest time: 45-50 days.

CODE: BG-673

Characteristics

Fast growing variety with disease tolerance. Well branching and prolific. The fruit has glossy skin with dark green color. Fruit long: 26-29 cm. in diameter 4.5-5 cm. Fruit weight: 260-300 gm. Harvest time: 45-50 days.

CODE: BG-535

Characteristics

Excellent prolific growth and fruit setting, Vigorous plant, good branching and disease tolerance. Medium green fruit color. Fruit size: 4.6x33 cm. Fruit weight: 260 gm. Harvest time: 45-50 days.

CODE: BG-698

Characteristics

Vigorous plant and easy to grow.
Good diseases tolerance. Dark green fruit color.

Fruit size: 28.5-30.5 cm. in long and 4-4.5 cm. in diameter.

Fruit weight: 150-180 gm.

Harvest time: 45-50 days.

CODE: BG-713

Characteristics

Vigorous plant and easy to grow.
Good diseases tolerance. Glossy skin with dark green fruit color.

Fruit size: 32-35.5 cm. in long and 3.8-4 cm. in diameter.

Fruit weight: 200-206 gm.

Harvest time: 45-50 days.
