Harvest time: 30-35 days

THONG AEK

Characteristics

Vigorous plant, large and highly uniform. Suitable for tropical season and heat tolerance. Large stem with thick dark green leaf. Highly disease tolerant. Able to grow all year round.

Weight: 200-250 g.

Height: 35-40 cm.

Harvest time: 30-35 days

FLOWERING PAK CHOY

CODE: NO.070

Characteristics

Vigorous plan, early harvested producing and highly uniform, widely adaptability. Large dark green with oblong shaped leaves.

Able to grow all year round.

Weight: 100-123 g.

Height: 30-35 cm.

Harvest time: 25-30 days

CODE: NO.072

Characteristics

Vigorous plan, early harvested producing and height uniform, widely adaptability. Large dark green with oblong shaped leaves. Able to grow all year round.

Weight: 110-130 g.

Height: 30-35 cm.

Harvest time: 30-35 days

CODE: NO.074

Characteristics

Early harvested, light green plant produces many branches and oblong-shaped leaf, large and uniform flower cluster, and widely adaptability. Able to grow all year round.

Weight: 80-110 g.

Height: 35-40 cm.

Harvest time: 25-30 days

CODE: NO.075

Characteristics

Early harvested, produces many branches and uniform cluster, widely adaptability. Able to grow all year round.

Weight: 120-130 g.

Height: 30-35 cm.

Harvest time: 25-30 days

FLOWERING PAK CHOY

CODE: NO.059

Characteristics

Dark green plant produces many branches and oblong-shaped leaf, large and uniform flower cluster and widely adaptability. Able to grow all year round.

Weight: 80-90 g.

Height: 30-35 cm.

Harvest time: 25-30 days
