

# LUFFA

F1-Hybrid Luffa

**CODE: LU-022**

**Characteristics**

Vigorous growth plant and good branching, high productive, has good disease resistant. The fruit color is dark green in cylindrical shaped. Suitable for the spring and autumn season.

**Fruit size:** 4.5×50 cm.

**Fruit weight:** 275 gm.

**Harvest time:** 35-40 days after sowing.

**CODE: LU-309**

**Characteristics**

Vigorous growth plant, high productive and good disease resistant. The fruit color dark in cylindrical shaped. Suitable for the summer season.

**Fruit size:** 4-4.5x40-45 cm.

**Fruit weight:** 280-320 gm.

**Harvest time:** 30-35 days after sowing.

CODE: LU-161

### **Characteristics**

Disease tolerance, high yield and vigorous growing hybrid with good branching. Medium long cylindrical shaped fruit, dark green skin color and good fruit setting.

**Diameter:** 3.5-4.0 cm.

**Fruit length:** 30-35cm.

**Fruit weight:** 200-250 gm.

**Harvest time:** 35-40 days.

**CODE: LU-175**

**Characteristics**

Vigorous growth plant and good branching, high productive, has good disease resistant. Medium long dark green color with white pattern and black stripes with cylindrical shaped fruit. Suitable for the summer season.

**Fruit size:** 4.2-4.5x30-35 cm.

**Fruit weight:** 250-280 gm.

**Harvest time:** 35-40 days after sowing.

**CODE: LU-166**

**Characteristics**

Vigorous growth plant and good branching, high productive, good disease resistant. Dark green fruit color with black stripes. Short and plumped fruit. Suitable for the summer season.

**Fruit size:** 4.6x25-26 cm.

**Fruit weight:** 200-212 gm.

**Harvest time:** 35-40 days after sowing.
