

SWEET CORN

F1-Hybrid Sweet Corns

CODE: SC-016**Characteristics**

Sweet corn hybrid very sweet. Excellent tipfill. Suitable for planting all the year-round. Root strong. Tolerant to heat and diseases.

Ear size: 5.5-21 cm.

Ear weight: 350-400 gm.

Plants height: 270-280 cm.

Harvest time: 70-75 days after sowing

**CODE: SC-052****Characteristics**

Sweet corn hybrid very sweet. Excellent tipfill and texture. Suitable for planting all the year-round. Tall with ears borne 80-95 cm. Well-filled with 16-18 rows of golden-yellow kernels. Root strong. Tolerant to heat and diseases.

Ear size: 5.5x20-23 cm.

Ear weight: 370-390 gm.

Plants height: 230-250 cm.

Harvest time: 70-75 days after sowing

**CODE: SC-142****Characteristics**

Vigorous plant, good taste, large ear size and shape are cylindrical and corn cob small. Red kernels. Very well fresh produce uniformity, 15-16 Brix sugar content and good husk cover. Root strong. Tolerant to heat and diseases. Tall with ears borne 75-95 cm. Well-filled with 14-16 rows.

Ear size: 5x30-35 cm.

Ear weight: 350-380 gm.

Plants height: 220-250 cm.

Harvest time: 68-70 days after sowing

Tropical: Yellow

CODE: SC-170

Characteristics

Vigorous plant, dark green leaf, general disease tolerance, good husk cover, long ear shaped and tipfill. Able to grow all year round.

Ear size: 4.9x23 cm.

Weight without husk: 270-300 gm.

Sweetness (%Brix): 14

Number of rows: 16-18 rows

Harvest time: 70-74 days

CODE: SC-237

Characteristics

Vigorous plant, general disease tolerance, good husk cover and dark green husk. Able to grow all year round.

Ear size: 4.9x22 cm.

Weight without husk: 250-280 gm.

Sweetness (%Brix): 14

Number of rows: 14-16 rows

Harvest time: 70-74 days

CODE: SC-301

Characteristics

Vigorous plant, long ear, strength row and large kernel size. Able to grow all year round.

Ear size: 5.2x24 cm.

Ear weight without husk: 330-360 gm.

Sweetness (%Brix): 14

Number of rows: 14-16 rows

Harvest time: 70-74 days

CODE: SC-332

Characteristics

Vigorous plant, good husk cover, long ear shape, tipfill, strength rows and large kernel size. Able to grow all year round. Able to grow all year round.

Ear size: 5.1x23 cm.

Ear weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of rows: 14-16 rows

Harvest time: 68-72 days

Tropical: Yellow

CODE: SC-016

Characteristics

Vigorous plant, strong root, dark green leaf, large ear size and tipfill. Able to grow all year round.

Ear size: 5.4x22 cm.

Weight without husk: 330-360 gm.

Sweetness (%Brix): 14

Number of rows: 16-18 rows

Harvest time: 70-74 days

CODE: SC-254

Characteristics

Vigorous plant, strong root and general disease tolerance. Bright yellow kernel and tipfill. Able to grow all year round.

Ear size: 5.5x21 cm.

Weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of row: 16-18 rows

Harvest time: 72-76 days

CODE: SC-330

Characteristics

Vigorous plant, dark green leaf, low ear setting, dark green husk, good husk cover, and tipfill. Able to grow all year round.

Ear size: 5.5x21 cm.

Weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of row: 16-18 rows

Harvest time: 70-74 days

CODE: SC-355

Characteristics

Vigorous plant, dark green leaf, large ear size, good husk cover, strength rows, tipfill and bright yellow kernel. Able to grow all year round.

Ear size: 5.5x22 cm.

Weight without husk: 330-360 gm.

Sweetness (%Brix): 14

Number of rows: 16-18 rows

Harvest time: 68-72 days

Tropical: Yellow

CODE: SC-200

Characteristics

Vigorous plant, dark green leaf, good husk cover, strength row and large kernel size. Able to grow all year round.

Ear size: 5.2x21cm.

Weight without husk: 260-290 gm.

Sweetness (%Brix): 14

Number of rows: 14-16 rows

Harvest time: 70-74 days

CODE: SC-272

Characteristics

Vigorous plant, dark green leaf, good husk cover, tipfill and large kernel size. Able to grow all year round.

Ear size: 5.2x21 cm.

Weight without husk: 260-320 gm.

Sweetness (%Brix): 14

Number of row: 14-16 rows

Harvest time: 70-74 days

CODE: SC-279

Characteristics

Vigorous plant, low ear setting, good husk cover, strength row, large kernel size and glossy kernel. Able to grow all year round.

Ear size: 5.1x21 cm.

Weight without husk: 290-320 gm.

Sweetness (%Brix): 14

Number of row: 14-16 rows

Harvest time: 68-72 days

CODE: SC-289

Characteristics

Vigorous plant, dark green leaf, low ear setting, long ear, tipfill, strength row and large kernel size. Able to grow all year round.

Ear size: 5.6x23 cm.

Weight without husk: 350-380 gm.

Sweetness (%Brix): 14

Number of rows: 14-18 rows

Harvest time: 69-73 days

Tropical: Yellow

CODE: SC-317

Characteristics

Vigorous plant, good husk cover, large ear size, tipfill, strength row and light yellow kernels. Able to grow all year round.

Ear size: 5.3x23 cm.

Weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of rows: 14-16 rows

Harvest time: 70-74 days

CODE: SC-407

Characteristics

Vigorous plant, dark green husk, good husk cover, bright yellow kernel and large kernel size. Able to grow all year round.

Ear size: 5.1x20 cm.

Weight without husk: 270-300 gm.

Sweetness (%Brix): 14

Number of row: 14-16 rows

Harvest time: 66-70 days

CODE: SC-531

Characteristics

Vigorous plant, dark green husk, good husk cover, tipfill and large kernel size. Able to grow all year round.

Ear size: 5.6x19 cm.

Weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of row: 16-18 rows

Harvest time: 68-72 days

Tropical: Yellow

CODE: SC-358

Characteristics

Vigorous plant, large ear size, good husk cover, strength rows and tipfill. Able to grow all year round.

Ear size: 5.4x22 cm.

Weight without husk: 300-330 gm.

Sweetness (%Brix): 14

Number of rows: 16-18 rows

Harvest time: 70-74 days

CODE: SC-370

Characteristics

Vigorous plant, large ear size, good husk cover, strength rows, tipfill, glossy kernel with bright yellow color. Able to grow all year round.

Ear size: 5.7x20 cm.

Weight without husk: 320-350 gm.

Sweetness (%Brix): 14

Number of rows: 16-18 rows

Harvest time: 70-74 days

Tropical: Red

CODE: SC-158

Characteristics

Vigorous plant, long ear, red kernel color, tipfill, good eating quality and more anthocyanin. Able to grow all year round.

Ear size: 5x22 cm.

Weight without husk: 290-320 gm.

Sweetness (%Brix): 15

Number of row: 14-16 rows

Harvest time: 67-69 days

Semi-Tropical: Bi Color

CODE: SC-454

Characteristics

Vigorous plant, dark green leaf, strength rows, glossy kernel with white-yellow color, good eating quality. Able to grow all year round.

Ear size: 5.2x21 cm.

Weight without husk: 270-300 gm.

Sweetness (%Brix): 16

Number of rows: 14-16 rows

Harvest time: 64-66 days

CODE: SC-455

Characteristics

Vigorous plant, dark green leaf, strong root, strength rows with glossy white-yellow kernel and good eating quality. Able to grow all year round.

Ear size: 5.1x22 cm.

Weight without husk: 270-300 gm.

Sweetness (%Brix): 18

Number of row: 16-18 rows

Harvest time: 64-66 days
