

Hurricane  
Auto Feeder

Solar  
or  
AC

## CPAC ANIMAL HEALTH

- Reduces FCR
- Increases ADG
- Low maintenance
- Volume 120 kg hopper
- Saves on feed cost
- Throw diameter 15-20 m
- High torque electronically controlled motor
- Easy adjustments for throw times and intervals
- NO AC needed on solar model
- Requires only 50 watts (0.067 HP)
- The consistent spiral cast and electronic braking spreads the feed evenly
- One feeder per 600,000 animals
- Accurately feeds 24 hours a day automatically
- Easy to adjust for feed size as bio mass increases
- Available fully solar powered with battery backup or AC
- Expected ROI in 2 cycles
