Less is indeed more! Functionality at a pull.

With the world fast adopting the trend of accentuating interiors through minimalistic elements, it becomes essential for us, as a company, to ensure that you are equipped with products that promise to deliver all that is expected and much more.

Staying true to this trend, Häfele integrates concepts of space efficiency, functionality, ease, entertainment and advanced technology seamlessly into its New Pop-up Socket Systems.

These systems are great for adding power plugs to a conference room, a kitchen worktop space or your home without compromising the look. Offering a sophisticated feel, these Pop-up Socket Systems can simply disappear when not in use. It can not only be used to charge appliances, mobiles or laptops with its 16 Ampere plugs or 2.1 Ampere USB ports but can also function as a wireless music system with the in-built Bluetooth Audio Speaker System. Häfele's New Pop-up Socket Systems are made of Aluminium and Plastic and are available in a Silver Aluminium Finish.

Features

Space Efficiency: Häfele's new pop-up socket systems can be housed in a cavity when not in use. It therefore, visually disappears thus promoting effective utilisation of space

Flexibility: Since these systems can be installed practically anywhere, there is reduced dependence on the traditional wall socket systems. This enables you to have multiple access points to power sockets practically within your hand's reach

Entertainment: Not only does the pop-up socket system offer unequalled functionality but also packs-in its unique dose of entertainment through the integrated Bluetooth audio system. This system can be connected wirelessly to your phone, tabs, laptops and desktops to play your favourite playlists

Splash-proof: The new pop-up socket systems are splash-proof, that is they are resistant to water splashing from all directions. These systems have a rating of IP 54 when placed in a closed position.

Product Specifications

Article No.	822.80.300	822.80.301
Description:	Pop-up Socket with Bluetooth Speaker	Pop-up Socket without Bluetooth Speaker
Dimensions (mm):	436 (H) × 100 (Diameter)	345 (H) × 100 (Diameter)
No. of Sockets:	International Sockets: 2 USB Sockets: 2	International Sockets: 3 USB Sockets: 2
Input:	220 – 240 V ~ 50 Hz	
Power:	International Sockets : 16A USB Charger: 2.1A	
Splash-proof:	Yes (IP 54 : In a closed position)	
Supplied with:	<ul style="list-style-type: none"> • 1x Pop-up Socket • 1x 2 Meter Cable with EU Plug • 1x Instruction Leaflet

Product Specifications

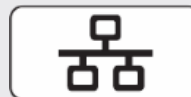

USB Charger	
<i>Output Voltage:</i>	5VDC
<i>Output Current:</i>	Max. 2100 mA
Individual Switch for power on / off	
LED Indicator lights up when power on	

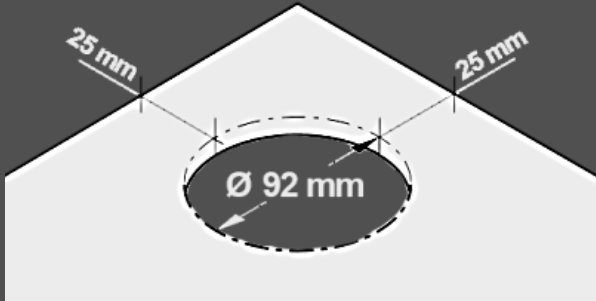

Wireless Audio Speaker	
<i>Output Power:</i>	Max. 2 W
<i>Sensitivity (380 mV):</i>	> 80dB
<i>Speaker Frequency Range:</i>	280Hz – 16 KHz
<i>Audio Connector:</i>	Standard 3.5mm headphone connector

Data Socket	
<i>Output Voltage:</i>	
<i>Output Current:</i>	Max. 16 A
Superior performance and low loss signal transmission	
Contacts are phosphor bronze plated with hard gold	

Installation

1. Cut-out a **92 mm** diameter hole in the work surface and allow a minimum of 25mm clearance surrounding the cut hole. The surface you select should be between 10mm and 50mm thick.

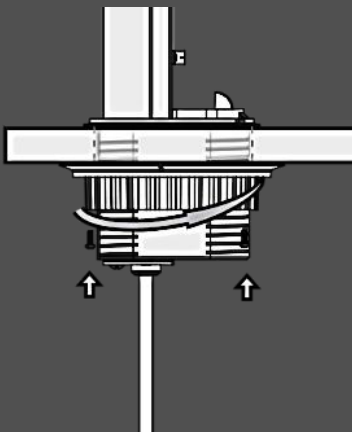

NOTE: Ensure there is sufficient space underneath the installed surface, for the unit when it retracts to the closed position

2. A locking ring with rubber washer is supplied in the packaging. If it is attached to the mounting collar, remove it by rotating it in an **anti-clockwise** direction prior to lowering the unit into its final location

โทร : 02 550 9555

3. Insert the socket into the hole

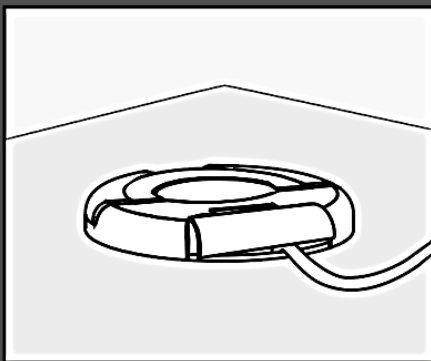

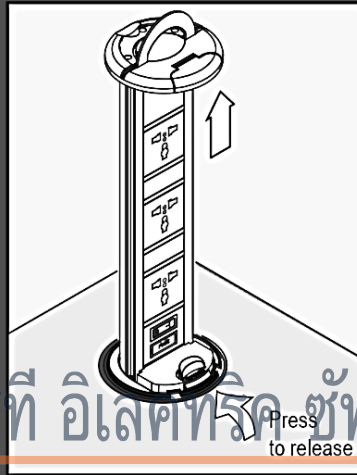

4. Now place the locking ring into the mounting collar. Identify and align arrows on the collar and the locking ring to ensure that the thread is engaged properly. Turn the locking ring clockwise to tighten. Make sure the rubber washer is compressed tightly on underside of surface. Tighten the screw until the ring firmly grip the surface

5. Connect the cable to the power supply, once installation has been completed accurately. The product is now ready for use

Operation

1. To use the Pop-up Socket, gently lift up the silver handle on the top cover until all the socket outlets are exposed and the red stop/release button clicks and locks the unit in place.

2. Press the master switch on. A green light confirms that power is available. You can use all the power sockets.

The unit can be retracted in position by pressing the red stop/release button and pushing the unit down until it is flush with the surface, leaving the engaged cables on the window of the top cover
