Tel : 02-9880988 Fax : 02-9881068

First Safe Engineering Company was established with a total capital of a million baht on June 24, 2013. We offer the wide range of gas detection instruments for all portable gas detections and also in the fixed gas detection systems.

In addition to the wide array of equipment offered, we also provide after sales services including installation, inspection, calibration, repair and maintenance by expert engineers as well as advice on system installation.

To ensure that the customers get an international standard level of services, we supply the approved calibration equipments which meet the international standard and also provide the staff training continuously

We offer the gas detection instruments at the reasonable price and also deliver the products and services on time. Moreover, we also focus on development of the services to meet the customer service satisfaction.

Furthermore, First Safe Engineering Company also provide the on - site calibration services with the fast response and high quality to meet the customer needs.

Install & Maintenance

Products

Multi Gas detector
Model : MultiRAE Lite
Brand : RAE Systems

Model : QRAE 3
Brand : RAE Systems

Multi Gas detector
Model : QRAE II
Brand : RAE Systems

VOC Monitor
Model : MiniRAE 3000
Brand : RAE Systems

Single Gas detector
Model : ToxiRAE PRO
Brand : RAE Systems

Single Gas detector
Model : Protege
Brand : Scott Safety

Multi Gas detector
Model : Altair 4X
Brand : MSA

Multi Gas detector
Model : Altair 5X
Brand : MSA

Calibration & Installation Services

Calibration Fixed Gas detector at Grohe Siam Co.,Ltd.

Installation Fixed Gas detector at PTT Research and Technology Institute (PTT RTI)

Training at IRPC Rayong

Training at Kansai Resin (Thailand) Co.,Ltd.
