

RUSH 111

Superior dry road grip with Semi Slick construction

With its Semi Slick tread design that maximizes road contact, the RUSH 111 delivers exceptional dry grip—ideal for drivers who demand precision and confidence in every turn.

Precise and responsive control

RUSH 111 is engineered for high-performance driving, delivering quick and accurate response from the tire to the road, helping maintain the vehicle's stability and balance in all driving conditions.

Premium Japanese technology for efficiency and durability

Crafted with a premium rubber compound and advanced Japanese technology, the RUSH 111 ensures durability against heat and abrasion—while maintaining peak performance under demanding conditions.

Combining speed and stability for the ultimate driving experience.
