

SM-5

Strong Grip Power

Zigzag ditch pattern is appropriate for a variety of harsh road conditions. Continuous inclined groove design offers an excellent drainage function as well as a stable grip.

Stiff and Sharp Shoulder

Zigzag tooth shoulder design provides strong grip and traction capacity, even in muddy field.

Thick three-dimensional sidewall protection structure strengthens cutting resistance and protects sidewall against impacts.

Balanced Off-Road and On-Road Performance

Variable pitch combination reduces noise at high speed.

Reinforced tire structure and multi-layer matrix material work together to improve tire strength.

BALANCE PERFORMANCE OVER VARIOUS TERRAINS

Size	Loading Index	Load Capacity (kg)	Speed Rating	Standard Rim	Section Width (mm)	Overall Diameter (mm)	Max. Pressure (kPa)	UTQG
