

Report to Investors
Quarter 2/2013 (January – March 2013)

Highlight of Quarter

- Total revenue was 994 million Baht. It was 353 million or 54.8% increase when compares to same period of previous year. Most of increased income derived from the higher sales of automobile control cable at 261 million Baht of 63.3%. Such was a result of the huge flood situation at end of 2012 that hindered the operation of several customers, especially Honda.
- Revenue from sales of automobile control cable grew constantly. It was 55 million Baht higher than previous quarter.

Overview

- During Quarter 2/2013, TSC sales boosted up higher than same period of previous year and than last quarter. The rise was due to the selling of automobile control cable to Honda and Nissan.
- During Quarter 2/2013, TSC started to pay long-term interest using for new plant construction. Nevertheless, the increase of expenses of Quarter 2/2013 was lesser and not incorporate with sales in same quarter of 2012 and of previous quarter. The net profit was then larger than the previous year and quarter respectively.
