USB HID

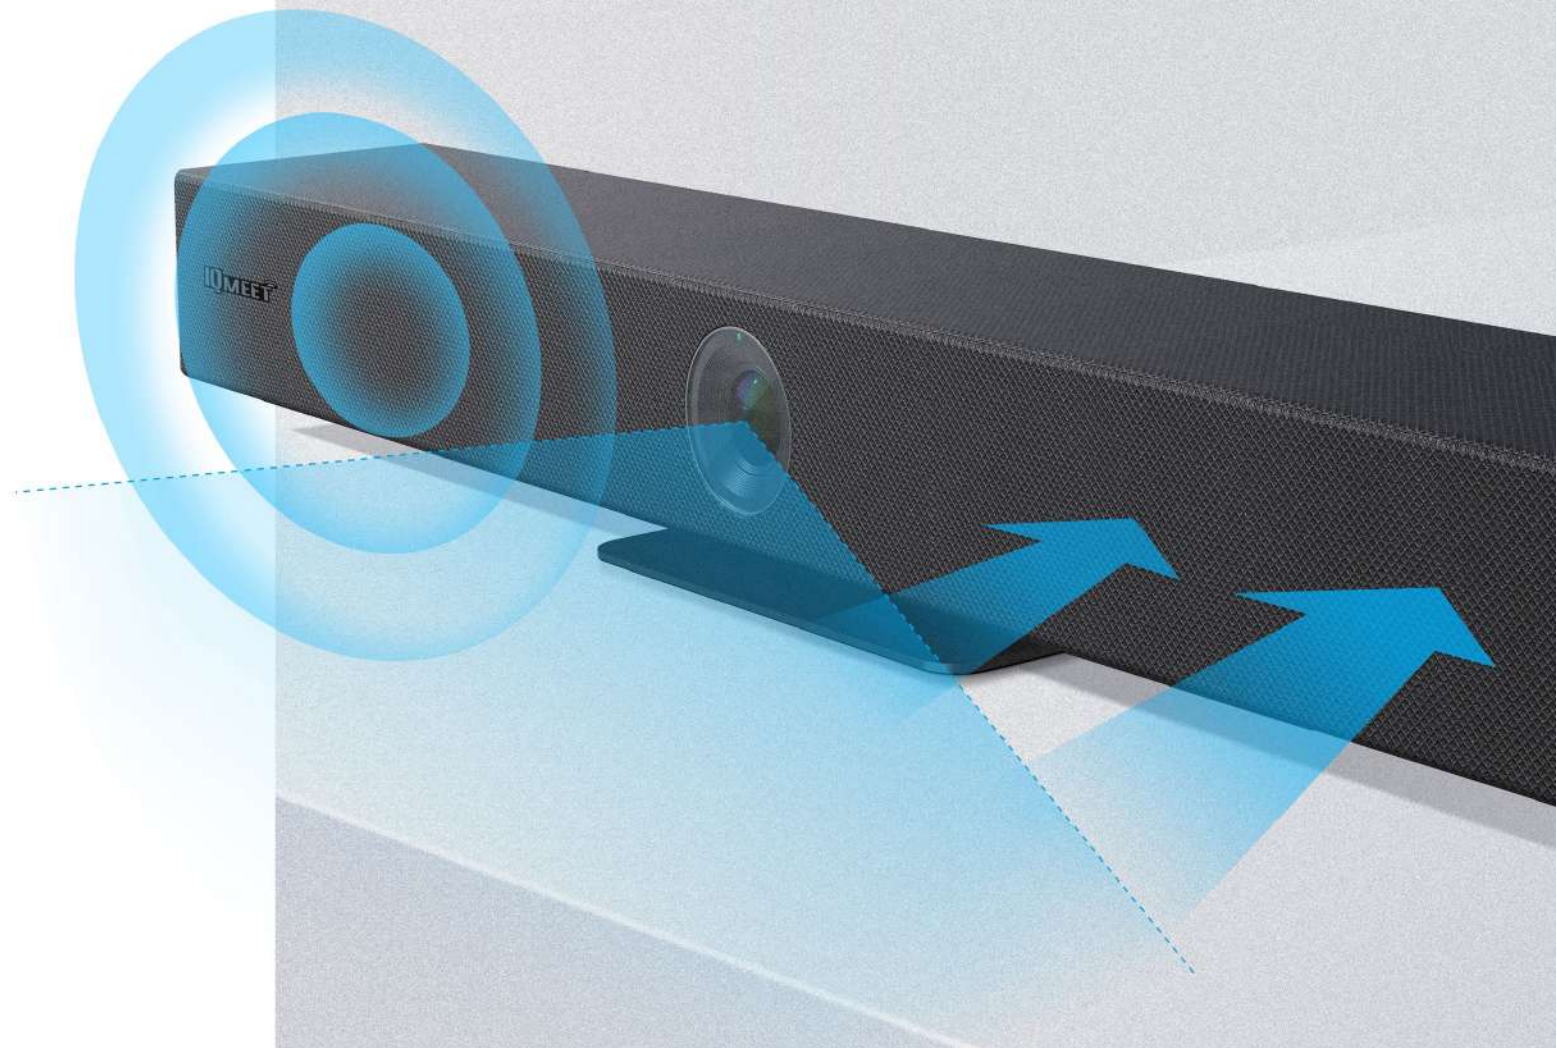

I Can Find You

By voice tracking and sound source localization, the camera can automatically switch focus between the different speakers with automated and smooth camera panning.

3 in 1 Design

Adopt a compact 3 in 1 design that integrates camera, microphone and speaker, only one device can start video conferencing immediately.

Camera, Capture in Details

- 8MP | Optical Lens | ePTZ 5x Digital Zoom

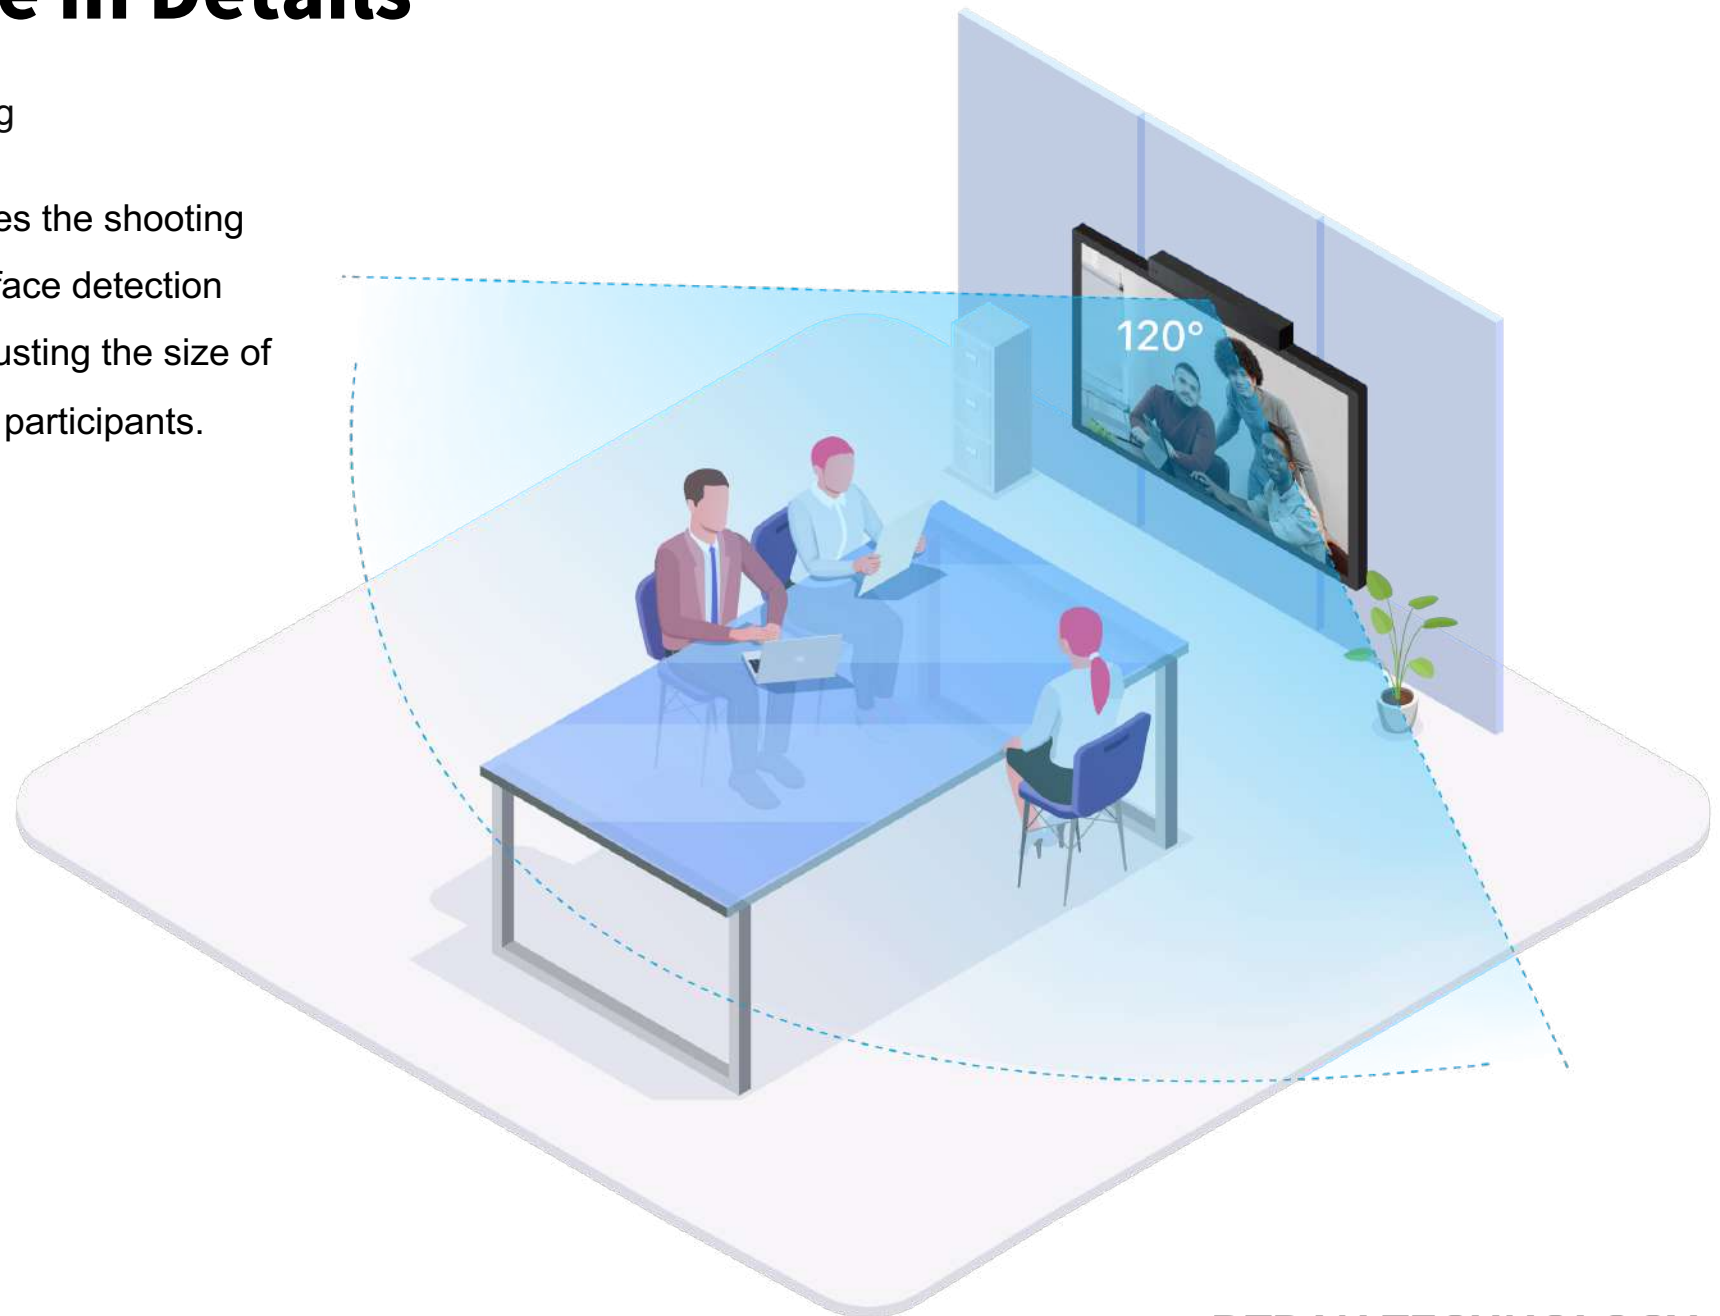

8 megapixel high-quality CMOS image sensor with optical lens, presenting realistic ultra HD videos and vividly showing the expressions and actions of each person.

Camera, Capture in Details

- 120° Wide FOV | Auto Framing

120° super large viewing angle ensures the shooting coverage of the full room. The built-in face detection algorithm for ideal auto-framing by adjusting the size of the picture according to the number of participants.

Upgraded Sound Quality

- 6 Array Mics / 7W Speaker

Audio Processing supports AEC, AGC and ANS technology as well as 6 meters voice pick-up range. Enhancing the audio experience to a greater level.

Low Noise and High SNR

CMOS effectively ensure high SNR of camera video. Advanced 2D/3D noise reduction technology is also used to further reduce the noise, while ensuring image sharpness even in low illumination.
