Flexible Compatibility

No matter what laptop you're using, IQShare Button is compatible with all mainstream operating systems including Windows, MacOS, and ChromeOS.

Windows

MacOS

ChromeOS

Guest-Friendly Sharing

For guests who don't have access to the company network, they can still present or share wirelessly with their laptops in your office through IQShare Button. Network connectivity is not a must for temporary users.
Secure & Stable Transmission

By adopting the Advanced Encryption Standard (AES) of security and long-lasting stability of screen sharing, it prevents data leakage during the ideas sharing and empowers you a secure and smooth presentation without being disrupted.
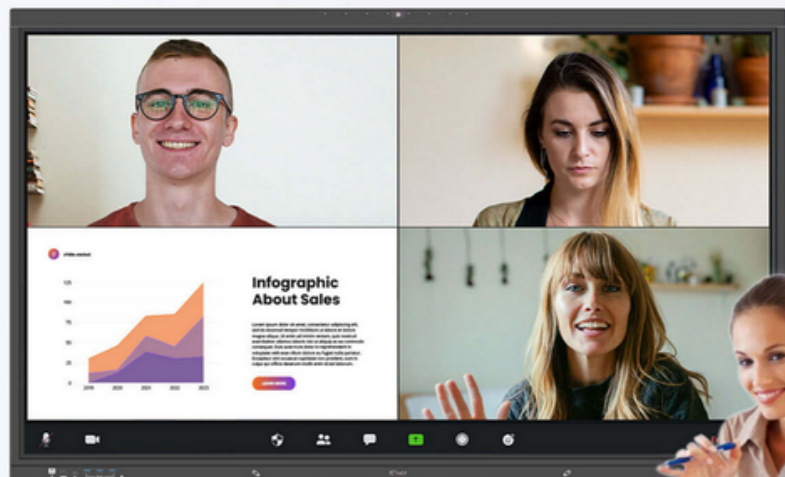

One Click to Share Wirelessly
Cable-free | Two-way touch control

One click and share the screen content of your laptop instantly, IQShare Button with wireless presentation system frees you from cables and adapters. It supports touch control from both your personal screen and IQTouch, which brings the greatest convenience to the presenters.
Bring Your Own Meeting*

Allow you wirelessly share you personal screen, access camera and microphone of the office IQTouch display, and start the video conference using your preferred UC platform (Microsoft Teams, Zoom, Webex).

Multiple Content Sharing

Share any files you want. Select the sharing mode as the entire screen or preferred content to ensure privacy. Audio, video, photos or documents can be presented to enrich your classroom or meeting interaction.

Multiple Ideas Presenting

Multiple Click-to Share buttons can be connected and up to 4 personal screens can be shared, presenting various ideas by split screens simultaneously and stimulate brainstorming on one centered display.

Easy Pairing

Pairing the IQShare Button with IQTouch display by one click as well. No driver is required. Everytime when you want to share your laptop screen, simply plug the button into the laptop, press and present.
