FreeHoist

A wireless electric hoist that could double efficiency

■ Functional advantage

- **Battery powered, long - lasting battery**
168 hours of ultra - long standby time
500 - 1000 cycles of use, long service life.
- **Three - terminal control, no controller required**
controlled via mobile phones, tablets, and computers
precise synchronization of 100 units, lifting error less than 1 cm.
- **Dual - frequency communication, stable signal**
2.4G strong penetration

Wireless hoist will give you more free time

Product Specifications

FreeHoist ∞

Model	: FH wireless hoist	Up-Down limit switch	: Top / Bottom electronic limit switch
Appearance material quality	: Durable aviation aluminum alloy	Control type	: Wireless Remote Control. : (APP remote control)
Diemensions (L x W x H)	: 510 x 140 x 257 mm.	Wireless spectrum	: 2.4 GHz. (Standard Configuration) : Max Distance 100 m.
Hoist's designed	: Hook type	Battery capacity	: 5000 mAh (power battery)
S.W.L. Capacity	: 1000 kg.	Battery specifications	: 36 V. / 180 Wh.
Chain reeving	: 1/1 Fall	Standby time	: 168 Hours.
Chain size	: 7 x 20 mm.	Charging duration	: 140 min.
Lifting height	: 20 m. (Option : increase up to 40 m.)	Power charger	: 1000 w.
Lifting speed	: 0 ~ 3.5 m./min. (VFD)	Motor protection	: IP65 Insulation, Class F 155°C, : Humidity 5 - 85%
Hoist's brake type	: DC. magnetic disc brake, Asbestos free	Ambient temperatures	: -10°C up to +40°C : At an altitude less than 1000 m.
Hoist's brake option	: Single disc brake or Dual disc brakes	Net weight	: 29 kg.
Ultimate breaking force	: 7200 kg.
