Semi-auto flaps folding carton sealer

GPC-50D

GURKI[®]
PACK THE WORLD!

Product description

Semi-auto flaps folding carton sealer GPC-50D automatically attaches the tape to the top and bottom, no need for manual work. It uses adhesive tape to seal the carton, not only the sealing effect is beautiful, and the sealing is firm. The use of the automatic packaging line will better reflect the value of this machine. This type of sealing machine is widely used in food, medicine, beverage, tobacco, daily chemical, automotive, cable, electronics and other industries at home and abroad.

Specifications

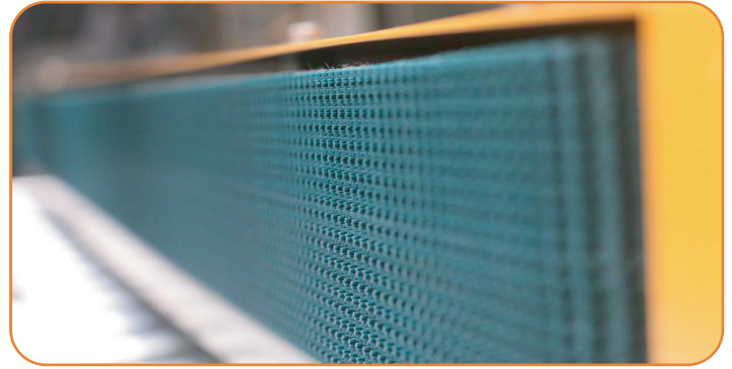

MODEL	GPC-50D
Conveyor speed	20m/min
Max. Packing size	L600×W500×H500mm
Min. Packing size	L200×W150×H150mm
Power supply	110V, 220-240V, 50/60Hz, 1Phase
Power	400W
Adhesive tape width	48mm, 60mm, 75mm
Machine dimension	L1770×W850×H1520mm
Machine weight	250kg

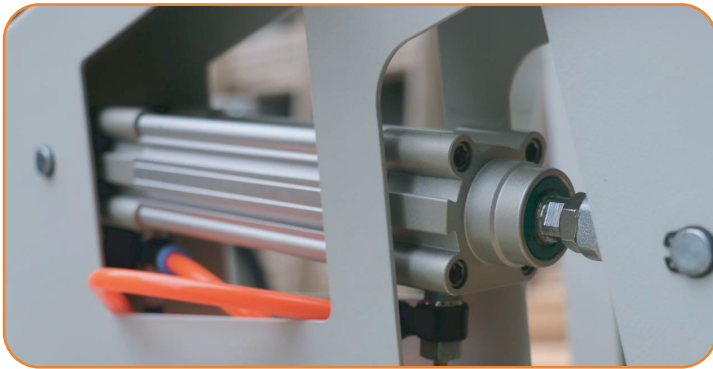

Pressure measuring wheel

- The function of the pressure measuring wheel is to stabilize the carton centering sealing.

Belt driven

- stable and fast

Taiwan AIRTAC cylinder

- Adopting Taiwan Yadeke cylinder control movement, can avoid the waste of adhesive paper, more precise cutting position, saving adhesive paper resources, high cost-effective.

Travel switch

- The travel switch can sense the carton and automatically fold the front cover of the carton.

Product advantages

I Durable parts

use imported parts and electrical components.

I Easy adjustment

manually adjust the width and height of the machine according to the carton specifications.

I Fast sealing

automatically fold the top cover of the carton, automatically attach the tape up and down, economical, smooth and fast.

I Safety protection

Install blade guards to avoid accidental punctures during operation.

I Applicability

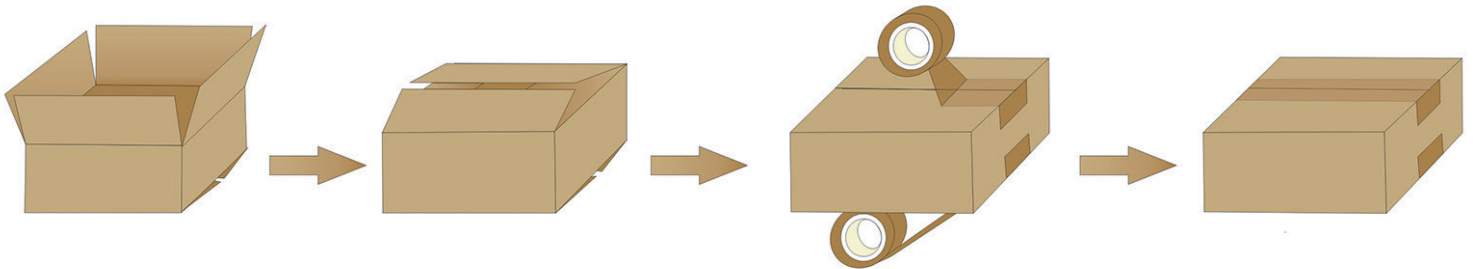

The automatic sealing machine can be used in a single machine or in conjunction with an automated packaging line.

Application industry

The Carton sealer GPC-50D is widely used in the mass production of batch production, packaging, color boxes, greeting cards, photo albums, photo frames, medicine, electronics, daily chemicals, cosmetics, auto parts, hardware, food and so on.
