

COMPANY PROFILE

www.mplustech.co.th

M-Plus Tech Provides Quality and most flexible solution of conveyors and other imported products which can be customized for every industry.

M-plus tech was founded in 2005 as an importer and distributor of products which serve a wide variety of industries.

Our products include conveyors and components, motors, auto-lubricants, bottle drying machines, metal detector machines, checkweigher machines, barcode printers, labelling machines, packaging machines. Our company offers the highest quality products from various partners together with advice from our experienced and specialist team in order to increase productivities, reduce wastes and increase overall profits, and the most important is to maximize our customers satisfaction.

With our experience in searching for the best products and our team who have known each industry well, our company has gained trust and satisfaction from various customers around the country. As a result, we have expanded services throughout Thailand with a total of 5 branches including Chiang Mai, Saraburi, Khonkaen, Rayong, Hat Yai and our headquarter which is located in Samutprakarn.

We will continue to develop our knowledge of products, our staffs and our services to serve our customers the best in every way.

INTERNATIONAL BV

IDECON

Colamark

Regina Conveyor displays a vanguard and complete high-quality product portfolio for bottling, packaging, glass, food and can manufacturing applications

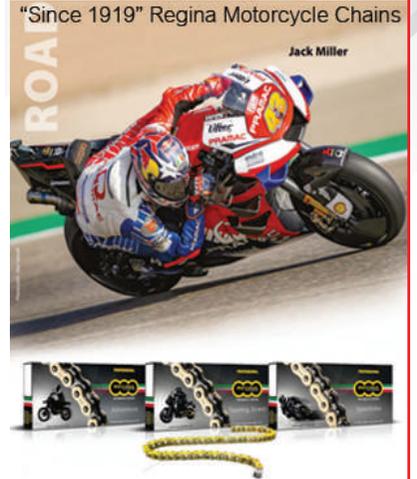

- Stainless steel and plastic chains
- Plastic modular belts
- Gripper chains
- Machined and molded sprockets
- Magnetic, TAB and Bevel curves
- Lubricated and standard wear strips
- Return rollers, side guides and components

INDUSTRIAL

- Enduro series maintenance free chains
- Thermoforming sticker chains
- Film gripper chains
- Chains for the chocolate industry
- Hybrid series maintenance free chains

Tecom s.r.l. has a 30 years experience in the development and production of conveyor components

For more than 50 years, perma has stood for innovative and creative lubrication solutions

SPARE PARTS FOR THE FILLING & PACKAGING INDUSTRIES

MOTIVE - POWER TRANSMISSIONS

- Motors
- Inverters
- Gearboxes

Engineering Plastics and Machined Parts

Advantages

- Excellent wear and abrasion resistance
- Very low coefficient of friction
- Self-lubrication
- No moisture absorption

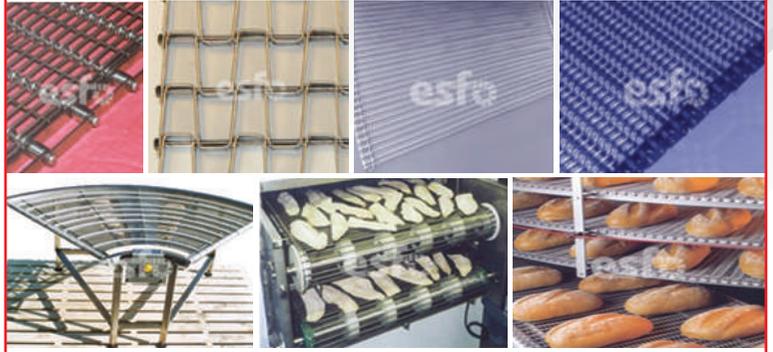

SCANBELT
...keeping industry moving...

ScanBelt is one of the world's leading manufacturers of modular plastic conveyor belts

esfo

For 30 years, Esfo Metalbelts has been a 100% Dutch company. All development and production takes place at Esfo itself. This is unique in the world of metal conveyor belts.

mafdel

Mafdel: Manufacturer of thermoweldable belts and conveyor belts for 40 years
Mafdel: products can be used for many applications

Rodon
INTERNATIONAL BV

Rodon International is your one stop shop for poultry processing

ceia

CEIA is an industrial Company focused on the design and manufacturing of Electromagnetic Inspection Systems and Induction Heating Systems

IDECON

Idecon is specialized in-line systems for quality control by combining checkweighers

ACI AIR CONTROL INDUSTRIES
shaping air movement since 1949

Industrial Fan and Blower Air Knife Systems are blower-driven solutions that increase production efficiencies and save significant running costs

One-stop services

Good Products and Good Services Mplustech provides its customers with a high degree of specialization by providing targeted consultancy and training activities on request

Printing

Printing

Applicator Labeling in real time label products in motion on a conveyor

Enabled for standalone printing this 4-inch next-generation model

High speed, high resolution full color on-demand ink-jet label printer

“ LED 5 color label printer ”

Labeling

Colamark is a leading solution provider specialized in labeling, card fabrication/process equipment and Ink Jet system integration. We commit to providing reliable and creative solution, Used in pharmaceutical, health-care food & beverage and smart card industries

Inkjet Printer

• The Future of Coding and Marking!
Marking Things Simple

hx Nitro Industrial Inkjet Printer

Manufactured at a facility in Canada with Standard ISO9001, ISO12458 and AS9100.

- WiFi Connectivity**
- Economy Mode Option** (reduces ink consumption to 50%)
- Printer Health Check** (provides warning to avoid downtime)
- Field Upgrade** (enables new functionalities uploaded to your printer remotely)
- Low Cost of Ownership** (CI is undoubtedly more expensive than the Nitro printer)
- No Sharing of Controller** (Operative printer and badge message using any smart device promotes social distancing in workplace)
- Almost Maintenance-Free Printer** (designed for field engineer to visit, simple maintenance can be done through by operators to maintain the best print quality)
- Neat & Clean Operation** (Avoid messy ink drips in the production line)
- Small Footprint** (The printer is industrial and fits One fifth the size of the smallest CI)

Packing

We are experts in high efficiency, intelligent packing machines suitable for your productions
