Features and Benefits

Your day made EASY

Choosing the right tooling can be complicated and time-consuming. Built on simplicity, we have engineered a new tool that makes every machine operator's life EASY.

Unwilling to sacrifice performance or applications, Kennametal introduces Beyond™ Evolution™.

Beyond™ Evolution™ is the new single-side grooving and cut-off tool that also performs multi-directional turning.

Productivity made EASY

Active Coolant Control

If your coolant delivery is typical to the market, you may be applying more heat to the cutting edge than you think. This reduces tool life and increases cycle time.

With Beyond™ Evolution™, you won't have to change your existing equipment. Whether you are using a high-pressure or low-pressure coolant supply, Beyond™ Evolution™, featuring Active Coolant Control, delivers more tool life and higher Metal Removal Rates (MRR).

Fan Effect

Directs coolant across the top of the insert precisely to the cutting zone underneath the chip and controls temperature.

Chipbreaking Effect

Improve chip control in all grooving, cut-off, and multi-directional turning applications.

DISTRIBUTED BY:

* For more details please refer next page

OFFER VALID UNTIL: March 31st, 2021

For more details, please refer to our Kennametal Master Catalog 2018 (Turning Tools Vol.1)
