The Perfect Fusion of a Solid Carbide and an Indexable Drill

The new modular drill KenTIP FS covers more applications and provides better performance than any other modular system, delivering substantial cost savings and process simplifications on your shop floor.

4 geometries, 3 high-performance grades, 3 different shank styles.

This modular drilling system covers a 6–26mm diameter range.

Up to 12 x D drilling depths.

Applicable in steel, stainless steel, and cast iron.

* Only regular standard bodies apply

* KenTIP FS inserts stocked standards from catalogue

* Returns not permitted on promotional transactions.

OFFER VALID UNTIL : March 31st, 2021

Features and Benefits

- Taper interface uniquely designed for highest rigidity clamping.
- Retention lock prevents insert pullout.
- Large bearing surface positioned for transmission of highest torsional loads without pocket deformation.
- Large face contact surface.
