

ESG Road map to 2030

BST Group

English Version 2: 2024

15-Jul-24

About the ESG Roadmap

The ESG roadmap is organized according to BST Group Sustainable Development (ESG) Policy, which fall under the three ESG areas: Environment, Social, and Governance as following.

Environment (E)

1. Aim for “Carbon Neutrality” within 2050 by 30% reduction of greenhouse gas emissions of Scope 1 and 2 within 2030 in comparison with 2019.
2. Reduce energy consumption by 20% within 2030 in comparison with 2019
3. Reduce water withdrawal by 25% within 2030 in comparison with 2019.
4. Continue the zero hazardous and non-hazardous waste to landfill and increase waste utilization by 100% by 2030.
5. Strengthen VOCs emission control to better than standard.
6. Reduce and control environmental impact with zero pollution incident impact to communities and nearby plants.

Social (S)

1. Intend to have no injury and occupational disease of employees and business partners from any work-related incident.
2. Respect human right of every individual, ensure equitable treatment to all without discrimination and intention for no labor and human right violations at all the time.
3. Conduct product risk assessment throughout its lifecycle and provision of 100% communication on the latest Safety Health and Environment information of all products within 2025 to ensure no incident from adverse impact on health and safety for employee, business counterpart customers and concern stakeholders and reduce the impact on the environment.
4. Promote and encourage all suppliers and business partners to comply with the company's sustainable development which consists of environmental, social, and governance practices.
5. Engage the management and employees at all levels in participating in CSR activities by 100% to develop community enterprises to be strong in order to have better quality of life and sustainable income for the community and having community satisfaction level more than 92%.

Governance (G)

1. Conduct the business in accordance with “BST Group - Code of Conduct” by communication and training all employees with 100% pass the Ethic test in order to understand the code of conduct and implement it properly to ensure no unethical incident and no corruption and fraud incident.
2. Conduct the business legally including complying with related regulatory and requirements including information security with no violation incident of related legal and regulatory.

To support the linkage of key sustainable issues as an important part of business operation to cover and support the changes continuously, as well as integrate into the company's business strategy, therefore, the Sustainable Development committee and the Steering Committees for ESG has established.

All department managers will join in a steering committee member that they are involved to support and cause the driving to be fully consistent and harmonious. The steering committees have a meeting at least once a month to follow up on Key Performance Indicators (KPIs) and action plans

In addition to the ESG policy announcement, we have started to apply the ESG Index as a sustainability indicator in all employees' levels and all functions to ensure that the guidelines in ESG policy are implemented effectively. Based on the ESG Index score we get, we will improve it in various areas in the next coming year.

Environment Road map to 2030

Key Sustainable Issues

- Greenhouse Gases and Climate Change
- Energy
- Water Withdrawal
- Emission and Local Pollution
- Materials, Chemicals and Waste
- Circular Economy

Environment Roadmap to 2030

Key Issues	Strategy	Target 2023-2029	Target 2030	SDGs Goal
<ul style="list-style-type: none"> Greenhouse Gases and Climate Change 	<ul style="list-style-type: none"> GHG Roadmap (see next page) Process & energy efficiency improvement Renewable energy project Carbon Footprint thru supply chain Follow the environmental standards ISO 14001 	<ul style="list-style-type: none"> % Reduction of greenhouse gas emissions of Scope 1 and 2 in comparison with 2019 from 3% and increasing every year 	<ul style="list-style-type: none"> 30% Reduction of greenhouse gas emissions of Scope 1 and 2 in comparison with 2019 	GOAL 13: Climate Action GOAL 07: Affordable and Clean Energy
<ul style="list-style-type: none"> Energy and Water Withdrawal 	<ul style="list-style-type: none"> Process & energy efficiency improvement Renewable energy project Follow the environmental standards ISO 14001 	<ul style="list-style-type: none"> % Reduction of energy consumption in comparison with 2019 from 6% and increasing every year % Reduction of water withdrawal consumption in comparison with 2019 from 21.5 % and increasing every year 	<ul style="list-style-type: none"> 20% Reduction of energy consumption in comparison with 2019 25% Reduction of water withdrawal consumption in comparison with 2019 	GOAL 9: Industry Innovation and Infrastructure GOAL 12: Responsible Consumption and Production
<ul style="list-style-type: none"> Materials, Chemicals and Waste 	<ul style="list-style-type: none"> Seek waste management method that can be utilized for all waste items. Gather companies that handle waste by utilizing waste in other methods Follow the environmental standards ISO 14001 	<ul style="list-style-type: none"> Each year: Zero waste to landfill 	<ul style="list-style-type: none"> Zero waste to landfill 	GOAL 12: Responsible Consumption and Production
<ul style="list-style-type: none"> Emission and Local Pollution 	<ul style="list-style-type: none"> Apply the best available technology to reduce VOCs problems Comply with the code of practice for plant maintenance Follow the environmental standards ISO 14001 	<ul style="list-style-type: none"> Each year: 100% VOCs Fugitive concentration (as methane) better than std. 40% all equipment Each year: Zero Environmental Complaint 	<ul style="list-style-type: none"> 100% VOCs Fugitive concentration (as methane) better than std. 40% all equipment Zero Environmental Complaint 	GOAL 9: Industry Innovation and Infrastructure GOAL 12: Responsible Consumption and Production
<ul style="list-style-type: none"> Circular Economy 	<ul style="list-style-type: none"> Follow the ISCC Plus for recycling of resources or bio-based materials which will result in reduction of waste generation 	<ul style="list-style-type: none"> Each year: ISCC Plus Certification on recycling of resources or bio-based materials 	<ul style="list-style-type: none"> ISCC Plus Certification on recycling of resources or bio-based materials 	GOAL 12: Responsible Consumption and Production

The incident in company target are count at Level 2 or higher means

- incident resulting an injury or illness which requires medical treatment or resulting in death, disability,
- incident by leaks of flammable chemicals or gases above the Material Release Threshold Quantities (TQ) or leaks of non-hazardous materials (except air, nitrogen, water, steam, condensate) that more than 5,000 kg or a fire or explosion in the company area and resulted in entering the emergency control plan level 2 (according to the crisis management plan).
- A written complaint from a neighboring plant or receiving verbal /written complaints from government agencies or communities environmental (smell, smoke) or noise from abnormal events of chemical or energy leaks (by verification)
- incident of unethical/fraud related to compliance with the company's code of conduct or fraud and corruption that has a damage value of 100,000 baht or more, or has received the attention of the local media, community, and social media, has spread related news on social media for 1-2 days or more, or risk to the image and reputation of the company
- incident of related legal including authority to act and all regulations issued by the company that has a damage value of 100,000 baht or more, or has received the attention of the local media, community, and social media, has spread related news on social media for 1-2 days or more, or risk to the image and reputation of the company

Aiming to create a green supply chain

Reduce GHG within the organization

and support environmentally, socially, and economically responsible business partners, suppliers, and other business counterparts

Suppliers

Transporters

Customers

GHG ROADMAP

- Reduce carbon leakage
- Process & energy efficiency improvement
- Renewable Energy
- Carbon Capture and Storage
- Reforestation
- Offset Carbon Credit

Social Road map to 2030

Key Sustainable Issues

- Safety Culture
- Health and Safety
- Labor and Human Right
- Human Capital
- Customer engagement
- Sustainable Procurement
- Corporate Social Responsibility (CSR)

Social Responsible Roadmap to 2030

Key Issues	Strategy	Target 2023-2029	Target 2030	SDGs Goal
• Health and Safety	<ul style="list-style-type: none"> Follow Safety Culture Transformation (see next page) Follow the Process Safety Management (PSM) Follow Occupational health and safety standards ISO 45001 Customers and concern stakeholders Health and safety for by Implement product life cycle risk assessment during 2023-2025 	<ul style="list-style-type: none"> Each year: Zero injury frequency rate (IFR) Each year: Zero factory incident frequency rate (FIR) Each year: Zero injury severity rate (ISR) Each year: 100% Stakeholders' communication on the latest SHE information of all products 	<ul style="list-style-type: none"> Safety Culture Interdependent stage Zero injury frequency rate (IFR) Zero factory incident frequency rate (FIR) Zero injury severity rate (ISR) 100% Stakeholders' communication on the latest SHE information of all products 	GOAL 03: Good Health and Well-being
• Labor and Human Right	<ul style="list-style-type: none"> Follow TLS 8000 (Mor Raw Tor) Promote labor human right companywide Engage with customer audit on ESG 	<ul style="list-style-type: none"> Each year: TLS 8000 Listed Company Each year: Zero labor and human right violations at all time Each year: all employees with 100% pass the Ethic test 	<ul style="list-style-type: none"> TLS 8000 Listed Company Zero labor and human right violations at all time All employees with 100% pass the Ethic test 	GOAL 10: Reduced Inequality
• Human Capital	<ul style="list-style-type: none"> Talent attraction and retention, alignment between employee competencies and company needs 	<ul style="list-style-type: none"> Each year: % Employee engagement better than average industrial 	<ul style="list-style-type: none"> Each year: % Employee engagement better than average industrial 	GOAL 08: Decent Work and Economic Growth
• Customer engagement	<ul style="list-style-type: none"> Engage with customer based on recognized ESG standards 	<ul style="list-style-type: none"> External Rating for top 15 in EcoVadis rating 	<ul style="list-style-type: none"> External Rating for top 10 in EcoVadis rating 	All SDGs
• Sustainable Procurement	<ul style="list-style-type: none"> Implement supplier ESG risk analysis and supplier ESG assessment Implement the green procurement 	<ul style="list-style-type: none"> Each year: 100% of AVL supplier signed the supplier code of conduct Each year: Evaluate suppliers' on ESG risks, covering 100% of the procurement value and reviewing evaluation Govern suppliers with high ESG impacts (High Potential ESG Suppliers) to be at an acceptable level by completing 100% audits by 2024 on ward 	<ul style="list-style-type: none"> 100% of AVL supplier signed the supplier code of conduct Evaluate suppliers' on ESG risks, covering 100% of the procurement value and reviewing evaluation results Govern suppliers with high ESG impacts (High Potential ESG Suppliers) to be at an acceptable level by completing 100% 	All SDGs
• Corporate Social Responsibility (CSR)	<ul style="list-style-type: none"> Engage with all communities and NGO Maintain the management and all employees participating in CSR activities Support and develop community enterprises 	<ul style="list-style-type: none"> Each year: Employees at all levels in participating in CSR activities by 100% Community satisfaction more than 85% in 2024 and increasing every year 	<ul style="list-style-type: none"> Each year: Employees at all levels in participating in CSR activities by 100% Community satisfaction more than 92%. 	GOAL 03: Good Health and Well-being
