INTERACTIVE MULTIMEDIA DISPLAY

■ Whiteboard Application Build In

Easily using your finger tip turn VERTEX Interactive Multi Display into an interactive whiteboard. The Wpanel app is already build in for this purpose. Therefore, there is no need for any external device anymore.

■ Simultaneous Writing -10-Points Multi Touch

Recognizing up to 10 points touch, the VERTEX Interactive Multi Display allow more than two people write on the screen on the same time using their fingertip or provided pen. With multi-touch technology, your presentation or discussion become a productive and creative ideas exchange platforms. Participants can share and interact in their meetings, brainstorming sessions, classroom interaction, and more.

■ Android OS

Easy to access other applications or download your file for meeting. In some case, live data require during presentation or teaching. Android OS provide basic Browser, Email, calendar and even plug and play video-audio file to enhance your meeting or teaching.

■ Touch-Operated On-Screen Display

With the On-Screen Display (OSD) menu accessible by touch. This feature allow you easily switch input sources, change volume level, brightness and other control functions using your finger tip.

■ Plug and Touch - Compatible to Windows / Linux / Chrome

Turn your notebook into the interactive big screen touch panel by connect VGA signal and USB port from your notebook to VERTEX Interactive Multimedia Display, it's just simple and easy. The Touch port is compatible to major operating system from Windows to Linux and Chrome.

■ Easy to Connect with Front Input Ports

Input terminals located in front of the monitor for easy access. It include every nescessary ports for multimedia form HDMI, RGB, Audio, Touch USB, media USB and also OPS USB.

■ Minimize Glare and Fingerprints

Protecting the screen is an Anti-Glare film which use for reduce glare reflections and also minimize fingerprint on the glass. Anti-Glare technology will produce a more legible text and clearer image display.

Without anti-glare film

With anti-glare film

■ Standard OPS slot

Although this machine is already built in high performance OPS, any OPS with standard industrial slot can be easily plug and play on this machine.

■ Build in OPS

VERTEX Interactive Multimedia Display is already built in a high performance OPS. The INTEL CPU is one of our main power and other components using notebook grade in order to maintain high efficiency power during the movement.

■ Front-Mounted Speakers

Two high grade speakers (15W + 15W) are installed low on the front of the screen to deliver clearer sound.

■ Touch Span

VERTEX Interactive Multimedia Display support simultaneous dual touch screens operation. Users can expand their presentation screen to two screen while both screen still perform touch function.

■ User Friendly Design Hot Key

Essential functions are design as hot keys for easy to use. Therefore meeting or teaching would be more efficiency.

■ Pharipral Connectivity

VERTEX Interactive Multimedia Display work on Windows 10 technology which be able to connect to all computer pharipral such as Printer, Scanner, MFP, Camera or Network Storage via wire or wireless technology.

■ Wireless Presentation with Google Cast Technology.

With Google Cast Technology be able to turn VERTEX Interactive Multimedia Display into wireless video steaming or presentation receiver for your Smart phone or Notebook. It is an idea of sharing digital contents which stored in your iOS, Android or Windows to the screen. (Google Cast Dongle is optional.)
