FOUR STEPS TO THE RIGHT SPECO™ GRINDER PLATE

1. Determine the plate size of your grinder.

Measure the diameter of the grinder plate and match it up to the corresponding plate size below:

DIAMETER	2-3/4"	3-1/4"	3-15/16"	5-1/8"	6"	8-5/8"
PLATE SIZE	#12	#22	#32	#52	#56	#66

2. Identify grinder plate mounting style.

Look at your grinder plate and match up the face shape to one of the styles listed below:

Universal Style
(Works for Cleveland Style also.)

Cleveland Style

Toledo Style

Enterprise Style

3. Determine hole size.

The hole sizes we are referring to are the holes that are cut into the top side of the grinder plate. Choose from the following sizes:

HOLE SIZE	1/8"	3/16"	1/4"	3/8"	1/2"	3/4"	1"
-----------	------	-------	------	------	------	------	----

4. Hub or hubless plate?

Plates with a center hub are stronger and easier to remove from grinder. Hubless plates are reversible for extended wear.

Call 800-456-5624 For Pricing and To Order.

Bone Collector System

Solid hub bone collector plates in the following sizes:

- Hole sizes: 3/32 inch, 1/8 inch, 5/32 inch and 3/16 inch.
- Grinder sizes: 52, 56, 66 or 11.
- Plate diameters: 5-1/8 inch, 6 inch, 8-5/8 inch and 11 inch.

NOTE: When ordering please specify the following: machine make and model, plate hole and size and plate mounting style.

1. Special design and construction permits a unique gullet tooth that removes waste and dust during cutting.
2. Enables the following tooth to cut uninterrupted and to ultimate capacity.
3. Steel composition offers wear resistance properties not available in competitive blades providing a longer life.

EdgeMaster™ Munkfors Premium Quality Bandsaw Blades

Quality:

- Committed personnel with long experience in inspecting and evaluating blade design, materials, construction and function.
- Only the best strip steel – meets or exceeds requirements for high strength, exceptional flatness and straightness, excellent weldability and tight tolerance levels.
- Stringent standards of production and quality control guided by ISO 14001. MUNKFORS leads the development of bandsaw blades in the meat, poultry and fish processing industries.
- Unique manufacturing technology guarantees blades of the highest quality and longevity of performance.
- Quality EDGEMASTER™ MUNKFORS blades enable our customers to improve productivity and sharpen their competitive edge.
- Small part for big value – Bandsaw blades account for a small part of production costs, but are critical in maximizing the operating performance and product yield.
- Blades exceed standard running time — maximizing profit.
- Identical ultra-sharp teeth of uniform geometry.
- Allows use of harder steel than in conventional manufacturing methods, which increase blade reliability and stability.

Advantages:

- Swedish steel. • Longer blade lifetime. • Sharper blades.
- Less waste. • Cleaner cutting. • Minimum downtime.

All blades are individually wrapped and coiled.
