WHY CALL FOR PRICING?

At the time of this printing, supply chain sourcing on certain items was dynamic due to a COVID-19 outbreak – with product availability and costs fluctuating from week to week. Because of this, you will see certain products displayed without a price in this Buyers Guide and instead are listed as *Call for Pricing*. On such items, please call our Customer Service team at 800-456-5624 or visit our website at www.bunzlpd.com where pricing is always up-to-date. ■

Cuts Conventional Freezing Time IN HALF!

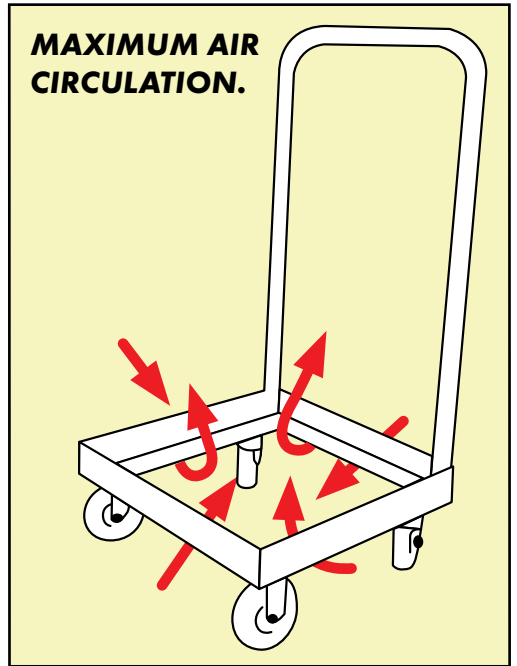

ChillTote™ Trays

- ChillTotes™ fit four-up on standard 42-inch x 48-inch pallets.
- Light-weight freezer proof, stackable/nestable and easy to clean.
- Flow-thru basket design allows maximum air circulation for faster, more efficient freezing.
- Heavy ribs on bottoms of trays prevent the contents of upper and lower trays from freezing together.
- Injection molded from high-density polyethylene to withstand constant freezer temperatures without cracking or warping.
- Capacity: 1.4 cubic feet, 50 pounds.

Two 3/8 inch zinc-plated steel wire bails swing down to allow nesting and swing up for stacking.

NOTE: Maximize your freezer space and eliminate basket shelving by using ChillTote™ aluminum transport dollies. SEE BELOW.

FOR FOOD SLICER AND GRINDERS

Retractable Shelf, Side Load Cart

Locking casters keep the cart completely still when needed.

- Retractable shelf can hold 18-inch x 26-inch or 9-inch x 26-inch platters or pans.
- Top has built-in I-beam down the center constructed of 1-1/2-inch square wall tubing for extra support.
- Holds up to 6 platters (sold separately).
- Base is constructed of 1-1/2 square x 0.07-inch wall tubing. Top framework is constructed of 1-1/2 square x 0.07-inch wall tubing. Angle runners are constructed out of 1-1/4-inch x 1-5/8-inch x 0.1-inch angle.
 - The top and retractable shelf are constructed of 16-gauge stainless steel.
 - Shipping weight: 58 pounds.

Easy glide angle runners make sliding platters in and out an easy task.

Casters have total locking capabilities, making this unit completely rigid and non-moving when needed.

NOTE: Platters and food slicer sold separately.

Includes four, 5-inch platform-type, total-locking, swivel casters with sealed bearings.

ProSave™ Ingredient System

Increase productivity, improve food safety and decrease supply costs.

- Scoop hook allows the scoop to be stored inside the bin and out of the product for quick access to each ingredient.
- By holding the scoop handle and securing it to the hook, hands do not touch the ingredients and the risk of cross-contamination is decreased.
- Integrated sliding lid for one handed access.
- See-thru lid slides along easy-glide track, to open.
- Assists in complying with FDA Food Code 30304.12.
- First in, first out (FIFO) fill compartment.

Scoop included and is easily stored inside.
10-gallon lid includes 2-cup scoop.
20-gallon lid includes 3-cup scoop.
32-gallon lid includes 4-cup scoop.

Rotating clear lid fits on 10-, 20-, or 32-gallon round containers (sold separately).

A
3-inch casters.

Scoop hook allows scoop to be easily accessible.

Scoop handle is held out of ingredient bin preventing cross-contamination.

Snap fit secures to base to make handling easier.

Heavy-Duty Platform Trucks

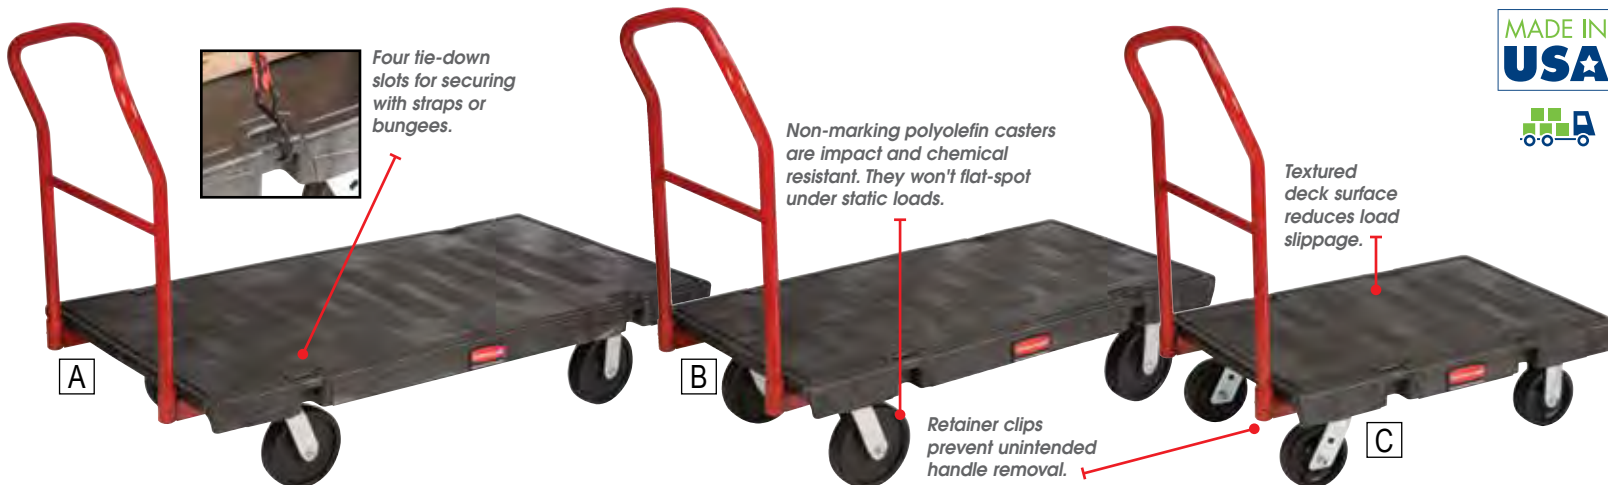

Ideal for moving large, heavy, oversized loads in a variety of environments.

- Exclusive, precision-engineered resin and metal composite structure provides maximum load support.
- Non-marking polyolefin casters are impact and chemical resistant and won't flat-spot under static loads.
- Powder-coated steel creates a hard finish that is tougher than conventional paint.
- Textured deck surface reduces load slippage. • Perimeter deck channel retains small items.
- Variable grip-height improves control and worker safety.
- Retainer clips prevent unintended handle removal.

Aluminum Hand Truck Pallet

Ideal for moving small cases and bags of product.

- Designed to reduce the unstacking of product — put the product on the pallet once and move it and leave it without having to unstack the product off the hand truck.
- For use with any hand truck with a nose plate length of 8 inches or longer.
- Heavy-duty aluminum wall tubing construction.
- Shipping Weight: 11 pounds.
- Capacity: 400 pounds.

NOTE: This pallet works with Bunzl hand trucks #0844 1002 and 7447 0349, sold separately. SHOWN ABOVE.

MACX™ Storage System

The durability and versatility of steel for the cost of plastic.

- Light-weight • Strong • Durable • Stackable

STORAGE BINS

10-high maximum stacking.

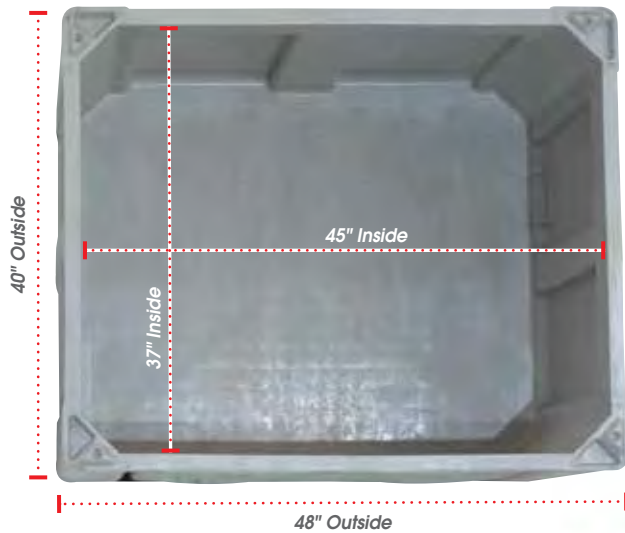

Standard MACX™ Bins

Light-weight, yet strong enough to hold 1,500 pounds of product.

- One-piece, injection molded construction.
- Made from high-density, food-grade structural plastic with a service life comparable to steel.
- Will not warp, dent, chip, splinter, rot or rust and are chemical and corrosion-resistant.
- Withstands temperatures from -32 °F to +165 °F.
- Completely sanitary: can be high-pressure washed and steam sterilized.
- Capacity: single bin, unstacked, static weight of 1,500 pounds.
- Drain and cap are available for liquid applications.
- Shipping weight: 89 pounds.
- Customizable: add casters, drain plugs, label holders, drop doors, attachable lids, custom colors and even emboss your company logo on the side. Call for more information.

MACX™ come standard with runners — easy for dumping or moving with a forklift.

Smooth interior can easily be high-pressure washed and sterilized. Meets USDA/HACCP standards for food handling.

Optional drain and cap kit.

NOTE: MACX™ fits your equipment:
 48 inch x 40 inch standard pallet footprint.
 25.4 cubic feet; 190 US gallons.

Collapsible KitBins

All the benefits of the standard MACX™ bin, but with greater space efficiency.

- Engineered from maintenance-free, high-impact resistant HDPE structural foam for the highest strength-to-weight ratio.
- Removable walls provide easy access for loading and unloading.
- Withstands temperatures from -40° F to 140° F. Resists UV degradation.
- Solid or vented wall options. Panels are interchangeable.
- Stackable up to 6 units high.
- Four-way forklift entry.
- External Dimensions: 40 inches L x 48 inches W x 28 inches H.
Internal Dimensions: 36 inches L x 4 inches W x 23 inches H.
Pallet Dimensions: 48 inches x 40 inches.
Side Panels: 48 inches x 28 inches and 40 inches x 28 inches.
- Capacity: maximum weight load 1,320 pounds.
- Volume: 163 gallons/20 cubic feet.
- Replacement sides available.
- Shipping weight: 84 pounds.

Four disassembled containers fit into one bin, saving up to 75% trailer or storage space.

Posts securely lock sides together for a sturdy container even during transport.

All walls can be completely detached from the pallet, providing easy access for loading and unloading.

ShuttleBin 330

Durable and fully-vented, this compact-folding bin is the single solution for retail transport, storage and display.

- Unique ten-point zipper latch system locks folding walls securely and ensures fast set-up and knock-down for increased productivity.
- Impact-grade plastic lasts longer, standing up to heavy day-to-day use.
- FDA-approved materials are certified safe for use with food products, eliminating many HACCP problems associated with wood bins.
- Splinter-resistant plastic delivers reduced maintenance costs, fewer injuries to workers and less damage to product and equipment.
- Hundreds of ventilation slots provide improved air flow and reduce heat absorption.
- Light-weight design (only 107 pounds with two drop-down doors) makes handling easy and reduces shipping costs.
- Nonporous surfaces won't absorb water or dehydrate your product like wood bins and they provide a constant tare weight throughout their use.
- Easy-to-sanitize, smooth surfaces keep cleaning costs to a minimum. A high-pressure wash removes most debris; a nonabrasive brush can dislodge any remaining items.
- External Dimensions: 40 inches L x 48 inches W x 33 inches H.
Internal Dimensions: 36-3/4 inches L x 44-3/4 inches W x 26-7/8 inches H.
- Load Capacity: 1,500 pounds.

Slipsheets

Designed to supplement wood pallets in transportation and warehouse applications — reduce unloading time by 50%!

- Choose from: laminated, patterned top surface (A) or dimpled top surface keeps load from sliding (B).
- High-density polyethylene slipsheets are resistant to moisture, chemicals, heat and cold.
- Bottom surface allows the sheet to slide more easily for enhanced handling.
- Maintains strength and integrity even when wet.
- Manufactured from recycled plastic.
- 100% recyclable.
- Color: black.

THE SECRET Behind the Strength

3-wire truss all-welded design makes it a dozen times stronger than a solid steel truss of the same weight.

EASY, NO-TOOLS ASSEMBLY!

- Just screw the post together then snap the sleeve onto the desired indexing groove and drop the shelf's collar over it.

- Posts are numbered for easy assembly.

- Shelves can be adjusted at 1 inch increments along the entire length of the post.

- Tie multiple units together with our "S" clips for increased rigidity and storage space.

- Combine different depth shelves to jog around wall protrusions, run-around corners, etc.

LEVELING IS A BREEZE!

- Level with just a twist of the wrist.

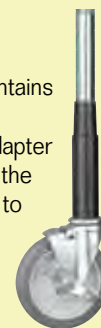

- Adjust loaded shelves with an open-end wrench.

- For mobility, replace the levelers with a caster kit.

- Leveling bolt: 3/8" x 16 tpi.

CASTER KIT

Move your shelving easily by replacing levelers with casters. Each caster kit contains four, 5-inch casters (2 with locks and 2 without locks) and four easy-to-install adapter sleeves that better reinforce the legs of the shelving structure and allow the casters to fit securely over them. These unique sleeves keep the legs from bending on loads totaling **up to 500 pounds**.

0844 3490	8"	2"	9-1/2"	850 lb.	92.95

Heavy-Duty Plate Style Casters

- Swivel Casters — Formed legs are continuously welded, 1/4-inch steel top plate is cold forged and heat treated to relieve stress and add strength.
- Main Load Bearing — Fully hardened ball bearings in a hardened raceway.
- Thrust Bearing — Large diameter hardened ball bearings roll freely in a hardened raceway.
- 1/2-inch axle diameter.
- 3/8-inch attached bolt.
- Lube Fittings — Provided for both swivel and wheel bearings (for rubber wheels only).
- King Pin coined and stress relieved - Holds raceways precisely in alignment.
- Finish - Corrosion-resistant zinc.

Mold-on Rubber Wheels

- Applications: warehouse environments where floor protection and noise reduction are required.
- Soft rubber tread rolls over floor joints and small obstructions quietly and smoothly.
- Composition: cushioned rubber tread permanently vulcanized to cast iron cores.
- Recommended for quiet movement with medium to heavy loads or where cushioning load is required.
- Temperature range: -30 °F to 160 °F. • Zerk fitting in hub.

ITEM NO.	WHEEL DIAMETER	TREAD WIDTH	HUB	AXLE DIAMETER	CAPACITY	F.O.B. FACTORY EACH

Reinforced Thermoplastic Wheels

- Applications: suitable for food processing environments.
- High-resistance to shock and impact loads.
- Resists caustics and chemicals.
- Composed of reinforced thermoplastic.
- Temperature range: -20 °F to 250 °F.
- Low rolling resistance. • Will not absorb water.

ITEM NO.	WHEEL DIAMETER	TREAD WIDTH	HUB	AXLE DIAMETER	CAPACITY	F.O.B. FACTORY EACH

* Included reducer makes axle diameter 1/2".

Polyurethane on Polyolefin Wheels

- Applications: alternative to polyurethane on steel or aluminum cores, yet offers the same long wearing tread characteristics.
- Well suited for wet environments with delrin bearings.
- Resists chemicals, caustics, acids and oils.
- Composed of polyurethane tread mechanically and chemically bonded to a polyolefin core.
- Quiet rolling yet good load capacity.
- Temperature range: -40 °F to 180 °F.
- Should not be used where possibility for shock or high-impact exists.

Polyurethane 6-Inch Wheels

Lasts 10 times longer than standard wheels.

- Non marking. • Quiet rolling with ball bearings.
- Temperature range -50 °F to 180 °F.
- Requires minimum maintenance when installed with stainless bushings and zerk axle.

Stainless V-Edge Dump Buggies

Smooth seams make it easy to wash.

- Choose from solid 1 inch rolled or flat bar rim welded v-edge.
- Heavy-Duty T-304 stainless steel construction with smooth seams.
- Standard stainless steel lifting lugs and closed-end drip guards meet USDA standards.
- Equipped with 2-inch x 6-inch white poly wheels, replaceable Delrin spanner bushings with greaseable zerk axles.
- Interior Dimensions:
400 pounds — 21 inches L x 24 inches W x 20 inches H.
600 pounds — 21 inches L x 24 inches W x 30 inches H.

Optional heavy-duty plastic lid.

600-pound buggy available with handle.

NOTE: Heavy-duty plastic lid sold separately. SEE BELOW.

Flat Bar welded rim.

Rolled and welded rim.

Reinforced bottom that cross-ties the four wheels together for added strength and durability.

V-Edge

Greaseable/replaceable zerk axle.

Replaceable wheels and bushings.

Full width stainless steel drip guard.

EZ-Way Knock-Down BuggyWash™

- Heavy-duty welded, stainless steel.
- Helps to reduce back strain and injury.
- Stainless steel construction won't rust.
- Use with lifting lugs up to 28-1/2 inches from the floor.
- Places the buggy at the optimal angle to wash and drain.

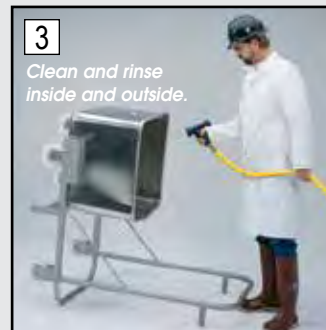

1

Place buggy in washer using lifting lugs.

2

Tilt washer and buggy back.

3

Clean and rinse inside and outside.

This stainless steel one-man buggy washer makes buggy washing as easy as 1 - 2 - 3!

Aluminum Knockdown Tables

- Knockdown aluminum tables will not rust.
- All tables have an I-under brace for additional support.
- Optional undershelf nests on the frame below the table for convenient storage.
- Optional overshelf allows you to place objects up and out of the way.

BUILD YOUR OWN ALUMINUM KNOCKDOWN TABLE

Choose from three sizes of either a poly or a stainless steel top, and then add your options.

1. Choose your TYPE of table:

- Aluminum Table with Stainless Steel Top.
- Aluminum Table with Stainless Steel Top and Backsplash.
- Aluminum Table with Poly Top.
- Aluminum Table with Poly Top and Backsplash.

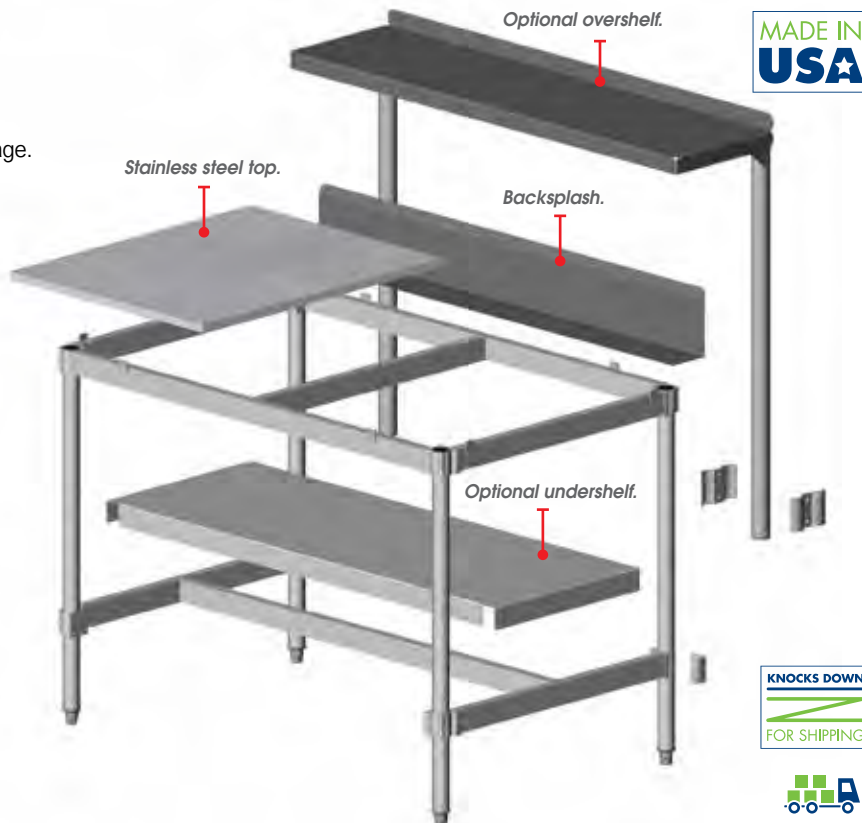

2. Choose the SIZE of table:

- 48 inches L x 30 inches D x 34 inches H.
- 72 inches L x 30 inches D x 34 inches H.
- 96 inches L x 30 inches D x 34 inches H.

3. Choose one or both OPTIONS:

- Stainless Steel Undershelf.
- Stainless Steel Overshelf.

NOW, look below at the ordering information box and determine which Product Numbers match the table you have built.

2990 3254	For 72" Tables	\$11.75

BUILD YOUR OWN STAINLESS STEEL WORK TABLE

1. Start with a "Rock Solid" stainless frame:

- Unique design yields a table which is remarkably rigid front-to-back and side-to-side, yet flexible along its length to twist to accommodate uneven floors. Even with a one inch block under one leg, all legs make solid contact with the floor and the table won't wobble or shake, (see inset). The key is the oversized, welded gussets. Legs are adjustable to level the table.
- Available in 72 or 96 inch lengths x 30 inches deep.

2. Choose from a split-poly or full stainless steel work top

- No tools needed to install either top. Stainless steel clips hold poly top in place. Or, remove the clips and install the full stainless top in minutes. To comply with USDA regulations, the poly top is only available as a two-piece unit.
- 96 inches L x 30 inches D x 34 inches H.

3. Customize to suit your specific needs:

- Stainless Steel Shelf Kit.
- Stainless Steel Backsplash.
- Caster Kit.

A. Lower Stainless Shelf Kits

Fully adjustable stainless steel shelf. Shelf removes easily from clips for washdown, no tools needed.

HOW TO CALCULATE REPLACEMENT CUTTING BOARDS

1. Measure length and width in inches.
2. Multiply length x width for total square inches.
3. Divide total square inches by 144.
4. Round calculation up to the nearest foot.
5. Take that number x price per square foot.

$L \times W = \text{Total Square Inches}$

Example:

1. Board desired is 13 inches W x 76 inches L.
2. 13 inches x 76 inches = 988 square feet.
3. 988 divided by 144 = 6.86
4. Round 6.86 up to nearest foot = 7
5. Take 7 x price of board per square foot = Total price

We recommend boards no larger than 18 inches W x 5 feet L, removable for cleaning by a single worker.

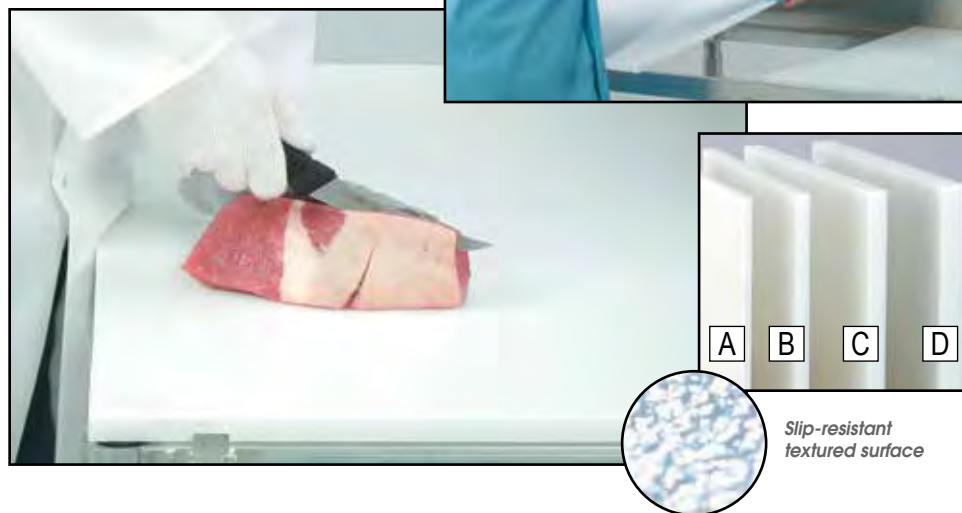

Sanatec® Poly Cutting Board Table Tops

An economical alternative to wood surfaces.

- Made of sanitary polyethylene with a reversible slip-resistant pebble finish that won't dull knives.
- Surface will not absorb odors – clean with soap and water.
- Select from four thicknesses, sold per square foot.

High-Heat Spatulas and Spoons

Dishwasher safe scrapers resist heat up to 500 °F/260 °C.

- Stain- and scratch-resistant design protects grill and cookware.
- Handle is always cool to the touch, even when used in the hottest of applications.
- Clean-Rest™ feature keeps blade off surface, reducing cross-contamination.

Molded-in hook allows for easy attachment to a pan.

Notched scraper blade cleanly scrapes sides of pans.

Choose from spoon or spatula heads.

StorPlus™ Polycarbonate Square Food Storage Container

- Clear polycarbonate containers showcases inside contents while providing exceptional durability. Can withstand temperatures from -40 °F to 212 °F.
- Economical white polyethylene containers withstand temperatures from -40 °F to 180 °F. • NSF Listed; dishwasher safe.

Lid color matches container's printed measurements.

Smooth interior finish makes cleanup easy.

Accurately printed measurements keep track of remaining contents.

Wide, build-in handles on all sizes provide a more secure grip and facilitate fast drying.

Stacking lugs save space by preventing jamming.

44-Gallon Drum with Venting Channels

Removing liners is now easier than ever!

- Innovative venting channels make lifting out liners up to 50% easier, improving productivity and reducing the risk of injury.
- Integrated cinches secure the liner, allowing for efficient knot free liner changes. Tested to 20,000 cycles.
- NSF 2 and 21 approved.

MADE IN USA

Optional self-draining lid.

Four liner cinches allow for efficient knot free liner changes.

Contoured base handles improve grip and ergonomics, reducing strain and improving efficiency when emptying containers

Four patent-pending venting channels dramatically reduce the force required to remove a full can liner.
