CLARITY™

VACUUM POUCHES

3 Mil Standard Vacuum Pouches

The FACTS behind our pouches:

- FDA approved for food contact.
- Contains NO BPA or melamine.
- Contains NO starches or animal by-products.
- Made from cast co-extruded film, more flexible and form fitting with an aggressive sealant.
- Easy to open when filling.
- Crystal clear with a glossy finish.

NOTE: These vacuum pouches are only for use in vacuum chamber machines.

Have you always wanted your product to have that CRYOVAC® case-ready look, but didn't need thousands of bags in one size?
CLARITY™ SHRINK BAG SMART PACKS

Now you can get the size you need, the quantity you want and SAVE MONEY!

- Boxes easily fit at your work station.
- Unique dispensing system reduces waste*

**NOW AVAILABLE:
 A 'SMART'
 SHRINK BAG
 SOLUTION**

Bunzl Processor Division —
 Your only Authorized Distributor
 of Genuine Cryovac® Shrink Bags.

Bunzl Processor Division is the Exclusive Distributor for the MultiVac P-Series Vacuum Chamber Machines.

With CLARITY™ Smart Packs, you can buy as few as 250 CRYOVAC® bags in several different sizes for less than a case of one size.

*Shrink bags larger than 12" wide or 24" long are not available in the dispenser box shown above, but are in a flat 250 count Smart Pack box.

Forming and Non-Forming Barrier Rollstock Films

More Robust

- Wider operating window handles a greater variety of forming depths over a broader temperature range making the film more forgiving and easier to use.
- Requires less heat and creates less demand on equipment.
- Premium 11-layer cast coextruded technology.

Better Machinability

- Film conforms easier to machine tooling.

Improved Clarity

- Up to 50% clearer. • Improves retail shelf appeal.

Seals through contaminants

- E-seal technology is the choice for value-added product applications such as marinated, pumped, brine, sauced and seasoned and cooked.

Greater Memory

- Improved shrink creates a tighter, better looking package.

Approved for heat treatments

- Cook-in applications up to 180 °F for six hours.
- Post-pasteurization conditions up to 212 °F for 30 minutes — Microwave re-heating up to three minutes on high power for previously cooked foods.

CLARITY™
FLEXIBLE PACKAGING

Black Non-Forming Rollstock

- High gloss.
- High barrier.
- High run speed.
- Stocked in common sizes.
- Highest opacity percentage UV light blocking in its class.
- High quality 11 layer cast film.
- Compatible for retail packaging of ground, bulk or linked sausage and steaks.

OUR ROLLSTOCK IS DESIGNED TO BE COMPATIBLE WITH MANY BRANDS OF MACHINES

* All films are manufactured for BUNZL Processor Division and are not made, licensed, sponsored or approved by the original equipment manufacturer. All products listed are replacement films only; they are not original equipment and BUNZL Processor Division is not affiliated with the manufacturers listed. All references to original manufacturer's equipment are for identification purposes only. All BUNZL films are manufactured to exacting specifications using the highest quality materials.

PRICES ARE SUBJECT TO CHANGE • MINIMUMS MAY APPLY • VISIT OUR WEBSITE FOR CURRENT PRICING.

Lidding

We offer top lidding films for thermoformed rigid trays and the form fill and seal process for modified atmosphere packaging (MAP). Our shrink lidding films are coextruded high barrier with superior antilog technologies and crystal clear transparency; perfect for tray sealing.

- Full range of barrier and non-barrier lidding films.
- Choose from lock, peelable and peel/reseal technology.
- Superior clarity.
- Enhanced anti-fog properties.
- Films available for sealing to all rigid substrates (PE, PP, PET, APET, RPET).
- Registered or random printing available.

**Call 800-456-5624
for more information.**

Vacuum Skin Packaging (VSP)

Use the right skin film to make your product stand out from competitors' products on the supermarket shelf.

- VSP can be used with semi-rigid films, pre-made trays and coated board stock.
- 10-K OTR and Barrier options available.
- Provides consumer appeal without compromising shelf life and packaging security.
- Vertical display ability allows for maximum product exposure while conserving space.

PRICES ARE SUBJECT TO CHANGE • MINIMUMS MAY APPLY • VISIT OUR WEBSITE FOR CURRENT PRICING.

Modified Atmosphere Bags

- 7 layer coextruded technology utilizing high performance resins to offer a wide range of possible barrier levels.
- Available in nylon, EVOH or PE options; clear and colored material.
- Proprietary sealant technology for better seals through contaminants.
- Compatible with all machines.

Cook Chill Bags

Features of Cook Chill Bags:

- **LONGER PRODUCT LIFE** — Oxygen and moisture barriers provide increased protection of flavors. The low rate of gas transmission safeguards volatile flavor components throughout distribution.
- **SUPERIOR DURABILITY** — Easily withstands the rigors of handling and distribution. Tears are extremely difficult to initiate or propagate. This toughness permits the filled bag to be tumbled inside the chiller without danger of rupture.
- **POSITIVE CLOSURE** — Bag is pre-clipped or sealed on one end. After filling, the open end is then closed with a clip or heat sealed.
- **IMPROVED SANITATION** — From the time they are placed in the kettle for cooking, foods are untouched. They can be pumped directly into the cook chill bag at above-pasteurization temperature, which assures greater protection against bacteria.

CLARITY™ C5000 COOK CHILL BAGS

Sealed On One End

- Bag is sealed on one end.
- After filling, the open end is then closed with a clip or impulse sealer.

On larger bags an angled seal adds extra strength and a surface to hold onto.

Built-in Handle

- Bag is closed with a handle on one end.
- After filling, the open end is then closed with a clip or impulse sealer.

NOTE: Additional sizes available. Call for details.

Seal bag on bottom side.

SAFE HANDLING INSTRUCTIONS

Some food products may contain bacteria that could cause illness if the product is mishandled or cooked improperly. For your protection, follow these safe handling instructions.

- Keep refrigerated or frozen. Thaw in refrigerator or microwave.
- Keep raw meat and poultry separate from other foods. Wash working surfaces (including cutting boards), utensils, and hands after touching raw meat or poultry.
- Cook thoroughly. Cook to 165° F or higher.
- Keep hot foods hot. Refrigerate leftovers immediately or discard.

NFS

'Not For Sale' Safe Handling Label.

SAFE HANDLING INSTRUCTIONS

This product was prepared from inspected and passed meat, and is fully cooked unless the outside temperature of cooked top varies. For your protection, follow these safe handling instructions.

- Keep refrigerated or frozen. Thaw in refrigerator or microwave.
- Keep raw meat and poultry separate from other foods. Wash working surfaces (including cutting boards), utensils, and hands after touching raw meat or poultry.
- Cook thoroughly.
- Keep hot foods hot. Refrigerate leftovers immediately or discard.

Standard Safe Handling Label.

Stock printed bags include 'Safe Handling' warning labels on the back of the bag.

Shrink Film

This multilayered film is versatile enough to perform on all sealing systems and shrink tunnels. The premium resin formulation provides our strongest seals and offers a high shrink force, making it an ideal choice for multi packing and unitizing product.

- Wide window of operation — Performs across a complete range of applications and equipment. Ideal for older equipment.
- Crosslinked technology — Provides consistent sealing and shrinking at a broader range of temperatures.
- Superior sealing performance — On all types of equipment and sealing technology. Yields cleaner, stronger seals eliminating blowouts. Save time and money on expensive rewraps.
- Higher shrink force — Ensures greater package integrity for multi-pack applications.
- FDA compliant — for direct food contact.
- Printable — For enhanced marketing opportunities.
- Fully recyclable.
