Squwincher is focused on the INDUSTRIAL ATHLETE who is performing in extreme conditions for 8-12 hours, 5 to 7 days a week. Contains 50% less sodium and 50% more potassium than other sports drinks.

**MAXIMIZE EMPLOYEE PRODUCTIVITY in Hot Environments.**

Squwincher is one of the most cost-effective ways of increasing productivity, while helping lower the number of workplace accidents. Just like hard-working machinery, bodies need fuel. And to ensure peak performance, your employees need fuel that works as hard as they do, with a taste that keeps them revved up for more. Research shows that a high number of work-related accidents are attributed to "bad judgment" or failure of safety equipment, when, in fact, heat stress and fatigue may actually be the cause. Stop heat stress before it starts.

EARPLUG DISPENSERS AND TESTING MACHINE

### FitCheck Solo

Test the attenuation of any type of earplugs or insert hearing protector with FitCheck Solo.

- Provides test results that are representative of ANSI S12.6-2016, which is the 'gold standard' for hearing protector attenuation measurements.
- Test from 3 to 7 frequencies to generate a Personal Attenuation Report (PAR) – an attenuation calculation that can be compared to the earplug's NRR.
- Simply plug the FitCheck Solo headphone's 3.5 mm plug into any PC and run the FitCheck Solo application.
- Convenient file storage options and reporting capabilities.
- Software is easy to use and is compatible with Windows XP 7/8/10.
- Based on NIOSH WellFit program.
- FitCheck Solo is the ONLY Field Attenuation Estimation System (FAES) that does not require external hardware – no communication errors, power supplies or cabling requirements.

**TRAINING AND FIT TESTING TAKES LESS THAN 10 MINUTES.**

**! WARNING on 3M/EAR™ Hearing Protection:** These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in the USA at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury. \* Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.
