

# Deeply rooted nutrition

## Alfalfa Complex

One of the first products Dr. Shaklee introduced when he formed the company in 1956 was a tablet made using high-quality alfalfa powder derived from the aerial parts (leaves and stem materials) of mature alfalfa plants. Now called Alfalfa Complex to recognize that there are multiple nutrients in alfalfa, it continues to be one of our most popular original products.

- Alfalfa is abundant in vitamins, minerals, and chlorophyll. Dr. Shaklee recognized the value of alfalfa, the roots of which burrow deep to reach minerals inaccessible to other plants. Shaklee uses ultra-pure, premium alfalfa, grown to maintain nutrient- and chlorophyll-rich leaves
- Alfalfa Complex contains no fungicides, bacteriocides, synthetic hormones, growth regulators, or chemicals

### Usage

Do not take if you are pregnant, breastfeeding, or on medication or have a known medical condition unless you have consulted a physician. Consult a physician prior to use if you are taking blood thinners.
