

CompTIA AI Essentials v2

Course Overview

Artificial Intelligence (AI) has evolved considerably over the years. As a modern day professional, it is important for you to understand how to leverage this emerging tool to augment and assist you with your work. The evolution of AI highlights the transition from simple automation to sophisticated, adaptive systems that can perform complex tasks and make autonomous decisions. Collectively, these elements underscore the transformative potential of AI in revolutionizing industries, enhancing human capabilities, and driving technological progress.

In this course, you will do the following:

- Understand what generative AI is and how it powers AI chatbots.
- Create effective and efficient prompts.
- Avoid hallucinations and verify outputs.
- Improve AI outputs by treating AI interactions as conversations instead of transactions.
- Use AI responsibly with sensitive information.
- Identify good use cases for AI in your work.

Table of Contents

1.0 Course Intro

1.1 Getting Started

1.1.1 Course Introduction

1.1.2 How to Use This Course

1.1.3 Activity: Preassessment

2.0 Introduction to AI Chatbots

2.1 Generative AI: The Tech Behind Chatbots

2.1.1 Introduction to Generative AI

2.1.2 Activity: Identifying When and How to Use AI

2.1.3 AI Tools and Models

2.1.4 The Risks of Using AI

2.1.5 Activity: Identify a Work Task

2.2 Basic Prompt Engineering

2.2.1 It All Starts with a Prompt

2.2.2 Elements of an Effective Prompt

2.2.3 Activity: Elements of an Effective Prompt

2.2.4 Introduction to Contextual Files

2.2.5 Right-Sizing Your Prompts

2.2.6 Activity: Crafting an Effective Prompt

2.3 Module 2 Review

3.0 Improving AI Outputs

3.1 Avoiding Hallucinations and Verify Outputs

3.1.1 The Importance of Verifying AI Outputs

3.1.2 Types of Errors in AI Outputs

3.1.3 Activity: Verifying AI Outputs

3.2 Treating AI Interactions as Conversations

3.2.1 Engaging with AI Responses

3.2.2 What to Include in Your Second Prompt

3.2.3 Activity: Practicing Sustained Interaction

3.3 Module 3 Quiz

4.0 Using AI in Your Work

4.1 Use AI Responsibly

4.1.1 Using AI Securely

4.1.2 Risks and Rules for AI Usage

4.1.3 Activity: Avoid the Risks of Using AI

4.2 Identifying Good Uses Cases for AI

4.2.1 When to Use AI

4.2.2 AI is a Great Teacher

4.2.3 Use AI to Beat the Blank Page

4.2.4 Getting Started with Basic AI Automation

4.2.5 Types of Automated Workflows

4.2.6 Activity: Streamlining an Upcoming Task

4.3 Module 4 Quiz
