Goodwell Intersupply Company Profile Introduction

Founded on July 22, 2021, Goodwell Intersupply stands as a beacon of industrial excellence in Ubon Ratchathani Province, Thailand. With a robust foundation backed by a registered capital of 5 million Thai Baht, our headquarters at 673 Moo 15, Tambon Rai Noi, Amphoe Mueang Ubon Ratchathani, not only serves as our operational hub but also as a strategic point for reaching out to our clientele in the northeastern region of Thailand and Laos.

Our Commitment

At Goodwell Intersupply, our driving force is the unwavering commitment to fulfilling the diverse needs of our customers. We pride ourselves on our ability to provide prompt and efficient services, a testament to our strategic location and dedicated focus on creating unparalleled value and customer satisfaction. Our ambition is clear - to be a recognized leader in the industry.

Our Vision

"To emerge as a leading entity in the export and distribution of industrial products, marked by cutting-edge technology. We aspire to excel in the design and installation of fire protection systems and the construction and maintenance of power stations, all managed by our team of specialists."

Our Business Model

1. Industrial Product Distribution: We specialize in distributing technologically advanced products, catering to specific customer requirements.

2. fire system: design and installation of fire systems in both interior and exterior settings.

3. Power Station Construction: We are adept in the construction and development of power stations, marking our footprint in this niche.

4. Maintenance: Our skilled team provides expert maintenance services for power stations, ensuring their optimal operation.

Background and Philosophy

Background: Born from a vision to offer top-tier services in exports, fire systems, and power station construction, Goodwell Intersupply has always been at the forefront of quality and innovation.

Philosophy: "Creating value for customers through professional services and the advancement of modern technology."

Products and Services

www.goodwellinter.com

1

Fire System Installation

We provide fire system installation services that encompass both buildings and industrial settings, ensuring comprehensive and secure coverage. Our team of skilled engineers is proficient in planning and installing systems tailored to the specific needs of our clients..

Construction and Installation of Power Stations

We provide construction and installation services for power stations in all forms, catering to both general use and special projects. We are committed to ensuring quality and safety in our endeavors..

Industrial Product Distribution

Distributing high-quality industrial products, sourced from both leading brands and innovative developments, to meet the diverse needs of customers at every level.

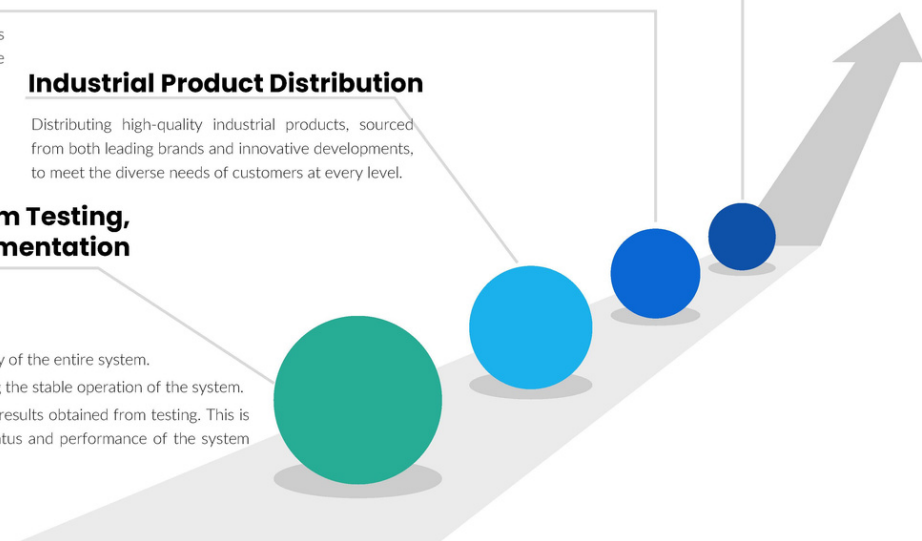

Equipment Inspection, System Testing, Maintenance, and Test Result Documentation

-**Equipment Inspection:** Verification of the accuracy and condition of the equipment used in the system.

-**System Testing:** Evaluation of the overall efficiency and functionality of the entire system.

-**Maintenance:** Repair and maintenance activities aimed at preserving the stable operation of the system.

-**Test Result Documentation:** Creation of documents specifying the results obtained from testing. This is done to provide customers with a summarized overview of the status and performance of the system that has undergone service..

Commitment to Excellence

Quality Standards: We are relentless in our pursuit of the highest quality standards in our products and services.

Human Resource Development: We place immense value on nurturing our human resources to enhance customer service.

Safety and Environment: Safety in work and product processes is paramount, as is our dedication to minimizing our environmental footprint.

Vision and Goals

Vision: "To be a leader in export, fire system services, and construction of power stations, earning unwavering trust from our customers."

Goals: Our focus is on ensuring customer satisfaction, developing cutting-edge technology, and providing safe, eco-friendly services.

Customer Support and Training

Support: Our customer support team is not only skilled but also empathetic, ready to meet diverse customer needs.

Training: We emphasize the continuous training of our team, equipping them with the knowledge and skills for efficient and effective service delivery.

Goodwell Intersupply: Your Partner in Industrial Excellence and Technological Advancement.
