The story of being Dried Longan Seasoning

Two years ago, we looked back and aimed to add value to our by-products. Our goal was to create a new product suitable for all ages while maintaining a high quality of life. We decided on seasonings because they can easily be used in households, restaurants, hotels, and by manufacturers. Simultaneously, the trend of health consciousness was gaining popularity worldwide. Therefore, we began developing healthy seasoning recipes to align with this trend. Consumers are increasingly interested in eating well and staying healthy, so our new product meets these needs by avoiding food additives like MSG and using only plant-based ingredients. We carefully select seasonal raw materials to ensure freshness and deliciousness. Our product not only helps to shorten soup preparation time but also maintains high quality and deliciousness, contributing to a better quality of life.

**Why should we avoid MSG?
我们为什么应该避免味精?**

MSG, the chemical additive that we should avoid. If consumers consume too much, it will have side effects for your health such as numb tongue, thirsty, allergy to MSG, or even shortness of breath. And if taken continuously, it can increase the risk of heart disease and chronic kidney disease.

It is also dangerous for pregnant women, because it affects the growth of the fetus. Because of these reason, it's better for consumers to avoid MSG for the better life.

MSG (味精) 是一种化学添加剂，我们应该避免摄入。如果消费者摄入过量，可能会对健康产生副作用，如舌头麻木、口渴、对味精过敏，甚至呼吸急促。长期摄入可能增加心脏病和慢性肾脏疾病的风险。对孕妇来说也很危险，因为它会影响胎儿的生长。因此，基于这些理由，消费者最好避免摄入味精，以过上更健康的生活。
