# **VLine**

### Communication Kit

### Features -----

Real-time Communication Service
- VLine is a communication Kit for Kedacom portable mobile devices (such as body worn camera and body worn surveillance phone). It can provide real-time communication service, such as Push-to-Talk and message chat. VLine supports address book and contacts service, so all the body worn camera and body worn surveillance phone can easily communicate with other devices.

#### **Group Communication**

VLine can build up many groups, each groups can have internal PTT or chat. VLine PC client also can join in the PTT or chat group, In addition, the VLine PC client can support broadcast and bulletin function, so you can send alarm or any message to all the body worn camera and body worn surveillance phone in the same time.

#### **Map Interface**

VLine support map interface by Google offline map. You can view the position all the body worn camera and body worn surveillance phone on the map in real-time.

### **Powerful Management Functions**

- Authorization of multi-group listening, forcible group joining Forcible talking assigned to high-ranking users
- Chat copying, favorites, deletion, forwarding, and history searching

## **High-performance, High-capacity**- Supports up to 500 clients in a group

- Supports up to 50,000 users
- Supports low Message and PTT delay (< 500 ms) on 3G/4G networks Supports clear voice processing
